Shattered Assumptions:

Shattered Assumptions Ronnie Janoff-Bulman, 2010-06-15 This book investigates the psychology of victimization. It shows how fundamental assumptions about the world's meaningfulness and benevolence are shattered by traumatic events and how victims become subject to self-blame in an attempt to accommodate brutality. The book is aimed at all those who for personal or professional reasons seek to understand what psychological trauma is and how to recover from it. **Trauma and Its**

Wake: The study and treatment of post-traumatic stress disorder Charles R. Figley, 1985 *Loss of the Assumptive World* Jeffrey Kauffman, 2013-05-13 The assumptive world concept is a psychological principle of the conservation of human reality or culture; it is a lens for seeing the psychological disturbances that occur in times of change. In this collection, the authors examine the assumptive world from diverse theoretical perspectives, providing the reader with an array of different viewpoints illuminating the concept and its clinical usefulness. **Shattered Assumptions** Ronnie Janoff-Bulman, 1990

Sites of Violence, Sites of Grace Cynthia Hess, 2008-12-16 Cynthia Hess offers a thoughtful reconstruction of Christian nonviolence through an examination of both theological and theoretical works. She shows how contemporary understandings of violence and the human person challenge traditional views of nonviolence as pacifism and the refusal of military violence. Hess begins with an analysis of the extensive writings on nonviolence by John Howard Yoder, one of the foremost twentieth-century thinkers on this subject. She then seeks to deepen his view by probing the insights of trauma scholars who explore the powerful and lasting effects of traumatic violence on individuals and communities. These scholars often maintain that many survivors continue to hold the reality of traumatic violence within their bodies and minds so that it becomes part of them as they move through time. In light of this claim, Hess argues that Christian nonviolence must move beyond pacifism to directly address the problem of internalized violence. In conversation with resources in Yoder's work as well as feminist theory and trauma studies, she analyzes an often overlooked dimension of religious nonviolence: the creation of communities in which traumatized persons can survive and flourish. With its highly interdisciplinary character, this book presents a fresh perspective on Christian nonviolence that not only challenges traditional views but also reclaims the centrality of nonviolence for contemporary Christian theology and practice. Give Sorrow Words John H. Harvey, 2016-03-23 Throughout our lives

we are influenced by the sensation of loss. Whether implicit or obvious, the impact of this sense of loss affects our daily thinking and behavior. This new text provides a comprehensive introduction to the study of loss via exploration into three major types of loss: loss of important relationships (divorce or perhaps the dissolution of important relationships and friendships), losses that damage who we are (our self-esteem), loss of employment and losses resulting from victimization (being the target of violence or prejudice), loss of home in a natural disaster. Students of sociology, theology, and family studies will find this text of key interest. Moreover, professionals in these fields, including the fields of trauma and loss, will appreciate the thorough literature review, practical language, clinical interventions, and case highlights. **Redesigning Research on**

Infurna, Eranda Jayawickreme, 2021 Redesigning Research on Post Traumatic Growth offers new directions for post traumatic growth research The book illustrates the benefits of research designs that incorporate multiple methods of assessment and highlights the value of integrating various disciplines such as philosophy and multiple areas of psychology e g clinical developmental health and personality for more holistic understanding of the human capacity to overcome adversity

Discovering the Religious Dimension of Trauma Caralie Cooke, 2022-09-19 This book reads the Joseph novella alongside contemporary trauma novels in order to analyze the loss of the assumptive world of the writer and readers of the Joseph novella In turn it rethinks trauma theory in light of the religious understood as the belief in and relationship to a God who orders the universe Thus this book argues that when we read the Joseph novella alongside contemporary trauma novels we see a story written by people trying to reconstruct their assumptive world after the shattering of their old one highlighting the significance of the religious dimension in trauma theory

Roots

Matter Paula Owens Parker, 2016-07-15 Roots Matter recognizes the impact of transgenerational trauma as a result of chattel slavery on the African American community. It emphasizes the importance of discovering the silent stories those that were overlooked and ignored, unearthing the secret stories those that were intentionally covered up, and being attentive to the reverberations of the severed stories of slavery and how they influence family history and family members. Interrupting the transference of generational trauma through mourning, forgiveness, and prayers for healing accelerates the transference of generational resilience. Through celebration and blessing the fortitude, courage, and determination in the family narrative moves current and future generations toward healing and wholeness. Roots Matter prunes the family tree of trauma, the silent secret and severed stories that stunt the growth of the family, and tends to family roots, fertilizing them with the recognition of the resilience, achievements, gifts, and talents of the ancestors, thus creating a healthier environment for future generations to flourish.

Vast as the Sea Samuel Hildebrandt, 2023-12-05 The poetry, imagery, speeches, and emotions readers encounter in texts like Job, Psalms, and Jeremiah are abundant resources for articulating the painful experiences of the human condition. These compositions are sacred scripts that normalize and articulate the anxiety, loneliness, and despair that mark life on earth. In *Vast as the Sea*, Samuel Hildebrandt presents an accessible exegetical study of these scripts that demonstrates how the Bible's ancient poetry speaks today. In conversation with current psychological research, Hildebrandt's poetic analyses invite readers to discover the personal and expressive contours of the biblical text as well as its liberating and healing potential. *Vast as the Sea* models an approach to the Old Testament that navigates a critical and creative balance between ancient contexts and contemporary life. Hildebrandt joins these two worlds together by maintaining a conscious focus on poetic language. By reflecting on individual words, engaging selected metaphors, and unpacking expressions and their underlying worldviews, *Vast as the Sea* gifts to its readers a reservoir of language for putting the pain of being human into words. The world, woe, and wonder of Old Testament poetry is a vast yet overlooked resource for readers who are left speechless by the tumults of life and who struggle to reconcile such experiences with their faith. Promoting emotional literacy and wrestling with the tensions between confession and experience, *Vast as the Sea* will become a long-held treasured resource for scholars and everyday readers of the Bible as well as for practitioners in psychology and pastoral counseling.

[The Language of Battered Women](#) Carol L. Winkelmann,2012-02-01 Winner of the 2005 Outstanding Book Award presented by the Organization for the Study of Communication Language and Gender OSCLG This study of battered women living in a shelter offers a rhetorical analysis of survivors personal theologies Author Carol L Winkelmann holds that while it is virtually ignored in the domestic violence literature the Christian heritage of many battered women plays a significant if complicated role in their language thoughts and lives The women s religious faith serves not only to sustain them through periods of profound suffering but also to develop solidarity with other culturally different women in the shelter Designed to assist women to greater independence the shelter actually functions as a culture of surveillance where women turn to one another and to their faith to cope with the trauma of violence To heal the women engage in dialogue that is dense in religious imagery talking about the relationship of God and the church to suffering and evil At the same time these women also acknowledge that organized religion is very much involved in the maintenance of patriarchal marriage and its attendant abuses in their own lives Together battered women are sometimes able to construct creative

theological responses to the problem of suffering and evil A mix of religious and secular languages compels them to devise new ways of thinking about their role in family church and society

The Impact of Complex Trauma on Development
Cheryl Arnold, Ralph Fisch, 2011-10-16 The Impact of Complex Trauma on Development describes what happens cognitively and emotionally behaviorally and relationally to people who are repeatedly traumatized in childhood Part One brings together trauma theory with a number of theories of human development It directly addresses and describes developmental pathology and its origins Through powerful examples it conveys to the reader the pain and destruction caused by ongoing trauma abuse and continuous stress Part Two written from the perspective of a clinician who has worked extensively with traumatized children and adults is primarily directed to mental health professionals and graduate students These chapters are devoted to describing how to recognize the pathological consequences of trauma and how to intervene and remediate these developmental deficits The overarching theory is psychoanalytically based and developmental but other treatment approaches are integrated into the therapy when they are developmentally and therapeutically appropriate The text raises important questions related to the development of the self its relationship to therapy and the diagnosis and treatment of complex trauma in children adolescents and adults
