**Shared Beginnings, Divergent Lives** John H. LAUB, Robert J. Sampson, 2009-06-30 This book analyzes newly collected data on crime and social development up to age 70 for 500 men who were remanded to reform school in the 1940s Born in Boston in the late 1920s and early 1930s these men were the subjects of the classic study Unraveling Juvenile Delinquency by Sheldon and Eleanor Glueck 1950 Updating their lives at the close of the twentieth century and connecting their adult experiences to childhood this book is arguably the longest longitudinal study of age crime and the life course to date John Laub and Robert Sampson's long term data combined with in depth interviews defy the conventional wisdom that links individual traits such as poor verbal skills limited self control and difficult temperament to long term trajectories of offending The authors reject the idea of categorizing offenders to reveal etiologies of offending rather they connect variability in behavior to social context They find that men who desisted from crime were rooted in structural routines and had strong social ties to family and community By uniting life history narratives with rigorous data analysis the authors shed new light on long term trajectories of crime and current policies of crime control Table of Contents Acknowledgments 1 Diverging Pathways of Troubled Boys 2 Persistence or Desistance 3 Explaining the Life Course of Crime 4 Finding the Men 5 Long Term Trajectories of Crime 6 Why Some Offenders Stop 7 Why Some Offenders Persist 8 Zigzag Criminal Careers 9 Modeling Change in Crime 10 Rethinking Lives in and out of Crime Notes References Index The accounts of individuals are guite riveting and the book can be recommended strongly purely for the stories provided about diverse lives However the book is much much more than that in terms of the serious challenge that the authors findings and ideas present to some of the leading contemporary theories of both crime and development A highly original and scholarly contribution of the highest quality Sir Michael Rutter Institute of Psychiatry King s College London ttitleShared Beginnings Divergent Lives is an extraordinary work which shows the deep insights gained by studying the whole life course beginning in childhood and ending in later life With access to a rare data archive the authors provide compelling evidence on the remarkably varied adult lives of teenage delinquents who grew up in low income areas of Boston born 1925 1935 The story behind these varied life paths and their consequences inspires fresh thinking about crime over the life course through models of life trajectories and vivid narratives that reveal the complexity of lives Glen H Elder Jr University of North Carolina at Chapel Hill This book redraws the landscape of developmental criminology that Laub and Sampson already have done so much to define setting new standards and benchmarks along the way The authors both provide new evidence for earlier conclusions and challenge prevailing assumptions and assertions thereby reshaping the criminological research agenda for years to come John Hagan Northwestern University Shared Beginnings, Divergent Lives John H. Laub, Robert J. Sampson, 2006-03-31 This book analyzes newly collected data on crime and social development up to age 70 for 500 men who were remanded to reform school in the 1940s Born in Boston in the late 1920s and early 1930s these men were the subjects of the classic study

Unraveling Juvenile Delinquency by Sheldon and Eleanor Glueck 1950 Updating their lives at the close of the twentieth century and connecting their adult experiences to childhood this book is arguably the longest longitudinal study of age crime and the life course to date John Laub and Robert Sampson's long term data combined with in depth interviews defy the conventional wisdom that links individual traits such as poor verbal skills limited self control and difficult temperament to long term trajectories of offending The authors reject the idea of categorizing offenders to reveal etiologies of offending rather they connect variability in behavior to social context They find that men who desisted from crime were rooted in structural routines and had strong social ties to family and community By uniting life history narratives with rigorous data analysis the authors shed new light on long term trajectories of crime and current policies of crime control Explanation of Crime Per-Olof H. Wikström, Robert J. Sampson, 2006-11-30 Integration of disciplines theories and research orientations has assumed a central role in criminological discourse yet it remains difficult to identify any concrete discoveries or significant breakthroughs for which integration has been responsible Concentrating on three key concepts context mechanisms and development this volume aims to advance integrated scientific knowledge on crime causation by bringing together different scholarly approaches Through an analysis of the roles of behavioural contexts and individual differences in crime causation The Explanation of Crime seeks to provide a unified and focused approach to the integration of knowledge Chapter topics range from individual genetics to family environments and from ecological behaviour settings to the macro level context of communities and social systems This is a comprehensive treatment of the problem of crime causation that will appeal to graduate students and researchers in criminology and be of great interest to policy makers and practitioners in crime policy and prevention Criminal Theory Profiles Joshua D. Behl, Leonard A. Steverson, 2021-09-23 This book brings to life the major theories of crime and deviance by presenting detailed profiles that help readers differentiate each theory and its major propositions by better understanding how when and by whom the theory was formed Criminology is based on strong theoretical foundations that attempt to answer the question of why people commit crime Criminological theory is especially complex in that theorists come from a variety of disciplines including medicine sociology psychology economics and law While not an exhaustive list of each theorist s works nor an in depth review of the empirical work that has been done on each theory this text tracks the intellectual development of a theory by profiling the theorists who are responsible for the major ideas in criminological thought By viewing the field in the context of the social conditions of the time and the personal histories of the theorists students can better understand the intellectual history of each theory and the relationship between criminology and other fields to grasp a better appreciation of how the science of crime and the study of criminals has evolved All chapters are organized with a brief overview of the theorist and their significant ideas a biographical profile of the theorist coverage of the theoretical developments and contributions of the theorist a list of major works by the theorist and a summary detailing the overall legacy of the theorist in the field This book is ideal for courses on criminology criminological

theory and criminal behavior Confirmation Hearings on Federal Appointments United States. Congress. Senate. The Origins of American Criminology Francis T. Cullen, Cheryl Lero Jonson, Andrew Committee on the Judiciary, 2010 J. Myer, Freda Adler, 2011 The essays contained in this book capture the stories behind the invention of criminology s major theoretical perspectives and preserves information from the generation that defined the field for the past decades that otherwise would have been lost This history shows criminology to be a human enterprise Its ideas were not driven primarily by data nor were the theories invented solely as part of the scientific process To the contrary American criminology s great theories most often preceded the collection of data they guided and produced empirical inquiry not vice versa This volume demonstrates that humanity is what makes theory possible in that diverse experiences allow individual scholars to see the world differently and thus shape theoretical paradigms based on their own unique life stories **Developmental Origins** of Aggression Richard Ernest Tremblay, Willard W. Hartup, John Archer, 2005-03-15 Offering the first comprehensive analysis of this topic in over 30 years this book is sure to fuel discussion and debate among researchers practitioners and students in developmental psychology child clinical psychology child and adolescent psychiatry criminology and related disciplines In the classroom it is a unique and valuable text for graduate level courses BOOK JACKET and Life-course Criminological Theories Paul Mazerolle, 2017-07-05 The developmental and life course perspective in criminology came to prominence during the late 1980s and throughout the 1990s a number of theories were developed to explain offending behavior over the life course This volume brings together theoretical statements empirical tests and debates of these major theories within the developmental and life course criminology perspective In the first section of the book original theoretical statements are provided and this is followed by a section which includes empirical tests of each of these theories conducted by researchers other than the original theorists The final section of the book provides a summary of the major debates both within the developmental and life course perspective and also between this perspective and others within criminology This comprehensive volume provides an informative overview of the developmental and life course perspective in criminology Forensic Psychology Graham M. Davies, Anthony R. Beech, 2017-10-23 Introduces forensic psychology to students and professionals who want to better understand psychology s expanding influence on the study of law crime and criminality Forensic psychology is a constantly growing discipline both in terms of student interest and as a profession for graduates This book highlights the often sizeable gap between media myths surrounding forensic practice and reality Editors Graham Davies and Anthony Beech present an exciting and broad range of topics within the field including detailed treatments of the causes of crime investigative methods the trial process and interventions with different types of offenders and offences Forensic Psychology Crime Justice Law Interventions Third Edition covers every aspect of forensic psychology from understanding criminal behaviour to applying psychological theory to criminal investigation analysing the legal process and the treatment of witnesses and offenders Each chapter has been thoroughly revised and updated with the

latest findings The book also includes two entirely new chapters one on psychopathy and crime the other on female offenders Drawing on a wealth of experience from leading researchers and practitioners this new edition will interest and enthuse today's generation of students All chapters thoroughly revised and updated Features two brand new chapters Supplemented by additional online resource materials including related links multiple choice questions and PowerPoint slides Authored by a wide range of experienced forensic psychology professionals Forensic Psychology Third Edition is essential reading for undergraduates first encounter with the subject area and is an excellent introduction for more specialised postgraduate Encyclopedia of Criminological Theory Francis T. Cullen, Pamela Wilcox, 2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to quide these students to a quick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory **Cultures of Desistance** Adam Calverley, 2013 In contrast to the widespread focus on ethnicity in relation to engagement in offending the question of whether or not processes associated with desistance that is the cessation and curtailment of offending behaviour vary by ethnicity has received less attention This is despite known ethnic differences in factors identified as affecting disengagement from offending such as employment place of residence religious affiliation and family structure providing good reasons for believing differences would exist This book seeks to address this oversight Using data obtained from in depth qualitative interviews it investigates the processes associated with desistance from crime among offenders drawn from some of the principal minority ethnic groups in the United Kingdom Cultures of Desistance explores how structural families friends peer groups employment social capital and cultural religion values recognition ethnic differences affected the environment in

Integrated Developmental and Life-course Theories of Offending David P. Farrington, 2017-07-05 Developmental and life course criminology aims to provide information about how offending and antisocial behavior develops about risk and protective factors at different ages and about the effects of life events on the course of development This volume advances knowledge about these theories of offender behavior many of which have been formulated only in the last twenty years It also integrates knowledge about individual family peer school neighborhood community and situational influences on offender behavior and combines key elements of earlier theories such as strain social learning differential association and control theory Contributors Benjamin B Lahey and Irwin D Waldman focus on antisocial propensity and the importance of biological and individual factors Alex R Piquero and Terrie E Moffitt distinguish between life course persistent and adolescent limited offenders David P Farrington presents the Integrated Cognitive Antisocial Potential ICAP theory which distinguishes between long term and short term influences on antisocial potential Richard F Catalano J David Hawkins and their colleagues test the Social Development Model SDM Marc Le Blanc proposes an integrated multi layered control theory in which criminal behavior depends on bonding to society psychological development modeling and constraints Robert J Sampson and John H Laub hypothesize that offending is inhibited by the strength of bonding to family peers schools and later adult social institutions such as marriage and jobs Terence P Thornberry and Marvin D Krohn propose an interactional theory of antisocial behavior Per Olof H Witkstrom s developmental ecological action theory emphasizes the importance of situational factors opportunities cause temptation friction produces provocation and monitoring and the risk of sanctions have deterrent

effects The Logic of Violence Brendan Marsh, 2019-08-30 Violence is widely associated with illegal drug markets and is one of the features that can differentiate illegal capitalism from legitimate business. This book explores the perceived causes and functions of violence in an illegal drug market in Dublin City Ireland Understanding why violence occurs amongst participants in illegal drug markets is an ongoing part of the criminological endeavour Scholars debate the various business and personal factors that contribute towards violent perpetration Complex aspects of participants lives such as addictive disorders socioeconomic status and socialisation add further complexity This book examines violence in an illegal drug market from the perspectives of those who had participated in it that is formerly addicted people as well as former profit oriented drug dealers The text is the result of the first ethnographic study of an illegal drug market in Dublin This book will appeal to undergraduate and postgraduate students as well as scholars interested in the criminology and psychology of violence More specifically the book will be relevant to those interested in the areas of illegal drug markets gang studies the intersection of drugs and crime and desistance from crime **Desistance from Sex Offending** D. Richard Laws, Tony Ward, 2011-03-11 This book offers a fresh perspective on treating a population that is often demonized by policymakers the public and even clinicians. The authors argue that most sex offenders are people like us with the potential to lead meaningful law abiding lives if given a chance and appropriate support They describe an empirically and theoretically grounded rehabilitation approach the Good Lives Model which can be integrated with the assessment and intervention approaches that clinicians already use Drawing on the latest knowledge about factors promoting desistance from crime the book discusses how encouraging naturally occurring desistance processes and directly addressing barriers to community reintegration can make treatment more effective and long lasting Critical Autoethnography Robin M. Boylorn, Mark P. Orbe, 2020-11-26 Critical Autoethnography Intersecting Cultural Identities in Everyday Life Second Edition examines the development of the field of critical autoethnography through the lens of social identity Contributors situate interpersonal and intercultural experiences of gender race ethnicity ability citizenship sexuality and spirituality within larger systems of power oppression and privilege Approachable and accessible narratives highlight intersectional experiences of marginalization and interrogate social injustices The book is divided into three sections Complexities of Identity Performance Relationships in Diverse Contexts and Pathways to Culturally Authentic Selves Each thematic section includes provocative stories that critically engage personal and cultural narratives through a lens of difference The chapters in the book highlight both unique and ubiquitous extraordinary and common experiences in the interior lives of people who are Othered because of at least two overlapping identities The contributors offer first person accounts to suggest critical responses and alternatives to injustice The book also includes sectional summaries and discussion questions to facilitate dialogue and self reflection It is an excellent resource for undergraduate students graduate students educators and scholars who are interested in autoethnography interpersonal and intercultural communication qualitative studies personal narrative cultural studies and

performance studies Race, Organizations, and the Organizing Process Melissa E. Wooten, 2019-05-20 This volume shifts the analytic attention of research on race as a people based theoretical or empirical category to organizations Chapters investigate how race shapes organizations and an organization sability to get the cultural political and material resources it needs to survive i e the organizing process Ain't No Makin' It Jay MacLeod, 2018-03-09 This classic text addresses one of the most important issues in modern social theory and policy how social inequality is reproduced from one generation to the next With the original 1987 publication of Ain t No Makin It Jay MacLeod brought us to the Clarendon Heights housing project where we met the Brothers and the Hallway Hangers Their story of poverty race and defeatism moved readers and challenged ethnic stereotypes MacLeod s return eight years later and the resulting 1995 revision revealed little improvement in the lives of these men as they struggled in the labor market and crime ridden underground economy. The third edition of this classic ethnography of social reproduction brings the story of inequality and social mobility into today s dialogue Now fully updated with thirteen new interviews from the original Hallway Hangers and Brothers as well as new theoretical analysis and comparison to the original conclusions Ain t No Makin It remains an admired and invaluable text The Craft of Life Course Research Glen H. Elder, Janet Z. Giele, 2009-08-03 This book brings together prominent investigators to provide a comprehensive guide to doing life course research including an inside view of how they designed and carried out influential longitudinal studies Using vivid examples the contributors trace the connections between early and later experience and reveal how researchers and graduate students can discover these links in their own research Well organized chapters describe the best and newest ways to Use surveys life records ethnography and data archives to collect different types of data over years or even decades Apply innovative statistical methods to measure dynamic processes that result in improvement decline or reversibility in economic fortune stress health and criminality Explore the micro and macro level explanatory factors that shape individual trajectories including genetic and environmental interactions personal life history interpersonal ties and sociocultural institutions
