Sharing The Risk:

Sharing the Risk and Ensuring Independence National Council on Disability (U.S.),1993 **Sharing Risk** Patricia A. McCoy,2025-05-27 Examining why society should pool and spread the financial risk that individual families now bear Over the past sixty years businesses and government have increasingly off loaded financial risk onto US households The toll has pushed tens of millions of people to the financial breaking point worsened social inequity and jeopardized US democracy In **Sharing Risk** consumer advocate and scholar Patricia A McCoy draws on the nation s traditions of risk sharing to argue that society should lift up families by pooling and spreading the financial risks that they now must bear alone Most policy discussions of financial stress on households look at the milestones of economic well being in isolation making ends meet homeownership quality health care financing college and a secure retirement McCoy offers the first integrated examination of how risk sharing can enable families to realistically achieve all five goals without sacrificing one for another She makes specific policy recommendations and shows how risk sharing with its long and venerable history that includes Social Security and the Affordable Care Act would provide economic well being for all **Sharing the Knowledge** Steven M. Rinaldi,2000 This is the 33rd volume in the Occasional Paper series of the U S Air Force Institute for National Security Studies INSS This paper along with Occasional Paper 32 Richard Aldrich s Cyberterrorism and Computer Crimes Issues Surrounding the Establishment of an International Legal Regime address the context surrounding the question of how the U S military responds to the cyber threat facing the American military and society today The U S military has become increasingly dependent upon the nation s information and communications infrastructures Concurrently threats to and vulnerabilities in these infrastructures are expanding in large part due to structural factors not likely to disappear in the future To prevail against the increasing threat the military and more broadly the government needs to adopt a risk reduction and management program A crucial element of this risk management program is information sharing with the private sector However substantial barriers threaten to block information exchanges between the government and private sector These barriers include concerns over release of sensitive material under Freedom of Information Act requests antitrust actions protection of business confidential and other private material possible liability due to shared information disclosure of classified information and burdens entailed with cooperating with law enforcement agencies There is good cause to believe that the government and private sector can overcome these barriers guided by lessons learned from numerous successful government private sector information sharing mechanisms This analysis concludes with actions the government should undertake to develop an information sharing mechanism with the private sector Key among them are actively engaging the private sector from the onset determining information requirements and fostering a partnership based on trust Sharing the Challenge Interagency Floodplain Management Review Committee (U.S.),1994 Text of Sharing the Challenge Floodplain Management into the 21st Century The Report of the Interagency Floodplain Management Review Committee It proposes a better way to

manage floodplains *Sharing Clinical Trial Data* Institute of Medicine, Board on Health Sciences Policy, Committee on Strategies for Responsible Sharing of Clinical Trial Data, 2015-04-20 Data sharing can accelerate new discoveries by avoiding duplicative trials stimulating new ideas for research and enabling the maximal scientific knowledge and benefits to be gained from the efforts of clinical trial participants and investigators At the same time sharing clinical trial data presents risks burdens and challenges These include the need to protect the privacy and honor the consent of clinical trial participants safeguard the legitimate economic interests of sponsors and guard against invalid secondary analyses which could undermine trust in clinical trials or otherwise harm public health Sharing Clinical Trial Data presents activities and strategies for the responsible sharing of clinical trial data With the goal of increasing scientific knowledge to lead to better therapies for patients this book identifies guiding principles and makes recommendations to maximize the benefits and minimize risks This report offers guidance on the types of clinical trial data available at different points in the process the points in the process at which each type of data should be shared methods for sharing data what groups should have access to data and future knowledge and infrastructure needs Responsible sharing of clinical trial data will allow other investigators to replicate published findings and carry out additional analyses strengthen the evidence base for regulatory and clinical decisions and increase the scientific knowledge gained from investments by the funders of clinical trials The recommendations of *Sharing Clinical Trial Data* will be useful both now and well into the future as improved sharing of data leads to a stronger evidence base for treatment This book will be of interest to stakeholders across the spectrum of research from funders to researchers to journals to physicians and ultimately to patients *Risk Sharing, Risk Spreading and Efficient Regulation* T.V.S.

Ramamohan Rao, 2015-10-22 The book provides an integrated approach to risk sharing risk spreading and efficient regulation through principal agent models It emphasizes the role of information asymmetry and risk sharing in contracts as an alternative to transaction cost considerations It examines how contracting as an institutional mechanism to conduct transactions spreads risks while attempting consolidation It further highlights the shifting emphasis in contracts from Coasian transaction cost saving to risk sharing and shows how it creates difficulties associated with risk spreading and emphasizes the need for efficient regulation of contracts at various levels Each of the chapters is structured using a principal agent model and all chapters incorporate adverse selection and exogenous randomness as a result of information asymmetry as well as moral hazard and endogenous randomness due to the self interest seeking behavior on the part of the participants

Sharing the Costs and Benefits of Energy and Resource Activity Lila Katz Barrera-Hernández, Barry Barton, Lee Godden, Alastair R. Lucas, Anita Rønne, 2016 Energy and resource activities bring benefits for many but also impose costs on communities This book uses cases studies from across the globe to examine the emergence of sharing and the legal measures which seek to balance the costs of energy and resources projects **Financial Innovation and Risk Sharing** Franklin Allen, Douglas Gale, 1994 Franklin Allen and Douglas Gale assemble some of their key papers along with a five chapter

overview that not only synthesizes their work but provides a historical and institutional review and a discussion of alternative approaches as well **Accessing and Sharing the Benefits of the Genomics Revolution** Peter W.B. Phillips, Chika B.

Onwuekwe, 2007-05-09 There is a veritable gold rush mentality in the life science world as scientists entrepreneurs and multinationals are staking claims to the code of life embodied in the world's current stock of plants animals microbes and human populations This edited volume explores the legal economic and political context for the debate about intellectual property rights for traditional knowledge and genetic resources and critically analyses the theory and practice of access and benefits sharing efforts around the world The book also investigates the current flashpoints the David and Goliath battle between Monsanto and Percy Schmeiser over farmers rights the dispute over coexistence of GM and organic production and the ownership and control of human genetic materials stored in human gene banks around the world Sharing the Covers

Devereux, Research Fellow at the Institute for Fiscal Studies London Professor of Finance Department of Economics Michael Devereux, Philip R Lane, Cyn-Young Park, Shang-Jin Wei, 2011-05-03 The ongoing global financial crisis has manifested a remarkable degree of global financial integration and its implications for emerging Asian financial markets The current crisis will not and should not deter the progress that the region has made toward financial openness and integration However events like this clearly demonstrate that financial liberalization and integration is not without risks Hence emerging Asian economies growing financial ties have motivated us to look closer at the repercussions of increased financial integration and evaluate the benefits of risk sharing and better access to international capital markets against the costs of cross border financial contagion The crisis also presents a timely opportunity for the region's policy makers to rethink their strategies for financial deregulation and liberalization and to reconsider a next step to integrate emerging East Asia's financial markets

further However doing so requires deeper understanding of financial market integration While much has been said in both academic and policy circles about financial globalization and regional financial integration as separate areas of study existing research has been relatively silent on the dynamics between these two distinctive forces The book addresses this gap in financial literature and assesses financial integration in emerging East Asia at both regional and global levels The publication studies the factors driving the progress of regional financial integration in relation to financial globalization and identifies the relevant policy challenges facing emerging market economies in the region Chapters look into three broad aspects of regional and global financial market integration i measurement of regional and global financial integration ii understanding dynamics of regional financial integration versus global financial integration and iii welfare implications from regional financial market integration amid financial globalization Against this context academics policy makers and other readers will appreciate the rigorous research contribution provided by the book

Sharing the Harvest Elizabeth Henderson, Robyn Van En, 2007-11-01 To an increasing number of American families the CSA community supported agriculture is the answer to the globalization of our food supply The premise is simple create a partnership between local farmers and nearby consumers who become members or subscribers in support of the farm In exchange for paying in advance at the beginning of the growing season when the farm needs financing CSA members receive the freshest healthiest produce throughout the season and keep money jobs and farms in their own community In this thoroughly revised and expanded edition of a Chelsea Green classic authors Henderson and Van En provide new insight into making CSA not only a viable economic model but the right choice for food lovers and farmers alike Thinking and buying local is quickly moving from a novel idea to a mainstream activity The groundbreaking first edition helped spark a movement and with this revised edition *Sharing the Harvest* is poised to lead the way toward a revitalized agriculture

Sharing the Wealth Andrew Mason, Georges Tapinos, 2000-09-07 This book is a collection of papers by leading scholars whose research concerns economic transfers between generations The issues addressed have great relevance to demographic issues particularly the determination of fertility to economic issues including equity and growth and to public policy especially social security reform Part I focuses on intergenerational features of the macroeconomy Advances in the construction of generational accounts are

described and used to examine how the magnitude and direction of intergenerational transfers influences demographic behaviour the distribution of income and the accumulation of wealth Studies presented in Part II consider the role of the state as a provider of economic security for the elderly The authors draw on international experience and discuss many of the issues that must be confronted if efforts to reform public pension programs are to be successful Part III considers the intergenerational behaviour of the family The authors examine competing theories in both industrialized and developing country settings to consider how demographic change the development of financial institutions public policy and other economic forces influence the amount form and timing of intergenerational transfers

Quantitative Measures and Warranty Coverage of the Risk of Misinforming Christozov, Dimitar Grozdanov, 2024-02-08 The relentless flood of data has given rise to a pressing concern the widespread issue of misinformation In an era where being well informed is vital the consequences of inaccurate information can be dire and wide spread impacting not only individuals but entire societies The critical need for reliable accurate and high quality information is more pronounced than ever and the risk of being misled by this information has reached unprecedented levels *Quantitative Measures and Warranty Coverage of the Risk of Misinforming* offers an extensive exploration of the origins risks and contributing factors of deception presenting these together in the form of an invaluable resource for scholars and academics seeking a solution to this pressing issue The book s comprehensive examination of misinforming identifies the challenges and provides practical strategies and techniques to address and mitigate these risks By delving into the depths of misinforming this book equips readers with the knowledge and tools needed to navigate the information maze of the digital age ensuring that they can make informed accurate and impactful decisions in an era dominated by data

Risk Sharing and Financial Contagion in Asia Mr. Phurichai Rungcharoenkitkul, 2011-10-01 This paper assesses financial integration in Asia in terms of risk sharing benefit versus financial contagion cost We construct a new measure of risk sharing based on a term structure model which allows identification of realized stochastic discount factors Risk sharing is low in Asia and varies across time and countries whereas contagion risks are more significant intra regionally and relatively stable over the past decade An overall tradeoff exists between risk sharing and contagion but the terms of tradeoffs vary across countries depending on relative economic fluctuations and inflation differentials Asia therefore can potentially enhance risk sharing without raising contagion risk

The Rise of the Sharing Economy Kevin Govender, 2021-09-27 Is access the alternative to ownership In 2011 the sharing economy was dubbed by Time magazine as one of the Ten ideas that will change the world and it has been widely hailed as a major growth sector by sources ranging from Fortune magazine to the World Economic Forum to former President Obama The sharing economy is a new economic model that focuses on access to assets or resources instead of ownership It has exploded in popularity over recent years and has disrupted a significant number of mature industries such as accommodation automotive and entertainment The total value of the global sharing economy is estimated to grow from 14

billion in 2014 to 335 billion by 2025 With limited resources the desire to become more environmentally conscious the high cost and burdens of ownership and a rapidly growing population living increasingly in densely populated cities consumers are faced with greater challenges and opportunities to fill their consumption needs People are experiencing a significant value shift with a desire to reconnect with products and services in a more meaningful way are becoming more cost and environmentally conscious and are prioritising experience over ownership An organisation s ability to reimagine and reinvent its business model to offer unique opportunities for humanising technology and developing innovative sharing platforms such as Uber and Airbnb would be a game changer for them While the Fourth Industrial Revolution and COVID 19 pandemic are influencing and changing consumer behaviour organisations are facing a dilemma that is affecting the future of their profitability existence and sustainability In The Rise of the Sharing Economy Kevin Govender shares his insights and expertise on the evolution of the sharing economy consumer behaviour and alternative business models and empowers consumers to rediscover and realise the enormous benefits of access over ownership and the potential savings in time money space and the opportunity Access is a cultural and socio economic phenomenon that is transforming businesses consumers the way we live work learn consume commute and play Access is the new ownership *Islamic Finance, Risk-Sharing and Macroeconomic Stability* Muhamed Zulkhibri,Turkhan Ali Abdul Manap,2019-02-20 The concept of risk sharing in financial and social contracts is one of the unique features of Islamic finance Many theoretical studies generally claim superiority of an Islamic financial system based on pure equity and participatory modes of financing while empirical studies provide mixed results Studies and discussions are needed to fully understand how Islamic finance could contribute to the ongoing discussion of financial stability Against this background this book addresses various aspects of Islamic finance and the risk sharing mechanism contributions to the overall macroeconomic and financial stability Undoubtedly the findings and recommendation from this book should be of great interest not only to future academic researchers in the field of macroeconomic stability and Islamic finance but also to policy makers and regulators who are keen on drawing lessons from Islamic finance experiences to prevent similar crisis in the future **Risk Assessment and Management of Water Conservancy Projects** Wei Ge,Pieter Van Gelder,Xihui Gu,2023-12-27
