Shaping Melbourne's Future? J. Brian McLoughlin, 1992 This study examines the effects of town planning on the shape and structure of the Melbourne metropolitan area since 1945

Governance and Planning of Mega-City Regions Jiang Xu, Anthony Yeh, 2010-09-13 Neoliberalism's market revolution has had a tremendous effect on contemporary mega city regions The negative consequences of market oriented politics for territorial growth have been recognized While a lot of attention has been given to how planners and policy makers are fighting back political fragmentation through innovative governance and planning little has been done to reveal such practices through an international comparative perspective Governance and Planning of Mega City Regions provides a comparative treatment and examination of how new approaches in governance and planning are reshaping mega city regions around the world The contributors highlight how European mega city regions are evolving and how strategic intervention is being redefined to enable the integration of urban qualities in a multi level governance environment how traditional federal countries in North America and Australia see the promise of major policies and development initiatives finally moving ahead to herald a more strategic intervention at national and regional scales and how transitional economies in China witness the rise of state strategies to control the articulation of scales and to reassert the functional importance of state in a growing diffused power context This book offers case studies written from a variety of theoretical and political perspectives by world leading scholars It will appeal to upper level undergraduates postgraduates researchers and policymakers interested in urban and regional planning geography sociology public administrations and development studies

Australian Metropolis Robert Freestone, Stephen Hamnett, 2020-03-25 The Australian Metropolis splendidly fills a huge gap in the literature on Australian cities It is the definitive account of the history of Australian cities and the crucial role which planning has played in their genesis and growth Spanning two centuries from the very beginning until the present day it will instantly become a standard work Professor Sir Peter Hall author of Cities in Civilisation The Australian Metropolis provides a single volume introduction to the development of urban planning It fills the need for a convenient initial resource for anyone interested in the broad evolutionary sweep of modern planning By setting the evolution of Australian planning within its broader societal context The Australian Metropolis presents a balanced appraisal of the positive negative and ambivalent legacies resulting from attempts to plan Australia's major cities This book is the winner of two Royal Australian Planning Institute Awards for Planning Excellence in 2000 2001 including the New South Wales Division Prize for Planning Scholarship in February 2001

Great Policy Successes Paul 't Hart, Mallory E. Compton, 2019 Despite their many failings and the perennial political controversies that surround them governments sometimes get it right in a big way We can learn much from examining when and how this occurs This book tells the story of 15 instances of highly successful government reforms programmes and projects from around the world

Planning Metropolitan Australia Stephen Hamnett, Robert Freestone, 2017-10-24 Australia has long been a highly sub

urbanized nation but the major distinctive feature of its contemporary settlement pattern is that the great majority of Australians live in a small number of large metropolitan areas focused on the state capital cities The development and application of effective urban policy at a regional scale is a significant global challenge given the complexities of urban space and governance Building on the editors previous collection The Australian Metropolis A Planning History 2000 this new book examines the recent history of metropolitan planning in Australia since the beginning of the twenty first century After a historical prelude the book is structured around a series of six case studies of metropolitan Melbourne Sydney Adelaide Perth the fast growing metropolitan region of South East Queensland centred on Brisbane and the national capital of Canberra These essays are contributed by some of Australia s leading urbanists Set against a dynamic background of economic change restructured land uses a more diverse population and growing spatial and social inequality the book identifies a broad planning consensus around the notion of making Australian cities more contained compact and resilient But it also observes a continuing gulf between the simplified aims of metropolitan strategies and our growing understanding of the complex functioning of the varied communities in which most people live This book reflects on the raft of planning challenges presented at the metropolitan scale looks at what the future of Australian cities might be and speculates about the prospects of more effective metropolitan planning arrangements

The Power of Planning Oren Yiftachel,Jo Little,David Hedgcock,Ian Alexander,2012-12-06 The book addresses critically the question What is the societal impact of urban and regional planning It begins with a theoretical discussion and then analyses through a series of case studies the intentions contents struggles and consequences of urban and regional planning It shows that plans and policies often defy the commonly perceived role of advancing equality justice development and amenity by causing social problems marginalisation and inequalities The book looks at planning from a critical distance without a priori belief in its necessity or usefulness The 12 chapters written by renowned international scholars demonstrate the multiplicity of social and political struggles over the contested terrain of spatial policies The book focuses on four key areas where the impact of planning is explored the community power gender relations ethnic tensions and social polarisation while comparing three societies Australia Israel and England Audience This volume is mainly intended for faculty and students of academia but also for urban professionals and policy makers The book is relevant to fields such as urban and regional planning geography political science urban studies urban sociology urban anthropology ethnic and gender relations

The Future for Planners Ben Clifford, Susannah Gunn, Andy Inch, Abigail Schoneboom, Jason Slade, Malcolm Tait, Geoff Vigar, 2024-08-21 Spatial planning is at a crossroads with government reform undermining the traditional vision of state employed planners making decisions about urban development in a unified public interest Nearly half of UK planners are now employed in the private sector with complex inter relations between the sectors including supplying outsourced services to local authorities struggling with centrally imposed budget cuts Drawing on new empirical data from a major research project Working in the Public Interest this book reveals what it's like to be a UK planner in the early 21st century and how the profession can fulfil its potential for the benefit of society and the environment

Australia's Unintended Cities Richard Tomlinson, 2012-11-23 Australia's Unintended Cities identifies and researches housing and housing related urban outcomes that are unintended consequences of other policies the structure of incentives and disincentives for the housing market and governance arrangements for metropolitan areas and planning and service delivery It is argued that unintended consequences have a greater impact on the housing market and Australia's cities and their future than policies directly concerned with housing urban policy and metropolitan strategic planning The book will inform policy makers including government officials consultants and politicians It will also be used by academics and students in various areas of urban policy such as housing and urban planning as well as environment public policy and economics

Being a Planner in Society Nicholas Low, 2020-08-28 This timely book addresses what it is to be a planner in a changing world a world in need of transformation in the way planning is done in order to tackle social problems and ecological crises Nicholas Low argues for the need to revalue public planning sensitive to the social context in which it takes place

The Democratic Plan: Analysis and Diagnosis Alan March, 2016-03-16 Despite ongoing technical and professional advances urban and regional planning is often far less effective than we might hope Conflicting approaches and variable governmental settings have undermined planning's legitimacy and allowed its goals to be eroded and co-opted in the face of mounting challenges Deeper organising principles for self understanding action and productive critique are lacking This book takes steps toward resolving these problems by providing a clear theoretical position to practically examine urban planning

systems within democratic governance settings the basis of planning's legitimacy and action. Joining practical planning with political science perspectives and the work of critical theorists such as Jürgen Habermas it directly examines urban planning as a process of governance. The dilemmas inherent to democracy are used as key organising principles and challenges for planning. Collective knowledge development and steering processes are examined as the core purposes of urban planning. Communicative planning's grounding in the work of Habermas is revisited to develop practical ways of examining overall planning systems. This theoretical approach can be adapted to a range of planning systems and settings beyond those examined in the book such as corporate or political realms. It is one of only a few analyses that bring together theoretical understandings and grounded and practical analyses of an Australian planning system. Conceptual and highly practical explanations of how and why the Victorian system does and doesn't work are revealed. The book demonstrates how specific placed based understandings and meaningful comparison between planning systems can be made using critical theory to suggest positive change.

Companion to Urban Design Tridib Banerjee, Anastasia Loukaitou-Sideris, 2011-03-17 Today the practice of urban design has forged a distinctive identity with applications at many different scales ranging from the block or street scale to the scale of metropolitan and regional landscapes. Urban design interfaces many aspects of contemporary public policy: multiculturalism, healthy cities, environmental justice, economic development, climate change, energy, conservations, protection of natural environments, sustainable development, community, liveability and the like. The field now comprises a core body of knowledge that enfolds a rich history of ideas, paradigms, principles, tools, research and applications enriched by electric influences from the humanities and social and natural sciences. *Companion to Urban Design* includes more than fifty original contributions from internationally recognized authorities in the field. These contributions address the following questions: What are the important ideas that have shaped the field and the current practice of urban design? What are the major methods and processes that have influenced the practice of urban design at various scales? What are the current innovations relevant to the pedagogy of urban design? What are the lingering debates, conflicts and contradictions in the theory and practice of urban design? How could urban design respond to the contemporary challenges of climate change, sustainability, active living, initiatives, globalization and the like? What are the significant disciplinary influences on the theory, research and practice of urban design in recent times? There has never before been a more authoritative and comprehensive companion that includes core foundational and pioneering ideas and concepts of urban design. This book serves as an invaluable guide for undergraduate and postgraduate students, future professionals and practitioners interested in architecture, landscape architecture and urban planning but also in urban studies, urban affairs, geography and related fields.
