Enos George Forss,2007-08-31 Enos is a biblical character Enos is the grandson of Adam In different bibles this name is spelled Enos Enoch and Enosh It is said that Enos was the first human being to reach up to the heavens to pray to God for guidance Enos as far as science is concerned would be the first early on human being that paused one day suddenly to speak to God in the sky This is so because somewhere in our past there would have to be a first person to do something like this My book ENOS is my own prayerful quest to know the whole truth about humanity at long last I do have it here I believe I do because I asked for some guidance from God as did Enos I started writing my book in 1983 and it is based on a stark experience I had when I encountered some amazing wisdom in 1969 This experience made me want to know more about God in life My quest is based on a book I read that a young woman named Buffy put together in 1969 which had the wisest words I have ever encountered Buffy had what she called a report She had a report that claimed to contain the real truth about humanity in the universe My book Enos is a similar phenomenal report about humanity and much more My book is much the same as Buffys report because it is a recreation of what I saw in her report that indeed some Aliens did come to the earth in 1969 to create a new bible for our world There is a conversation that goes on for about 400 pages of my writing In this way a new body of wisdom is born My writing is about 700 pages in total My book is not about my view of the universe revealing Gods might to us My book is more like a prayerful quest because I am asking God in the universe for answers I know that I have the same basic wisdom contained in Buffys book My writing contains hundreds of new finding sentences We know these as long standing wise sayings like He Who Lives by the Sword Will Die by the Sword A few years after I met Buffy from the day when she told me that some wise Aliens had abducted her and her friends I ran into Buffy again When I questioned her she said her report from those days was junk She said You know how we were in those

days George Her report wasn't junk to me and I had to have it back Buffy didn't even know where her original report book was On this very occasion I made a vow to God and I started getting finding sentences immediately These are transcribed all throughout my writing God always wins In ENOS we learn that humanity is a part of God and part of some advanced Alien life form intelligence that came to the earth about 200 000 years ago I am talking about the giants we read about in our basic Christian Bible in Genesis This situation of a foreign intelligence cannot last long and when it is over only a Godly being will remain that suits this earth perfectly for a very long time This foreign intelligence is humanity Enos is about God in the universe Enos teaches us how to live freely for a million years Enos is a new American style mindset American lingo about the wisdom that all natural creatures have known through the eons The Aliens themselves in Enos are an amazing perfectly natural life form that has survived a long time in evolution to become who they are now who they want to be My book has to be known as a religion This bold statement goes along with the process by which I have been able to write this book out at all Enos is also an overly long diatribe of rhetorical writing that many will not like and some will be completely enthralled by It can also be looked upon as being a book of poetry Enos has about 50 poems in it a few long poems and many short ones and many passages that are poetic like The Aliens in my report say that this entire writing is a prolonged poem Audio Book Mikko Keskinen, 2008-01-01 Audio Book deals with the ways in which the auditory voices sounds noises is represented in postphonograph narrative fiction More specifically it examines how the various technologies enabling the transmission or storing of sound and voice are figured in selected prose works Drawing from contemporary American British French and German literature the author discusses the use of these technologies in Nicholson Baker's Vox Michel Tournier's Tristan Vox Heinrich Böll's Murke's Collected Silences Don DeLillo's The Body Artist Nick Hornby's High Fidelity and Sylvia Brownrigg's The Metaphysical Touch The texts foreground sound technologies the telephone radio tape recorder answering machine record player or counterintuitively e mail in their narration and manifest important aspects of audio in literature In prior criticism these texts have not been systematically read from media technological perspectives The sound technologies represented in the texts problematize the clear distinction between speech and writing or between natural articulation and its technological reproduction Audio Book suggests that literary writing is metaphorically conceivable as a transmitting and storing technology as an audiobook of sorts capable of recording upon writing and reproducing upon reading auditory information The sound technologies proper have also bearing on the narrative structure metaphors and style of each fictional work studied in Audio Book In addition themes such as identity genre the nature of literary representation and the absence presence problem are brought to the fore on account of the technologies depicted *Shakespeare Unbound* René Weis, 2013-10-22 At last a key that unlocks the secrets of Shakespeare's life Intimacies with Southampton and Marlowe entanglements in London with the elusive dark lady the probable fathering of an illegitimate son these are among the mysteries of Shakespeare's rich and turbulent life that have proven tantalizingly obscure Despite an avalanche of recent

scholarship Ren Weis an acknowledged authority on the Elizabethan period believes the links between the bard's life and the poems and plays have been largely ignored Armed with a wealth of new archival research and his own highly regarded interpretations of the literature the author finds provocative parallels between Shakespeare's early experiences in the bustling market town of Stratford including a dangerous poaching incident and contacts with underground Catholics and the plays Breaking with tradition Weis reveals that it is the plays and poems themselves that contain the richest seam of clues about the details of Shakespeare's personal life at home in Stratford and in the shadowy precincts of theatrical London details of a code unbroken for four hundred years

Gender and Ventriloquism in Victorian and Neo-Victorian Fiction H. Davies, 2012-08-21 Is ventriloquism just for dummies What is at stake in neo Victorian fiction's desire to talk back to the nineteenth century This book explores the sexual politics of dialogues between the nineteenth century and contemporary fiction offering a new insight into the concept of ventriloquism as a textual and metatextual theme in literature

Whatever.. I'm Still Here..... kjforce, 2011-10-21 Going through changes in our lives we often make decisions and choices that we later question what was I thinking We even have aahha moments but there are also sometimes more often than not consequences we must deal with So if this sounds like you welcome and enjoy HOWEVER if your life is and always has been perfect and no question or doubt in your mind this book is not for you so if you would please put it back on the shelf for someone less fortunate as this is a Limited Edition book
