Shark Man:

Shark Man Riley Elliott, 2014-11-07 The adventures of a shark scientist and his mission to change our perception of New Zealand's most feared and misunderstood predator Riley Elliott is a surfer, spear fisherman and shark scientist from the Waikato currently writing a PhD at Auckland University. He's also on a mission to share his fascination with sharks, raise the profile of their dwindling numbers and question the legitimacy of shark finning in our waters. Riley's passion for sharks started while he was working at the Oceans Research Great White Shark Station in South Africa where he learned to free dive with sharks beyond the cage. Upon his return to New Zealand, Riley began research for his PhD and in the process uncovered some alarming trends. Riley Elliott is making it his mission to educate New Zealanders about the over exploitation of sharks in our waters, particularly the controversial practice of shark finning and how it affects the ocean ecosystem. In the process, he's becoming New Zealand's most popular expert on shark species and a go-to commentator about our increasing encounters with this deadly ocean predator. **Shark Man** is Riley's story from his time learning to scuba dive and spearfish, his early fascination with sharks while surfing, life at Raglan, his first encounters with great whites in South Africa and learning to safely free dive to his study of New Zealand shark species and the making of the TVNZ television documentary series **Shark Man**. The book also has information about New Zealand's prevalent shark species, where they live, how they hunt, and their interaction with humans, with fascinating new insights and little-known facts.

Shark Man Rodney Fox, 2001 Stories of Rodney Fox's many close encounters with dangerous sharks.

Sharkman Steve Alten, 2014-10-07 Kwan Wilson was a high school basketball star living in San Diego when a tragic accident changed his life in ways no one could predict. He only looked at his phone for a few seconds, but that was all the time it took to crash his car into a telephone pole, the impact killing his mother while severing his spinal cord and paralyzing him from the waist down. After the accident, his father Admiral Douglas Wilson sends him away to live with his maternal grandmother in South Florida. Kwan's new principal, anticipating his depression and isolation, tells him about an internship working at a genetics lab in Miami that's testing shark stem cells on rats in an effort to cure cancer and repair spinal injuries. Kwan declines until he learns the beautiful Anya Patel is an intern at the lab. The good news is that the stem cells are curing their rat subjects; the bad news is it alters their DNA so much it kills them. When a promising breakthrough is made, Kwan risks his life and injects himself with the experimental stem cells, altering his destiny and the lives of millions in the process.

Sharkman Tom Vater, 2024-03-25 In 1992, mechanic Peter Hauser and two friends bought three old cars and set off from southern Germany to cross the Sahara and drive to Togo, where they planned to sell their vehicles. They never reached their destination. The young free-wheeling adventurers were ambushed by Tuareg bandits on the Algeria-Mali border, kidnapped and disappeared into the vast nothingness of the desert. Thirty years later, Peter Hauser lives in a tent between jungle and ocean on a remote archipelago in Southern Thailand. Every day, Peter heads out into the deep blue to swim with tiger sharks, apex predators and masters over life and death, to find out
