Across the Curriculum is designed to help students enhance their thinking skills in every class. The skills discussed are needed in every academic area and setting both in and out of class. They are determining cause, assessing likelihood and uncertainty, comprehending complex text, solving novel problems, making good decisions, evaluating claims and evidence, and thinking creatively. In this adaptation of her best-selling text, Diane Halpern applies the theories and research of cognitive psychology to the development of critical thinking and learning skills needed in the increasingly complex world in which we work and live. The book is distinguished by its clear writing style, humorous tone, many practical examples and anecdotes, and rigorous academic grounding. Everyday examples and exercises promote the transfer of critical thinking skills and dispositions to real world settings and problems. The goal is to help readers recognize when and how to apply the thinking skills needed to analyze arguments, reason clearly, identify and solve problems, and make sound decisions. Also of importance, a general thinking skills framework ties the chapters together, but each is written so that it can stand alone. This organization allows for maximum flexibility in the selection of topics and the order in which they are covered. This book is intended for use in any course emphasizing critical thinking as an approach to excellence in thinking and learning.

**The Volunteer Revolution** Bill Hybels, 2009-05-18 Pastor Bill Hybels believes that there is a new reality in America. The church has entered an era of growth and unprecedented spiritual opportunity to share the Gospel, yet at the same time we face a shrinking economy and a world in crisis. This poses a great resource challenge for the church. In order to reach out to people who are spiritually hungry, the church needs more people to be equipped to serve others. Hybels passionately believes the key to the future of the church is the equation  $X \text{ paid staff} + Y \text{ volunteers} = Z \text{ bearing much fruit for God's glory}$ . Churches cannot afford to continue hiring more and more staff with limited budgets. The key to resourcing the church is what Hybels calls the Y factor. The Y factor is the pool of volunteers in every church. The great need of the church is to grow the church's volunteer base through the equipping ministry of church staffs. As churches recover the message of Ephesians 4:11-12 to equip God's people for works of service, they will launch a Volunteer Revolution. People are just waiting to discover the gifts and passions that God has given them to serve others, and then be invited to use those gifts and passions through the local church in order to advance the kingdom of God on Earth. Hybels believes that every church staff should be helping people discover their spiritual gifts, passions, and place of service in order to meet the growing needs in our churches and world. Hybels makes a clarion call to move beyond volunteer retention to volunteer acquisition. By attracting, connecting, training, and sustaining volunteers, churches will mobilize people into places of service that will bring new meaning to their lives and understand why God put them on planet Earth. Hybels also outlines how we can build lifelong volunteers in the
