Small Contribution Big Difference Arshdeep Singh Veer, G. Singh, 2015-04-15 *Small Contribution Big Difference* as the name describes this book sheds light on the basis of contribution Although the contribution is a small word to hear but its meanings are very deep to understand Because our small contribution can make a big difference in our society or in the lives of our loved ones people around us the people who are needy and poor This book is written to make everyone aware of the process of contribution and to make us think about how valuable a contribution is in our lives Contributing is not a difficult task it is a simple mindset that motivates and enables us to change our lifestyle to contribute some of our time money or resources to

the lives of others Because often what happens to us at first we don't even think about contributing we don't know why we should contribute why we should do something good for society why we should help others And even if we realize it and make up our minds to do something then we are unable to find the right way to contribute according to our abilities and resources So this book introduces us to many reasons around the world for which our different contributions can make a difference Because there are so many issues in society such as poverty natural disasters discrimination that affect basic human needs like food clothing shelter education etc so through this book we will be able to explore different ways by which We can help those in need and those who have been affected for some reason Whether it's someone in our family someone we love our neighbor a citizen of our nation or anyone in the world we can make their lives a little better by contributing This book also highlights some of the major evils of our society that are making our world very dirty and how we can get rid of these evils and raise our voice against them After reading this book we can realize that not only a big contribution can make a big difference in the world even our small contribution can make a big difference If we think we have a lack of resources that's why we are unable to contribute then that is not true there is only one thing we need that is a positive mind set by which we can contribute and devote ourselves anytime So hopefully this book will help all of us to see the world differently and make us able to find the real purpose of our life that will give us a life fulfillment and we would become capable to give back to the society In addition to this there are many other ways to contribute and there are other social issues that need to be considered that are not covered in this edition due to some limitations but hopefully they will definitely be considered in next editions
