The Impact of Shared Vision on Leadership, Engagement, and Organizational Citizenship

Richard Eleftherios Boyatzis, Kylie Rochford, Scott N. Taylor, 2015-10-28 According to management and psychology courses as well as legions of consultants in organizational psychology shared vision in dyads teams and organizations can fill us with hope and inspire new possibilities or delude us into following false prophets However few research studies have empirically examined the impact of shared vision on key organizational outcomes such as leadership effectiveness employee engagement organizational citizenship coaching and organizational change As a result the field of organizational psychology has not yet established a causal pattern of whether if and how shared vision helps dyads teams and organizations function more effectively The lack of empirical work around shared vision is surprising given its long standing history in the literature Bennis and Nanus 1982 showed that distinctive leaders managed attention through vision The practitioner literature has long proclaimed that vision is a key to change while Conger and Kanungo 1998 discussed its link to charismatic leadership Around the same time positive psychology appeared in the forms of Appreciative Inquiry Cooperrider Sorensen Whitney Yaeger 2000 and Positive Organizational Scholarship Cameron Dutton Quinn 2003 In this context a shared vision or dream became a legitimate antecedent to sustainable change But again empirical measurement has been elusive More recently shared vision has been the focus of a number of dissertations and quantitative studies building on Intentional Change Theory ICT Boyatzis 2008 at dyad team and organization levels of social systems These studies are beginning to lay the foundations for a systematic body of empirical knowledge about the role of shared vision in an organizational context For example we now know that shared vision can activate neural networks that arouse endocrine systems and allow a person to consider the possibilities of a better future Jack Boyatzis Leckie Passarelli Khawaja 2013 Additionally Boyatzis Akrivou 2006 have discussed the role of a shared vision as the result of a well developed set of factors that produce a desired image of the future Outside of the organizational context positive visioning has been known to help guide future behavior in sports psychology Loehr Schwartz 2003 medical treatment Roffe Schmidt Ernst 2005 musical performance Meister Krings Foltys Boroojerdi Muller Topper Thron 2004 and academic performance Curry Snyder Cook Ruby Rehm 1997 This Research Topic for

Frontiers in Psychology is a collection of 14 original papers examining the role of vision and shared vision on a wide variety of desired dependent variables from leadership effectiveness and executive performance to organizational engagement citizenship and corporate social responsibility and how to develop it through coaching

The Algebra of Wealth for Nerds Guide Book Matt Kingsley, Wealth isn't magic. It's math. Stop treating your finances like a lottery ticket. You're analytical. You build systems. You see the patterns. Yet maybe your net worth doesn't reflect your intellect. Why? Because most financial advice is vague psychobabble, condescendingly simple or outright bullshit designed to sell you something useless. The Algebra of Wealth for Nerds is your antidote. This is the formula, the logical framework, the no BS operating manual for building serious wealth designed specifically for your kind of brain. Forget the gurus and the hype. Inside you get the actionable code: Optimize Inputs, Engineer higher income and leverage your unique skills, Control Outputs, Ruthlessly eliminate financial drag and pointless spending, Systematic Growth, Invest intelligently using low cost automated systems, no genius stock picks required, Debug Yourself, Identify and neutralize the cognitive biases that sabotage your decisions, Exploit Inefficiencies, Master negotiation, tax optimization and even location arbitrage, Define the Endgame, Avoid the soul-crushing hedonic treadmill by figuring out your Enough Number and what a rich life actually means to you. Stop guessing. Start calculating. Get the book. Solve the equation. Build your wealth.

Train Your Brain to Get Rich Teresa Aubele, Doug Freeman, Lee Hausner, Susan Reynolds, 2011-10-15. You really can think yourself rich when you program your gray matter to make money. In this groundbreaking guide, neuroscientist Dr. Teresa Aubele teams up with finance whiz Doug Freeman, business consultant Dr. Lee Hausner, and Psychology Today blogger Susan Reynolds to help you capitalize on your brain, literally. This one-of-a-kind method draws upon the most recent breakthroughs in neuroscience, biology, and psychology to show you how to make more money by reprogramming your brain to identify the best opportunities, invest more wisely by short-circuiting the pleasure center that facilitates your faulty reasoning, rebound from financial setbacks without getting trapped by your brain's fight or flight response, create more wealth by focusing your mind on innovation and creativity, keep more of what you make by tricking your brain into taking the long view. This book is your ticket to a more money-minded brain, a bigger bank account, and a richer life, one fortune at a time.

Millionaire Financial Freedom Success Money Habits: Powerful Lessons On How To Get Rich And Building Wealth M. D. Hope, From Rock Bottom to Real Riches. It's Your Time to Rise. The cold, hard reality of the eviction notice in my hand was a gut punch. At 28, I was drowning in debt, my fledgling entrepreneur dreams circling the drain, and the roof over my head about to be ripped away. This wasn't the life I envisioned when I first dove into those entrepreneurship books fueled by the stories of self-made millionaires. This wasn't the success promised in all those business books for entrepreneurs that lined my shelves, the ones I'd practically memorized, hoping to decode the secret to building wealth. I felt like a fraud, a failure, a living testament to the chasm between aspiration and reality. My relationship with money was toxic, built on a foundation of scarcity and fear. Growing up extra was a four-letter word. My

parents worked themselves to the bone yet there was always that underlying anxiety about personal finance It wasn't their fault they were doing their best But it instilled in me a deep seated belief making money real money was for other people People with connections with privilege with some secret knowledge I clearly didn't possess I read all the finance books and even investment books that I could get my hands on but the concepts seemed abstract disconnected from my reality I lacked true financial literacy My entrepreneurial journey started with a spark of hope I launched a small online business selling handcrafted jewelry I imagined myself as one of those inspiring stories you read about in entrepreneur books a testament to the power of hard work and ingenuity But the reality was brutal My efforts felt like throwing pebbles into the ocean I didn't understand marketing my sales were dismal and the weight of my mounting debt was crushing Then came that eviction notice It was my rock bottom But in that moment of despair something shifted My father's words etched in my memory from childhood echoed in my mind Son you can do anything you set your mind to A surge of defiance of determination coursed through me I refused to be a victim of my circumstances I decided right there and then that I would learn how to become rich not for the sake of luxury but for the freedom and security it represented I would master my financial intelligence That decision marked the beginning of my transformation I devoured every money making book I could find but this time with a laser focus and a hunger to truly understand I immersed myself in the world of online marketing studying successful entrepreneurship books and courses I wasn't just reading I was implementing experimenting and learning from every mistake I began to see patterns to understand the principles behind building wealth principles that went far beyond get rich quick schemes This entrepreneurship book is different Slowly painstakingly I started to see results My little jewelry business began to gain traction The first month I made a real profit I cried tears of joy It wasn't just about the money it was about proving to myself that I could do it It was about rewriting my story This book is the culmination of that journey It's the roadmap I wish I'd had when I was starting out lost and overwhelmed It's a step by step guide to building wealth by transforming your mindset skills and assets It's about mastering your relationship with money and developing the financial intelligence you need to thrive It's about showing you how to become rich not through luck or magic but through proven Millionaire Financial Freedom Success Money Habits This is not just another finance book or investment book This is the distillation of years of struggle learning and ultimately triumph This entrepreneurship book is a guide It's a testament to the fact that no matter where you're starting from no matter how many times you've stumbled you have the power to change your financial destiny It's time to break free from the shackles of limiting beliefs and build the life you deserve Let's begin this journey together It is my sincere hope that this money making book will be an asset to you on your journey
