Bodily Pain in Romantic Literature Jeremy Davies,2014-03-14 Shortlisted for the University English Early Career Book Prize 2016 Shortlisted for the British Association for Romantic Studies First Book Prize 2015 When writers of the late eighteenth and early nineteenth centuries explored the implications of organic and emotional sensitivity the pain of the body gave rise to unsettling but irresistible questions Urged on by some of their most deeply felt preoccupations and in the case of figures like Coleridge and P B Shelley by their own experiences of chronic pain many writers found themselves drawn to the

imaginative scrutiny of bodies in extremis Bodily Pain in Romantic Literature reveals the significance of physical hurt for the poetry philosophy and medicine of the Romantic period This study looks back to eighteenth century medical controversies that made pain central to discussions about the nature of life and forward to the birth of surgical anaesthesia in 1846 It examines why Jeremy Bentham wrote in defence of torture and how pain sparked the imagination of thinkers from Adam Smith to the Marquis de Sade Jeremy Davies brings to bear on Romantic studies the fascinating recent work in the medical humanities that offers a fresh understanding of bodily hurt and shows how pain could prompt new ways of thinking about politics ethics and identity

Apocalypse and Millennium in English Romantic Poetry Morton D. Paley,1999-10-07 The interrelationship of the ideas of apocalypse and millennium is a dominant concern of British Romanticism The Book of Revelation provides a model of history in which apocalypse is followed by millennium but in their various ways the major Romantic poets Blake Wordsworth Coleridge Byron Keats and Shelley question and even at times undermine the possibility of a successful secularization of this model No matter how confidently the sequence of apocalypse and millennium seems to be affirmed in some of the major works of the period the issue is always in doubt the fear that millennium may not ensue emerges as a significant if often repressed theme in the great works of the period Related to it is the tension in Romantic poetry between conflicting models of history itself history as teleology developing towards end time and millennium and history as purposeless cycle This subject matter is traced through a selection of works by the major poets partly through an exposition of their underlying intellectual traditions and partly through a close examination of the poems themselves

Eternity in British Romantic Poetry Madeleine Callaghan,2022-05-13 Eternity in British Romantic Poetry explores the representation of the relationship between eternity and the mortal world in the poetry of the period It offers an original approach to Romanticism that demonstrates against the grain the dominant intellectual preoccupation of the era the relationship between the mortal and the eternal The project s scope is two fold firstly it analyses the prevalence and range of images of eternity from apocalypse and afterlife to transcendence in Romantic poetry secondly it opens up a new and more nuanced focus on how Romantic poets imagined and

interacted with the idea of eternity Every poet featured in the book seeks and finds their uniqueness in their apprehension of eternity From Blake s assertion of the Eternal Now to Keats s defiance of eternity Wordsworth s two consciousnesses versus Coleridge s capacious poetry Byron s swithering between versions of eternity compared to Shelleyan yearning and Hemans s superlative account of everlasting female suffering each poet finds new versions of eternity to explore or reject This monograph sets out a paradigm shifting approach to the aesthetic and philosophical power of eternity in Romantic poetry

The Apocalypse in England C. Burdon,1997-04-23 The Apocalypse of John is perhaps the most alluring and dangerous text in any scripture This study looks at English responses to it in political pamphlets and scholarly exegesis in poetry and preaching and visual art Those who set out to find enduring meaning in the book failed Yet in the post Christian re writings of Revelation by Shelley and Blake John s own dynamic of unveiling comes to life subverting the structures of power and reading built on the visions of Patmos The King James Bible after Four Hundred Years Hannibal Hamlin,Norman W. Jones,2010-12-02 2011 marked the 400th anniversary of the King James version of the Bible No other book has been as vital to the development of English writing or indeed to the English language itself This major collection of essays is the most complete one volume exploration of the King James Bible and its influence to date The chapters are written by leading scholars from a range of disciplines who examine the creation of the King James Bible as a work of translation and as a linguistic and literary accomplishment They consider how it differed from the Bible versions which preceded it and assess its broad cultural impact and precise literary influence over the centuries of writing which followed in English and American literature until today The story will fascinate readers who approach the King James Bible from the perspectives of literary linguistic religious or cultural history *The Bible and Literature: The Basics* Norman W. Romanticism, Hermeneutics and the Crisis of the Human Sciences Scott Masson, 2017-11-28 The human sciences established and developed in the nineteenth century have slowly disintegrated. It is an ironic end. It was in the name of the greater legitimacy of more universal psychological criteria that its architects disavowed the traditional theological standard for valuing and evaluating human words and deeds. With hindsight we can see that universality was indeed gained but only at the cost of alienating any sense of common legitimacy. Harold Bloom, defending the canon largely in the humanising moral sense, convention of critics operating since Matthew Arnold has resolutely maintained the common legitimacy of aesthetic value against the claims of particular interest groups. But the very universality attached to aesthetic value is at odds with the world of common sense and thus lies at the root of the problem. To complicate matters this universality has been understood as a traditional criterion. A more radical treatment of the subject is needed. This study begins by surveying the field of modern hermeneutics. Noting its repeated crises of self-legitimation it traces these to circular beliefs bequeathed by Romanticism that human nature is self-begetting and can thus be known intimately and autonomously. After providing a historical overview of how human nature had been understood the focus shifts to the attack in Coleridge's *Biographia Literaria* on Wordsworth's 1802 Preface to *Lyrical Ballads* and to a reading of some key Romantic texts. It reads Coleridge's famous definition of the imagination as an attack on Romantic hermeneutics rooted in the traditional view that man has been created in *Imago Dei*.

Islam and the English Enlightenment, 1670-1840 Humberto Garcia, 2012-01-30 A corrective addendum to Edward Said's *Orientalism* this book examines how sympathetic representations of Islam contributed significantly to Protestant Britain's national and imperial identity in the eighteenth century. Taking a historical view Humberto Garcia combines a rereading of eighteenth century and Romantic era British literature with original research on Anglo-Islamic relations. He finds that far from being considered foreign by the era's thinkers Islamic republicanism played a defining role in Radical Enlightenment debates most significantly during the Glorious Revolution, French Revolution and other moments of acute constitutional crisis as well as in national and political debates about England and its overseas empire. Garcia shows that writers such as Edmund Burke, Lady Mary Wortley Montagu, Samuel Taylor Coleridge, Robert Southey and Percy and Mary Shelley not only were influenced by international events in the Muslim world but also saw in that world and its history a viable path to interrogate, contest and redefine British concepts of liberty. This deft exploration of the forgotten moment in early modern history when intercultural exchange between the Muslim world and Christian West was common resituates English literary and intellectual history in the wider context of the global eighteenth century. The direct challenge it poses to the idea of an exclusionary Judeo-Christian Enlightenment serves as an important revision to post-9/11 narratives about a historical clash between Western democratic values and Islam.
