Fred Alford, 2014-01-09 Contrary to the view of trauma popularized by literary theorists Trauma and Forgiveness argues that the traumatized are capable of representing their experience and that we should therefore listen more and theorize less Using stories and case studies including testimonies from Holocaust survivors as well as the victims of ordinary trauma C Fred Alford shows that while the traumatized are generally capable of representing their experience this does little to heal them He draws on the British Object Relations tradition in psychoanalysis to argue that forgiveness which might be expected to help heal the traumatized is generally an attempt to avoid the hard work of mourning losses that can never be made whole Forgiveness is better seen as a virtue in the classical sense a recognition of human vulnerability The book concludes with an extended case study of the essayist Jean Am ry and his refusal to forgive Engineering, 1925 Arms Sales, Treaties, and Violations Rita Santos, 2018-07-15 The international weapons trade is a vast and lucrative machine estimated at generating 70 billion dollars annually In 2014 The Arms Trade Treaty which regulates the international trade in conventional arms was entered into force But compliance is complicated and even the most powerful nations have violated the treaty Irresponsible arms transfers and ready availability can destabilize security and cause a host of problems among civilian populations in a region The viewpoints in this resource examine the responsibility of nation states around the world to take accountability for their participation in weaponizing **What the Victorians Made of Romanticism** Tom Mole, 2020-06-09 This insightful and elegantly written book examines how the popular media of the Victorian era sustained and transformed the reputations of Romantic writers Tom Mole provides a new reception history of Lord Byron Felicia Hemans Sir Walter Scott Percy Bysshe

Shelley and William Wordsworth one that moves beyond the punctual historicism of much recent criticism and the narrow horizons of previous reception histories He attends instead to the material artifacts and cultural practices that remediated Romantic writers and their works amid shifting understandings of history memory and media Mole scrutinizes Victorian efforts to canonize and commodify Romantic writers in a changed media ecology He shows how illustrated books renovated Romantic writing how preachers incorporated irreligious Romantics into their sermons how new statues and memorials integrated Romantic writers into an emerging national pantheon and how anthologies mediated their works to new generations This ambitious study investigates a wide range of material objects Victorians made in response to Romantic writing such as photographs postcards books and collectibles that in turn remade the public's understanding of Romantic writers Shedding new light on how Romantic authors were posthumously recruited to address later cultural concerns What the Victorians Made of Romanticism reveals new histories of appropriation remediation and renewal that resonate in our own moment of media change when once again the cultural products of the past seem in danger of being forgotten if they are not reimagined for new audiences
