Sharing Power Women Parliament Democracy:

Sharing Power Manon Tremblay, 2017-03-02 The representation of women in parliament is a subject of extensive research and a focus for political action in the last decade. The wide variation in women's parliamentary presence contradicts the expectation that established or consolidated democracies are more supportive of the presence of women in political life than emerging democracies. This volume explains this variation through a series of closely investigated case studies from the post-Communist transition democracies of Eastern Europe and emerging democracies in Asia and the Middle East to the long established liberal democratic states. The volume examines the history of women's legislative involvement clearly addressing the issue of equal opportunities for women in political life on a cross-national basis. It also identifies innovative solutions to redress the power sharing balance between women and men. Offering a unique comparative perspective, **Sharing Power** will appeal to students and scholars of politics, women's studies, history and legislative studies.

Representing Women in Parliament Marian Sawer, Manon Tremblay, Linda Trimble, 2006-09-27 Written by a major international team of authors, this new study features twelve chapters on both new and established parliaments including Australia, Canada, New Zealand and the United Kingdom. It tests the latest theories about women's political representation within Westminster style assemblies and is clearly organized into three key sections.

Women and Legislative Representation M. Tremblay, 2016-04-30 This book seeks to identify the factors that influence the percentage of female parliamentarians, paying particular attention to the electoral system. The author seeks to understand the third wave of democratization of political systems through the particular perspective of female representation in parliaments.

Law and Gender in Modern Ireland Lynsey Black, Peter Dunne, 2019-02-21 **Law and Gender in Modern Ireland: Critique and Reform** is the first generalist text to tackle the intersection of law and gender in this jurisdiction for over two decades. As such, it could hardly have come at a more opportune moment. The topic of law and gender, perhaps more so than at any other time in Irish history, has assumed a dominant place in political and academic debate. Among scholars and policy makers alike, the regulation of gendered bodies and the legal status of sexual and gendered identities is now a highly visible fault line in public discourse. Debates over reproductive justice, exemplified by the recent referendum to remove the 8th Amendment, increased rights for lesbian, gay, bisexual and transgender persons, including the public sanctioned introduction of same sex marriage and the historic mistreatment of women and young girls, have reshaped Irish public and political life and encouraged Irish society to re-examine long unchallenged gender norms. While many traditional flashpoints remain, such as abortion and prostitution, sex work, there are also new questions including surrogacy and the gendered experience of asylum frameworks which have emerged. As policy makers seek to enact reforms, they face a population with increasingly polarised perceptions of gender and a legal structure ill equipped for modern realities. This edited volume directly addresses modern Irish debates on law and gender. Providing an overview of the existing rules and standards as well as exploring possible options for reform, the

collection stands as an important statement on the law in this jurisdiction and as an invaluable resource for pursuing gendered social change While the edited collection applies a doctrinal methodology to explain current statutes case law and administrative practices the contributors also invoke critical gender queer and race perspectives to identify and problematise existing and potential challenges This edited collection is essential reading for all who are interested in law gender and processes of social change in modern Ireland Politics in the Republic of Ireland John Coakley, Michael Gallagher, 2010

Politics in the Republic of Ireland is now available in a fully revised fifth edition Building on the success of the previous four editions it continues to provide an authoritative introduction to all aspects of politics in the Republic of Ireland Written by some of the foremost experts on Irish politics it explains analyzes and interprets the background to Irish government and contemporary political processes Bringing students up to date with the very latest developments Coakley and Gallagher combine real substance with a highly readable style providing an accessible textbook that meets the needs of all those who are interested in knowing how politics and government operate in Ireland Stalled Linda Trimble, Jane Arscott, Manon Tremblay, 2013-05-31

Following significant increases in women's electoral representation in the 1980s and 90s progress has stalled Today there are only a few more women in Canada's parliament and legislatures than a decade ago What has happened to the representational gains for women and why does gender parity remain so elusive To answer these questions Stalled provides a detailed roadmap of women's political representation as candidates office holders cabinet ministers party leaders and as representatives of the Crown at all levels of government across Canada Comprehensive and accessible this volume makes clear that women are far from achieving equality in sites of formal political power *Questioning Gender* Robyn Ryle, 2023-06-28

With the rise of the new institutionalism, the study of institutions has returned to its place in the sun. This volume provides a comprehensive survey of where we are in the study of political institutions, covering both the traditional concerns of political science with constitutions, federalism, and bureaucracy, and more recent interest in theory and the constructed nature of institutions. The Oxford Handbook of Political Institutions draws together a galaxy of distinguished contributors drawn from leading universities across the world. Authoritative reviews of the literature and assessments of future research directions will help to set the research agenda for the next decade. **Canadian Studies in the New Millennium** Patrick James, Mark

Fully revised and updated, the second edition of *Canadian Studies in the New Millennium* includes new chapters on Demography and Immigration Policy, the Environment, and Civil Society and Social Policy, all written by leading scholars and educators in the field. At a time in which there is a growing mutual dependence between the US and Canada for security, trade, and investment, *Canadian Studies in the New Millennium* will continue to be a valuable resource for students, educators, and practitioners on both sides of the border.

Women in Executive Power Gretchen Bauer, Manon Tremblay, 2011-03-10 A comprehensive regional study of women in the political executive power. *Contagious Representation* Frank C. Thames, Margaret S. Williams, 2013 Women's participation in parliaments, high courts, and executive offices worldwide has reached record-high numbers, but this global increase in women's representation masks significant variation among different democratic political systems. For example, in December of 2009, Rwanda's legislature contained 56% women, while the U.S. Congress contained only about 17%, and the Japanese Diet had only 11%. Since 2000, only twenty-seven women have achieved executive office worldwide. *Contagious Representation* is a comprehensive look at women's participation in all aspects of public life in the main democratic political institutions: the executive, the judiciary, the legislature, and within political parties. Moving beyond studies of single countries and institutions, *Contagious Representation* presents original data from 159 democratic countries spanning 50 years, providing a comprehensive understanding of women in democracies worldwide. The first volume to offer an analysis on all avenues for women's participation for such a lengthy time period, *Contagious Representation* examines not only the causes of women's representation in the main democratic political institutions but also how women's representation in one institution affects the others. Each chapter contains case studies and examples of the change in women's participation over time from around the world. Thames and Williams definitively explain the rise, decline, or stagnant levels of women's political participation, considering how representation is contagious across political institutions and gaining a better understanding of

what factors affect women's political participation Is Academic Feminism Dead?, 2000-10 How can feminist theory be made more relevant to the very real struggles undertaken by women of all professions races classes and sexual orientations How can it be directed into more effective social activism and how is theory itself a form of practice *The Public Law of Gender* Kim Rubenstein, Katharine G. Young, 2016-05-26 With the worldwide sweep of gender neutral gender equal or gender sensitive public laws in international treaties national constitutions and statutes it is timely to document the raft of legal reform and to critically analyse its effectiveness In demarcating the academic study of the public law of gender this book brings together leading lawyers political scientists historians and philosophers to examine law's structuring of politics governing and gender in a new global frame Of interest to constitutional and statutory designers advocates adjudicators and scholars the contributions explore how concepts such as equality accountability representation participation and rights depend on challenge or enlist gendered roles and or categories These enquiries suggest that the new public law of gender must confront the lapses in enforcement sincerity and coverage that are common in both national and international law and governance and critically and pluralistically recast the public private distinction in family community religion customary and market domains Women and Representation in Local Government Barbara Pini, 2013-03-01 Women and Representation in Local Government opens up an opportunity to critique and move beyond suppositions and labels in relation to women in local government Presenting a wealth of new empirical material this book brings together international experts to examine and compare the presence of women at this level and features case studies on the US UK France Germany Spain Finland Uganda China Australia and New Zealand Divided into four main sections each explores a key theme related to the subject of women and representation in local government and engages with contemporary gender theory and the broader literature on women and politics The contributors explore local government as a gendered environment critiquing strategies to address the limited number of elected female members in local government and examine the impact of significant recent changes on local government through a gender lens Addressing key questions of how gender equality can be achieved in this sector it will be of strong interest to students and academics working in the fields of gender studies local government and international politics The Iberian Legislatures in Comparative Perspective Jorge M. Fernandes, Cristina Leston-Bandeira, 2019-05-23 This comprehensive book analyses the development of the legislatures in the Iberian countries over the past 40 years since democracy was introduced to comparatively understand their role in these political systems and in sustaining their democratic systems Sharing many historical developments and institutional characteristics Spain and Portugal also present crucial differences notably Spain's pure parliamentary system a King as Head of State and a quasi federal structure and Portugal's semi presidential democracy Starting with a historical and institutional contextualization of these two legislatures the book examines the most important organizational and behavioural features of legislative life in Iberian legislatures in a comparative perspective It also shows how new legislatures develop resilience capacity to support lasting democratic

systems as fully fledged institutionalized bodies This book will be of key interest to scholars and students of Spain and Portugal legislative politics and parliamentarianism and more broadly to European politics and comparative politics journalists and practitioners

Gender Politics and Democracy in post-socialist Europe Yvonne Galligan, Sara Clavero, Marina Calloni, 2008-02-20 This book explores the politics of gender and democracy in post communist Europe Utilising the concept of political representation the book scrutinises women s legislative presence and highlights the opportunities and obstacles to parity democracy in this region of Europe The book examines the link between women s membership of national parliaments and the substantive representation of gender interests It investigates the role of civil society the state and the European Union in representing women s interests and in promoting gender politics The book provides an important and timely contribution to the classical political questions of who represents what is represented and how representation takes place In adopting an integrated approach to political representation the book extends current understanding of this fundamental concept Using new research it provides the first comprehensive comparative analysis of the interplay between emerging democracies and gender politics in post communist Europe
