

SHAPING THINGS

THIS BOOK IS ABOUT CREATED OBJECTS and the environment, which is to say, ~~it's a book about everything.~~ Seen from sufficient distance, this is a small topic.

The ideal readers for this book are those ambitious young souls (of any age) who want to constructively intervene in the process of technosocial transformation. That is to say, this book is for designers and thinkers, engineers and scientists, entrepreneurs and financiers, and anyone else who might care to understand why things were once as they were, why things are as they are, and what things seem to be becoming.
