[Reinventing Foreign Aid](#)

William R. Easterly,2008-05-09 Top experts in the field discuss how to improve the effectiveness of foreign aid proposing practical solutions to specific problems rather than a utopian master plan The urgency of reducing poverty in the developing world has been the subject of a public campaign by such unlikely policy experts as George Clooney Alicia Keyes Elton John Angelina Jolie and Bono And yet accompanying the call for more foreign aid is an almost universal discontent with the effectiveness of the existing aid system

In Reinventing Foreign Aid development expert William Easterly has gathered top scholars in the field to discuss how to improve foreign aid. These authors Easterly points out are not claiming that their ideas will invoke a current slogan Make Poverty History. Rather they take on specific problems and propose some hard headed solutions. Easterly himself in an expansive and impassioned introductory chapter makes a case for the searchers who explore solutions by trial and error and learn from feedback over the planners who throw an endless supply of resources at a big goal as the most likely to reduce poverty. Other writers look at scientific evaluation of aid projects including randomized trials and describe projects found to be cost effective including vaccine delivery and HIV education. Consider how to deal with the government of the recipient state work through it or bypass a possibly dysfunctional government. Examine the roles of the International Monetary Fund a de facto aid provider and the World Bank and analyze some new and innovative proposals for distributing aid.
