Shakespearean Maternities Chris Laoutaris, 2008-06-20 This study explores maternity in the disciplines of early modern England Placing the reproductive female body centre stage in Shakespeare's theatre Laoutaris ranges beyond the domestic sphere in order to recuperate the wider intellectual epistemological and archaeological significance of maternity to the Renaissance imagination Focusing on anatomy in *Hamlet* natural history in *The Tempest* demonology in *Macbeth* and heraldry in *Antony and Cleopatra* this book reveals the ways in which the maternal body was figured in and in turn contributed towards the re-conceptualisation of bodies of knowledge Laoutaris argues that Shakespeare resists a monolithic concept of motherhood presenting instead a range of contested maternities which challenge the distinctive ways of knowing these early disciplines worked to impose on the order of created nature

The Shell Gardens Book Peter Hunt, 1964 **The Shelletter of Shells and Their Neighbors**, 1960 *The Child's own magazine*, 1855 *Follies, Grottoes & Garden Buildings* Gwyn Headley, Wim Meulenkamp, 1999 Chronicles nearly 1 450 UK sites which boast follies grottoes or garden buildings of original or eccentric aspect *Hertfordshire Garden History* Anne Rowe, 2007 This volume contains original research into aspects of garden history in Hertfordshire *England's Magnificent Gardens* Roderick Floud, 2021-06-15 An altogether different kind of book on English gardens the first of its kind a look at the history of England's magnificent gardens as a history of Britain itself from the seventeenth century gardens of Charles II to those of Prince Charles today In this rich revelatory history Sir Roderick Floud one of Britain's preeminent economic historians writes that gardens have been created in Britain since Roman times but that their true growth began in the seventeenth century by the eighteenth century nurseries in London took up 100 acres with ten million plants that were worth more than all of the nurseries in France combined Floud's book takes us through more than three centuries of English history as he writes of the kings queens and princes whose garden obsessions changed the landscape of England itself from Stuart Georgian and

Victorian England to today's Windsor. Here are William and Mary who brought Dutch gardens and bulbs to Britain, William who twice had his entire garden lowered in order to see the river from his apartments and his successor Queen Anne who like many others since vowed to spend little on her gardens and instead spent millions. Floud also writes of Frederick Prince of Wales the founder of Kew Gardens who spent more than 40,000 on a single twenty-five foot tulip tree for Carlton House, Queen Victoria who built the largest most advanced and most efficient kitchen garden in Britain and Prince Charles who created and designed the gardens of Highgrove inspired by his boyhood memories of his grandmother's gardens. We see Sarah, Duchess of Marlborough who created a magnificent garden at Blenheim Palace only to tear it apart and build a greater one, Deborah, Duchess of Devonshire the savior of Chatsworth's 100-acre garden in the midst of its 35,000 acres and the gardens of lesser mortals among them Gertrude Jekyll and Vita Sackville West both notable garden designers and writers. We see the designers of royal estates among them Henry Wise, William Kent, Humphrey Repton and the greatest of all English gardeners Capability Brown who created the 150-acre lake of Blenheim Palace earned millions annually and designed more than 170 parks many still in existence today. We learn how gardening became a major catalyst for innovation, central heating came from experiments to heat greenhouses with hot water pipes, how the new iron industry of industrializing Britain supplied a myriad of tools, mowers, pumps and the boilers that heated the greenhouses and finally Floud explores how gardening became an enormous industry as well as an art form in Britain and by the nineteenth century was unrivaled anywhere in the world.

Landscape Gardens Sarah Rutherford, 2017-09-15 The landscape garden is arguably Britain's greatest contribution to Western Art, establishing an artificial style of garden that has defined what we consider to be a natural environment. This is the perfect introduction to the subject.

Global Goods and the Country House Jon Stobart, 2023-11-20 Global goods were central to the material culture of eighteenth-century country houses. Across Europe, mahogany furniture, Chinese wallpapers and Indian textiles formed the backdrop to genteel practices of drinking sweetened coffee, tea and chocolate from Chinese porcelain. They tied these houses and their wealthy owners into global systems of supply and the processes of colonialism and empire. *Global Goods and the Country House* builds on these narratives and then challenges them by decentering our perspective. It offers a comparative framework that explores the definition, ownership and meaning of global goods outside the usual context of European imperial powers. What were global goods and what did they mean for wealthy landowners in places at the periphery of Europe: Sweden and Wallachia in the British colonies of North America and the Caribbean or in the extra-colonial context, Japan or Rajasthan? By addressing these questions, this volume offers fresh insights into the multi-directional flow of goods and cultures that enmeshed the eighteenth-century world. And by placing these goods in their specific material context, from the English country house to the princely palaces of Rajasthan, we gain a better understanding of their use and meaning and of their role in linking the global and the local.

Daughters Susan Stabile, 2018-09-05 A renowned literary coterie in eighteenth century Philadelphia Elizabeth Fergusson Hannah Griffitts Deborah Logan Annis Stockton and Susanna Wright wrote and exchanged thousands of poems and maintained elaborate handwritten commonplace books of memorabilia Through their creativity and celebrated hospitality they initiated a salon culture in their great country houses in the Delaware Valley In this stunningly original and heavily illustrated book Susan M Stabile shows that these female writers sought to memorialize their lives and aesthetic experience a purpose that stands in marked contrast to the civic concerns of male authors in the republican era Drawing equally on material culture and literary history Stabile discusses how the group used their writings to explore and at times replicate the arrangement of their material possessions including desks writing paraphernalia mirrors miniatures beds and coffins As she reconstructs the poetics of memory that informed the women's lives and structured their manuscripts Stabile focuses on vernacular architecture penmanship souvenir collecting and mourning Empirically rich and nuanced in its readings of different kinds of artifacts this engaging work tells of the erasure of the women's lives from the national memory as the feminine aesthetic of scribal publication was overshadowed by the proliferating print culture of late eighteenth century America

secondary sources and a signed critical essay *The Marlborough Mound* Richard Barber, 2022 The Marlborough Mound has recently been recognised as one of the most important monuments in the group around Stonehenge It was also a medieval castle and a feature in a major 17th century garden This is the first comprehensive history of this extraordinary site Marlborough Mound standing among the buildings of Marlborough College has attracted little attention until recently Records showed it to be the motte of a Norman castle of which there were no visible remains The local historians and archaeologists who had investigated it had found very little in the way of archaeological evidence beyond a few prehistoric antler picks the odd Roman coin and a scatter of medieval pottery It was to be archaeology which provided the most dramatic discovery after the Mound Trust began to restore the mound in 2003 English Heritage were investigating Silbury Hill and arranged to take cores from the Mound for dating purposes The results were remarkable as they showed that the Mound was almost a twin of Silbury Hill and therefore belonged to the extraordinary assembly of prehistoric monuments centred on Stonehenge For the medieval period this book brings together for the first time all that we know about the castle from the royal records and from chronicles These show that it was for a time one of the major royal castles in the land Most of the English kings from William I to Edward III spent time here For Henry III and his queen Eleanor of Provence it was their favourite castle after Windsor It marks the end of the first stage of the work of the Mound Trust which following the restoration turns to its second objective of promoting public knowledge of the Mound based on scholarly research As to its natural form as a garden mound next to the house of the dukes of Somerset in the eighteenth century this emerges from letters and even poems and from the recent restoration Much of this has been slow and painstaking work however involving the removal of the trees which endangered the structure of the Mound the recutting of the spiral path and the careful replanting of the whole area with suitable vegetation By doing this the shape of the Mound as a garden feature has re-emerged and can now be seen clearly This book marks the end of the first stage of the work of the Mound Trust which following the restoration turns to its second objective of promoting public knowledge of the Mound based on scholarly research **Atlas of the Irish Rural Landscape** F.
