Should God Get Tenure Essays On Religion And Higher Education:

Should God Get Tenure? David W. Gill, 2020-04-14 During the twentieth century theological and religious perspectives have been marginalized if not utterly excluded in many of our colleges and universities The essays in this book argue in different ways for the critical appreciative inclusion of theological and religious perspectives in higher education The contributors believe that even in our secular religiously disestablished era religion and God continue to occupy an important and dynamic role in personal and social life If our colleges and universities are to fulfill their higher aspirations of educating whole persons for the real world in all of its diversity and challenge we need to go bravely against the flow and give God tenure

Becoming Good David W. Gill, 2022-07-07 *Becoming Good Building Moral Character* 2000 is a study of character the kind of people we are our habits dispositions inclinations virtues and vices Without good character we do not have the strength or wisdom to fight off temptation and do the right thing no matter how good our principles may be For this study Jesus Beatitudes are the primary guide with Paul's faith hope and love a close second *Becoming Good* digs deep into the biblical text and vocabulary listens to the great biblical and ethical teaching of the past two millennia and provides abundant contemporary illustrations and applications *Becoming Good* works as a stand alone study the ethics of being virtue ethics but it is also the companion to *Doing Right* the ethics of doing decision and action **Twenty-first Century Christian Higher**

Education in Multi-cultural Asian Societies, 2000 **A Report from the Front Lines** Michael Shahan, 2009 In tribute to the ongoing influence of Robert Benne director of the Center for Religion and Society at Roanoke College fourteen of his friends and colleagues have produced *A Report from the Front Lines* in which they consider the role of theology in the public arena at this turn of the twenty first century They speak powerfully to the cultural paralysis of the Western world where educated leaders claim that morality must not interfere with science or public policy by showing the relevance of orthodox Christianity to humanity's most pressing problems The constant theme weaving through the volume is Benne's own conviction that Christians can and must engage in the public square with positions forged out of their religious commitments using arguments whose presuppositions allow room for special revelation but whose resultant logic is translated into a shared universal rationality Book Jacket [Resources in Education](#), 1998 **Locating US Theological Education In a**

Global Context Hendrik R. Pieterse, 2019-06-21 CONTRIBUTORS E Byron Anderson K K Yeo Margaret Eletta Guider OSF Lester Edwin J Ruiz Brent Waters Namsoon Kang Luis R Rivera and David Esterline Theological education in the United States finds itself in untested circumstances today Rapid social change is creating an increasing multicultural multiracial and multireligious context for leadership formation At the same time international enrollment cross border educational initiatives student and faculty exchanges and more are connecting US theological schools with a global community of Christian teaching and learning How do US theological institutions locate themselves within this global ecology of theological formation so as to be both responsible participants and creative shapers within it That is how do they discern their proper place and role It is questions like these that the contributors to this volume explore Building on the decades long discussion about the globalization of US theological education this book argues that in engaging such questions US theological institutions have much to gain from a sustained conversation with the burgeoning literature on the internationalization of American higher education This research offers theological institutions a trove of insights and cautionary tales as they seek

to discern their rightful place and role in educating leaders in and for a global Christian church

W. Stanford Reid A. Donald MacLeod,2004 MacLeod's in depth analysis examines how an observant Christian academic unapologetically Calvinist openly articulated his faith in a secular environment and helped convince evangelicals to abandon their ghettoizing anti intellectualism His discussion of Reid's international networking serves as a reminder of the way in which Canadian evangelicalism was influenced by and in turn influenced the United States where Reid's influence was appreciable both as a trustee of Westminster Seminary for thirty seven years and as editor at large of the nascent Christianity Today W Stanford Reid is a poignant in depth investigation of the life of a man whose career spanned academia and church

The Life of the Mind (Renewed Minds) Clifford Williams,2002-03-01 What purpose do purely intellectual pursuits have in the lives of Christians Why should Christians study subjects that have little bearing on their future careers and ministry In a style reminiscent of the work of Arthur Holmes and Harry Blamires veteran professor of philosophy Clifford Williams addresses these issues and more in this succinct and accessible examination of the life of the mind Christians cultivating the life of the mind actively pursue situations and discussions that require experimentation reflection and perseverance They are interested in the acquisition of knowledge that is both unrelated and directly related to their faith Williams answers common Christian objections to such activities describes the virtues of the person who engages in the life of the mind and asserts that the life of the mind is justifiably a Christian calling The Life of the Mind is directed toward college students contemplating the importance of college and intellectual activity in general but it will be enjoyed by all committed to developing a Christian mind

What Teachers Need to Know Matthew Bruce Etherington,2017-03-31 Every generation has sought to make teaching and learning more inclusive and equitable but pesky questions always remain such as how can teaching and learning be conducted in ways that satisfies and respects everyone What are the parameters of an inclusive pedagogy Who defines its principles How should these principles be taught and by whom And by what authority shall they be grounded These types of thorny questions occupy the essence of educators and the authors of this book This book is about teachers educators and topics related to inclusion Teachers and educators have a lot to know therefore the topics are broad and relevant to the times What should teachers know about special needs religion and spirituality Aboriginality the environment tolerance and school choice Although teachers have knowledge of their subject matter knowledge alone is not sufficient They must know and understand how people learn A teacher must also care deeply about who they teach And this teacher knowledge grows and changes over time as teachers become more experienced informed skilled and wiser At the same time no teacher preparation will be sufficient because there will always be discussions that were never had and knowledge that was never shared Time has its costs and there is only so much a formal education can prepare someone This book helps to satisfy a cavity in learning for
