# Shaping The Democratic Order The Institutionalisation Of Parliament In Poland

**Susanne Kraatz, Silvia von Steinsdorff**

## **Shaping The Democratic Order The Institutionalisation Of Parliament In Poland:**

Executive Leadership and Legislative Assemblies Nicholas D. J. Baldwin, 2014-01-02 The relationship between a head of government head of the executive branch and a nation's parliament or legislative assembly the legislative branch has long been the focus for comment and analysis for example has the prime minister in the United Kingdom come to a position of dominance at the expense of the power of parliament Does the American president stand head and shoulders above Congress Is a French president master of the system Need the Russian president pay attention to the Duma What of the position in other parliamentary and presidential systems In this book Baldwin seeks to provide answers and does so by drawing upon the knowledge and expertise of an international group of scholars whose essays advance our knowledge of the subject This book was previously published as a special issue of the Journal of Legislative Studies *Shaping the Democratic Order* Anna van der Meer Krok-Paszkowska, 2000 *Democracy in Poland* Anna Gwiazda, 2015-07-24 This book assesses the quality of democracy in Poland from the collapse of communism in 1989 up to the 2011 parliamentary election It presents an in depth empirically grounded study comparing two decades of democratic politics Drawing on democratic theory and comparative politics the book puts forward an evaluation of democracy based on four dimensions representation participation competition and accountability The book is an important contribution to debates on the performance of the new democracies in Central and Eastern Europe where some scholars argue that there is a democratic crisis that after a period of democratic progress most of these countries are experiencing democratic fatigue and that their democratic performance is poor However the Polish case shows that democracy is not in crisis in fact the quality of democracy in Poland has improved The book shows that democratic quality stems from good democratic institutions Moreover the Polish case shows useful lessons that can be learnt by democratic reformers in countries that are undergoing the transition to democracy or are aiming to consolidate their democratic systems It concludes that effective accountability good representation and stable competition are vital

*In Pursuit of Liberalism* Rachel A. Epstein, 2008-09-29 Though the fall of the Soviet Union opened the way for states in central and eastern Europe to join the world of market oriented Western democracies the expected transitions have not been as easy common or smooth as sometimes perceived Rachel A Epstein investigates how liberal ideas and practices are embedded in transitioning societies and finds that success or failure depends largely on creating a social context in which incentives held out by international institutions are viewed as symbols of an emerging Western identity in the affected country Epstein first explains how a liberal worldview and institutions like the European Union World Bank the International Monetary Fund and the North Atlantic Treaty Organization go hand in hand and why Western nations assume that a broad and incremental program of incentives to join will encourage formerly authoritarian states to reform their political and economic systems Using Hungary Poland Romania and the Ukraine as case studies she demonstrates the limits of conditionality in the face of national social perceptions and elucidates the three key points around which a consensus within

the state must emerge before international institutions can expect liberalization domestic officials must be uncertain about how changing policies will affect their interests the status of international and domestic institutions must not be in jeopardy and the proposed policies must seem credible In making her case Epstein cleverly bridges the gap between the rationalist and constructivist schools of thought Offering new data on and fresh interpretations of reforming central bank policies privatizing banks with foreign capital democratizing civil military relations and denationalizing defense policy In Pursuit of Liberalism extends well beyond the scope of previous book length studies

**Introduction to the Constitution of the Republic of Poland** Bogumił Szmulik, Jarosław Szymanek, 2020 Introduction to the Constitution of the Republic of Poland by Bogumi Szmulik and Jarosław Szymanek is a cohesive and no nonsense overview serving as an unassuming and reader friendly compendium of the current Polish Constitution With each chapter the authors gradually introduce readers to the world of legal and political constitutional complexities Without overloading readers with information they conduct a comprehensible if accessible narration as well as providing intelligible but nuanced and critical accounts of difficult and controversial matters Despite its modest title their work is much more than a simple introduction to the Polish Constitution Readers will find here not only an approachable analysis of the contents of the 1997 Constitution but will also become familiar with the practice of its implementation as well as with the trajectories of related debates and proposals for future changes Such a comprehensive approach on the part of the authors makes the book suitable not only for constitutional lawyers i.e. professionals but for a much wider group of general readers both at home and abroad After all each of us regardless of our type of education or scope of interests ought to be conversant with the constitution of our country As regards international readers the English translation of the book may well be the only wide ranging publication available presenting the Polish fundamental statute Prof dr hab Genowefa Grabowska Authored by Bogumi Szmulik and Jarosław Szymanek the monograph is an invaluable and fascinating example of a scholarly publication The book specifies and explains the solutions often very general and challenging in terms of interpretation adopted by the legislators in the Constitution of the Republic of Poland The mode of disquisition is informed by didacticism and systematism making the publication exceptionally valuable given the wide range of readers currently interested in constitutional matters Concise and simultaneously packed with information Introduction to the Constitution of the Republic of Poland is also likely to constitute an important point of reference while solving theoretical and practical dilemmas connected with the Polish fundamental statute dr hab Paweł Sobczyk prof UO

**Developments in Central and East European Politics 3** Stephen White, Judy Batt, Paul G. Lewis, 2003 *Developments in Central and East European Politics* 4 Stephen White, Judy Batt, Paul G. Lewis, 2007 The face of Central and Eastern Europe has been dramatically transformed since the collapse of communism The region faces new challenges including the needs to find a balance between effective leadership and accountability and to reverse the economic decline of the late communist years Addressing these concerns and others *Developments in Central and East European Politics 4* brings together specially

commissioned chapters by leading scholars from both sides of the Atlantic The chapters all of which are new to this edition focus on key features of the political systems that have emerged following the transition to postcommunist rule and the enlargement of the European Union through 2006 Full attention is given to the pattern of events in individual nations but the main emphasis is on the framework of politics across the region constitutions leadership parliaments parties and electoral systems and the process of politics as it is revealed in political participation civil society economic change and the quality of democratic government within and beyond the region Clearly written and well supported with references and suggestions for further reading *Developments in Central and East European Politics* 4 is the ideal guide to the process of change in a group of states that were formerly modeled on the Soviet Union but are now a distinctive and varied presence within a continent that has been redefining its boundaries its values its economic systems and its international allegiances Contributors Judy Batt Dirk Berg Schlosser Sarah Birch Heather Grabbe Tim Haughton Krzysztof Jasiewicz Petr Kopeck Paul G Lewis Frances Millard Cas Mudde D Mario Nuti Mark Pittaway Ray Taras Stephen White Andrew Wilson Kataryna Wolczuk

*The Acceptance of Party Unity in Parliamentary Democracies* David M. Willumsen, 2017-09-01 Despite the central role of policy preferences in the subsequent behaviour of legislators preferences at the level of the individual legislator have been almost entirely neglected in the study of parliaments and legislative behaviour The main reason for this is the difficulty of obtaining measures of legislator preferences that are not based on their behaviour This book explores direct measures of policy preferences through parliamentary surveys Building on this the book develops measures of policy incentives of legislators to dissent from their parliamentary parties and demonstrates that preference similarity amongst legislators explains a very substantial proportion of party unity yet cannot explain all of it Through a quantitative analysis of the attitudes of legislators to the demands of party unity and what drives these attitudes the book argues that the reason for the difference between observed unity and the levels of unity which can be explained by preference similarity among legislators is the conscious acceptance by MPs that the long term benefits of belonging to a united party such as increased influence on legislation lower transaction costs and better chances of gaining office outweigh the short term benefits of always voting for their ideal policy outcome The volume reinforces this argument through the analysis of both open ended survey questions as well as survey questions on the costs and benefits of belonging to a political party in a legislature

**EU Enlargement and the Failure of Conditionality** Dimitry Kochenov, 2008-01-01 Among the criteria for accession to the European Union are democracy and the Rule of Law In the insightful analysis offered by the author of this book these concepts while admirable and even necessary criteria in principle are almost impossible to measure and any judgement grounded in them will always be difficult to justify In his words by including analysis of democracy and the Rule of Law within the field of the EU enlargement law the Union entered an unstable terrain of vague causal connections and blurred definitions Dr Kochenov addresses this problem by proceeding as follows 1 Outlining EU enlargement law in general including the principle of conditionality and the role

played by the analysis of democracy and the Rule of Law in enlargement preparation 2 Focusing on the role actually played by the monitoring of democracy and the Rule of Law in ten candidate countries scrutinizing the way the EU used the legal tools and competences outlined in its enlargement law The book adopts the EU's own understanding of democracy and the Rule of Law as derived directly from the substance of the numerous legal and political instruments issued by the Community Institutions and especially the Commission in the course of the pre accession process In this way it demonstrates the actual as opposed to the officially announced role played by the assessment of democracy and the Rule of Law in the candidate countries in the regulation of enlargement Many formidable inconsistencies in the application of the conditionality principle are thus laid bare This leads the author to a series of recommendations on policy and procedure that he demonstrates could be profitably applied to the regulation of current and future accessions using the Commission's own structure of monitoring pre accession reforms in the three areas of the legislature executive and judiciary in candidate countries The probity and soundness of these recommendations firmly grounded as they are in the actual pre accession monitoring and its consequences for the pre accession progress of ten Eastern European countries admitted to the EU in 2004 and 2007 will greatly interest policymakers and scholars concerned with the future of European integration **Post-Communist and**

**Post-Soviet Parliaments** Philip Norton, David M. Olson, 2013-09-13 The sudden collapse of communism stimulated both the rapid emergence of fledgling democracies and scholarly attention to the post communist transition These newly democratized parliaments have been described as parliaments in adolescence This book identifies six parliaments which exemplify the wide range of developments in the new post communist political systems from the stable consolidated democracies to the less stable and more authoritarian states within which their respective parliaments function Finally the post communist parliaments are compared with the presumptively more established west European parliaments This book bridges the usual gap in research between the post communist parliaments and more normal democratic parliaments to develop a common legislative research perspective on both new and established parliaments This book was previously published as a special issue of the Journal of Legislative Studies *Democratic Consolidation in Eastern Europe: Volume 1: Institutional Engineering* Jan Zielonka, 2001-06-14 This is the first volume in a series of books on democratic consolidation in Eastern Europe The series focuses on three major aspects of democratic consolidation in Eastern Europe institutional engineering transnational pressures and civil society This first volume analyses constraints on and opportunities of institutional engineering in Eastern Europe to what extent and how elites in Eastern Europe have been able to shape if not manipulate the politics of democratic consolidation through institutional means The aim is to contrast a set of democracy theories with empirical evidence accumulated in Eastern Europe over the last ten years The volume tries to avoid complex debates about definitions methods and the uses and misuses of comparative research Instead it tries to establish what has really happened in the region and which of the existing theories have proved helpful in explaining these developments The

volume starts with a presentation of conceptual and comparative frameworks followed by in depth empirical analyses of the thirteen individual countries undergoing democratic consolidation The first conceptual and comparative part contains three chapters The first chapter explains what institutional engineering is about and describes our experiences with institutional engineering in former transitions to democracy It also focuses on the import and export of institutional designs The second chapter analyses the utility of constitutions in the process of democratic consolidation The third chapter compares constitutional designs and problems of implementation in Southern and Eastern Europe The empirical case studies deal with the following countries Estonia Latvia Lithuania Bulgaria Romania Ukraine Russia Belarus the Czech Republic Slovakia Slovenia Hungary and Poland And the conclusions evaluate the enormous impact of institutions on politics in Eastern Europe and show how central constitutional designs are to the institutional engineering in the societies undergoing transitions to democracy

Legislative Oversight and Budgeting Rick Stapenhurst, 2008 In most countries parliament has the constitutional mandate to both oversee and hold government to account In light of the increased focus on good governance academics and legislative strengthening practitioners are re examining parliament s oversight function with a view to increasing public financial accountability curbing corruption and contributing to poverty reduction This volume brings together research from many different perspectives and many different legislative settings worldwide As the country case studies in section III demonstrate the accountability mechanisms or oversight tools available to the legislature vary based on constitutionally defined powers of the legislature institutional arrangements between the branches of government divisions of authority between national regional and local governments the degree of legitimacy conferred on the legislature and the resources available to it The budget process provides critical opportunities Section II of this volume is devoted to examining budget oversight from the formulation and approval of the budget to implementation and the ex post examination of the public accounts Special attention is also paid to mechanisms to assist parliaments such as Public Accounts Committees and independent parliamentary budget offices This title will be of interest to parliamentarians and parliamentary staff legislative strengthening practitioners and students of legislative development

Parlamente und Systemtransformation im postsozialistischen Europa Susanne Kraatz, Silvia von Steinsdorff, 2013-03-09 Das Buch gibt einen umfassenden Überblick über die parlamentarische Entwicklung in Mittel und Osteuropa In zwölf Länderstudien wird der Beitrag der Volksvertretungen zur Systemtransformation im ersten postsozialistischen Jahrzehnt untersucht Im Mittelpunkt steht hierbei sowohl die institutionelle Konsolidierung der Parlamente als auch ihre Rolle in den neuen politischen Systemen Diese empirischen Bestandsaufnahme wird durch eine Reihe vergleichender Analysen ergänzt

*Bibliographie Mensuelle* United Nations Library (Geneva, Switzerland), 2002

**Das politische System Polens** Klaus Ziemer, 2012-12-02 Dieser Band stellt die wichtigsten politischen Institutionen Polens vor und behandelt die Dynamik ihrer Interaktionen Er beleuchtet die Rolle zentraler gesellschaftlicher Akteure wie der Katholischen Kirche analysiert die wichtigsten gesellschaftlichen Konfliktlinien

und zeigt Entwicklungstendenzen des politischen Systems vor dem Hintergrund einer sich rapide modernisierenden Gesellschaft auf Committees in Post-Communist Democratic Parliaments David M. Olson, William E. Crowther, 2002 The former Communist countries of Eastern Europe provide a treasure trove of data on the development of democratic institutions The contributors to this volume use the recent experiences of these countries to identify how the various committee systems are structured and tie the relative strength of the committee system in each country to the relative strength of its legislature A uniform theoretical framework connects the work of each essay and ties the parts into an informative whole Comparative analysis based on seven indicators of institutionalization suggests that the committee systems of Hungary Poland and the Czech Republic are more institutionalized than those found elsewhere Bulgaria is a middle case while the parliaments of Moldova Lithuania and Estonia are the least Of the indicators stability in committee membership and extent of committee activity are among the most important for post communist parliaments in their first decade This examination of legislative committees in their beginning stages suggests that the processes of institutionalization are sequenced expertise in a policy sector is the basis of both the assertion of jurisdictional autonomy by committees and the motive for party control of their membership and officer positions Basic to these developments however is the emergence of a stable and consistent structure of the committee system as a whole More broadly committee attributes are closely linked to the condition and functioning of both parliamentary party groups and the government Polonica zagraniczne , 2005

*The Politics of Central Europe* Attila Ágh, 1998-06-10 This book provides a thorough introduction to East Central Europe and its renewed emergence since the momentous changes in the former Soviet bloc By carefully differentiating between Central Europe East Central Europe and the Balkans Attila Ágh shows how the term Eastern Europe was a political misnomer of the Cold War Drawing on theories of democratization to develop a common conceptual and theoretical framework this textbook is the first to place the political and social changes of this complex region in a genuinely comparative perspective Through broad thematic sections the student is shown how to distinguish between processes of democratization and redemocratization transition and transformation and is introduced to the important issues of Europeanization nation building institutionalization parties and political culture Illustrated throughout with chronological charts and the latest data analysis this is an invaluable guide to the emerging political systems and their future prospects at the core of the new Europe *The Oxford Handbook of Legislative Studies* Shane Martin, Thomas Saalfeld, Kaare W. Strøm, 2014-06-19 Legislatures are political bodies essential to democracy and the rule of law They present social scientists with numerous intriguing puzzles with far reaching implications for our understanding of political institutions Why and how have these ancient assemblies established in pre democratic times survived the transition to mass democracies How have they adapted How do they structure such processes as budgeting legislation and executive oversight How do their members get selected and what consequences flow from differences in these rules What roles do committees and political parties play

in contemporary legislatures What functions do legislatures perform in autocratic semi democratic or recently democratized societies What explains the similarities and differences in legislative rules powers and recruitment What are the policy and other consequences of variation in how legislatures are organized and function The 33 chapters in The Oxford Handbook of Legislative Studies written by 47 of the most distinguished legislative scholars provide a comprehensive and up to date description and assessment of the state of the art in legislative studies Key themes explored include theoretical paradigms and methodological approaches to the study of legislatures representation and legislative careers internal organization the role of parties within legislatures and the role of legislatures in policy making and accountability The Handbook also explores the emergence of parliaments in historical and contemporary contexts including new democracies and trans national institutions

*Let's talk politics* Hilde Van Belle, Kris Rutten, Paul Gillaerts, Dorien Van De Mierop, Baldwin Van Gorp, 2014-04-15 In this volume on political argumentation the study of argument takes place within a rhetorical framework As such it is a contribution to the study of argumentation in context with an explicit rhetorical approach Rather than focusing on the poor quality of political participation and political understanding by citizens this volume explores how the study of rhetoric both as an academic discipline and as a political practice stands in a unique position to critically engage with a contextualized understanding of politics and civic engagement Many contributions in this volume confront classical rhetorical concepts and theories with current political developments such as globalization and multiculturalism and the emergence of new democracies Others focus explicitly on deliberative rhetoric in the political realm or undertake a critical analysis of political texts and public events in order to explore what this can imply for the development of a critical citizenship

## Whispering the Strategies of Language: An Mental Quest through **Shaping The Democratic Order The Institutionalisation Of Parliament In Poland**

In a digitally-driven world wherever displays reign supreme and immediate transmission drowns out the subtleties of language, the profound strategies and emotional subtleties hidden within phrases usually go unheard.
