Office of Experiment Stations,1948 **Overview of World Elasmobranch Fisheries** Ramón Bonfil,Food and Agriculture Organization of the United Nations,1994-01-01 Major world fisheries for elasmobranchs are described in regard to their importance recent trends problems for assessment and management conservation and the outlook for their sustainability The analysis considers trends and outlooks in FAO s statistical areas individual accounts of fisheries by the major elasmobranch fishing nations and the high seas fisheries that have significant by catches of elasmobranchs Information on species gears patterns of exploitation research and management of elasmobranchs is summarized for each of these countries The general problems in appraising and managing elasmobranch fisheries and the need for conservation are discussed and possible solutions for some of these problems are proposed *Journal of the American Society of Naval Engineers, Inc* American Society of Naval Engineers,1903 Sharks: Conservation, Governance and Management Erika J. Techera,Natalie Klein,2014-06-05 The key aim of this book is to explore the global conservation and management of sharks There has been a rapid decline in populations of many shark species while new science has emerged of the critical role they play in marine ecosystems However the authors show that conservation law and policy have been slow to develop with only a small number of iconic species being protected worldwide The increase in fishing impact primarily through shark finning and by catch has led to shark conservation receiving greater international attention in recent years The book explores our current knowledge and status of the law and science in relation to sharks with a particular focus on improving frameworks for their conservation and management Recent trends are analysed including shark finning bans that have been put in place in several countries the widening number of nations establishing shark sanctuaries and the growth of shark based tourism The efficacy of current listing processes for endangered species and fisheries regulations is also examined Tourism is explored as an alternative to fishing and the risks and impacts associated with this industry are analysed Contributors include leading authorities from universities and conservation organizations in North America Europe and Australia A common theme is to emphasise the importance of collaborative governance between various interest groups and the need for inter disciplinary research and management approaches that are necessary to address the decline in sharks *The Real Jaws* Rachel Lee Perez,2025-08-30 Explores the 1916 New Jersey shark attacks their impact on shark fear and how media shaped harmful misconceptions In the Summer of 1916 a series of shark attacks along the New Jersey shore would send shockwaves across its otherwise peaceful beach towns Spanning a terrifying two weeks including the deaths of nearly five people these attacks would officially cement an innate fear of sharks that humans have felt since the beginning of time Although initially kept under wraps by the tourism industry these attacks would ultimately plaster the front pages of newspapers across the United

States and even overseas As the news spread the line between fact and fiction blurred reshaping our cultural and scientific understanding of the beasts of the ocean It was the 1916 shark attacks that would establish our modern day misconstrued perception of sharks as evil man eating monsters and would later inspire the film Jaws which would perpetuate the same harmful narrative The Real Jaws takes an in depth look at each one of the attacks and how they instilled a centuries long fear of the ocean s apex predator It explores the various theories explaining why these attacks may have occurred and the probability of something like this happening again And finally it analyses the way the harmful misconceptions derived from films like Jaws have redefined humanity s relationship with sharks leading humans to become the predators and sharks to become the prey
