Ramnarine, 2020 Jean Sibelius's Violin Concerto is the story of Sibelius as performer and composer of violin performing traditions of histories of musical transmission and of virtuosity itself It investigates the history and legacy of one of the most recorded concertos in the violin repertoire Sibelius a celebrated and influential composer of the late 19th and 20th centuries was an accomplished violinist whose enduring interest in the instrument has been paralleled by the broad success of the only concerto in his oeuvre his violin concerto premiered in 1904 and revised in 1905 Considering how violinists engage with the work author Tina K Ramnarine discusses technology's central role in the concerto's transmission from Jascha Heifetz's seminal 1935 recording to contemporary online performances gender issues in violin solo careers and nature based musical aesthetics that lead to thinking about the ecology of virtuosity in an era of environmental crisis Beginning with Sibelius's early training as a violinist and his aspirations as a performer Ramnarine traces the dramatic historical context of the violin concerto It was composed as Finland underwent a period of heightened self determination nationalism and protest against Russian imperial policies and it heralded intense political dynamics relating to Europe's East West border that have extended to the present This story of the violin concerto points to the notion of Sibelius and the virtuoso more generally as a political figure *Four Last Songs* Linda Hutcheon, Michael Hutcheon, 2015-05-22 Aging and creativity can seem a particularly fraught relationship for artists who often face age related difficulties as their audience's expectations are at a peak In *Four Last Songs* Linda and Michael Hutcheon explore this issue via the late works of some of the world's greatest composers Giuseppe Verdi 1813 1901 Richard Strauss 1864 1949 Olivier Messiaen 1908 92 and Benjamin Britten 1913 76 all wrote operas late in life pieces that reveal unique responses to the challenges of growing older Verdi's *Falstaff* his only comedic success combated Richard Wagner's influence by introducing young Italian composers to a new model of national music Strauss on the other hand struggling with personal and political problems in Nazi Germany composed the self reflexive *Capriccio* a life review of opera and his own legacy Though it exhausted him physically and emotionally Messiaen at the age of seventy five finished his only opera *Saint Fran ois d Assise* which marked the pinnacle of his career Britten meanwhile suffering from heart problems refused surgery until he had completed his masterpiece *Death in Venice* For all four composers age far from sapping their creative power provided impetus for some of their best accomplishments With its deft treatment of these composers final years and works *Four Last Songs* provides a valuable look at the challenges and opportunities that present themselves as artists grow older **A Brahms Reader** Michael Musgrave, 2000-01-01 Johannes Brahms 1833 1897 was prominent not only as a composer but as a pianist conductor editor scholar collector and friend of many notables He was also in private an articulate critic connoisseur of other arts and traveler

In this enlightening book the eminent Brahms scholar Michael Musgrave presents a comprehensive and original account of the composer's private and professional lives. Drawing on an array of documentary materials, Musgrave weaves together diverse strands to illuminate Brahms's character and personality, his outlook as a composer, his attitudes toward other composers, his activities as pianist and conductor, his scholarly and cultural interests, his friendships with Robert and Clara Schumann and others, his social life and travel, and critical attitudes toward his music from his own time to the present. The book quotes extensively from Brahms's own words and those of his circle. Musgrave mines the composer's letters, reminiscences of his contemporaries, early biographies, reviews, and commentary by friends, critics, and scholars to create an unparalleled source of information about Brahms. The author sets the materials in context, identifies sources in detail, includes a glossary of information on principal individuals, and notes recent research on the composer. This engaging biographical work, with a gallery of illustrations, will appeal to general music lovers as well as to scholars with a special interest in Brahms.

The Disappointed Bridge Richard Pine, 2014-06-02 This original study is the first major critical appraisal of Ireland's post-colonial experience in relation to that of other emergent nations. The parallels between Ireland, India, Latin America, Africa, and Europe establish bridges in literary and musical contexts which offer a unique insight into independence and freedom and the ways in which they are articulated by emergent nations. They explore the master-servant relationship, the functions of narrative, and the concepts of nationalism, map-making, exile, schizophrenia, hybridity, magical realism, and disillusion. The author offers many incisive answers to the question: What happens to an emerging nation after it has emerged?

Ferruccio Busoni and His Legacy Erinn E. Knyt, 2017-05-22 An analysis of the composer's unconventional teaching style and philosophy, his relationship with his students, and his effect on twentieth-century music. Many students of renowned composer, conductor, and teacher Ferruccio Busoni had illustrious careers of their own, yet the extent to which their mentor's influence helped shape their success was largely unexplored until now. Through rich archival research, including correspondence, essays, and scores, Erinn E. Knyt presents an evocative account of Busoni's idiosyncratic pedagogy focused on aesthetic ideals rather than methodologies or techniques, and how this teaching style and philosophy can be seen and heard in the Nordic-inspired musical works of Sibelius, the unusual soundscapes of Varèse, the polystylistic meldings of music and technology in Louis Gruenberg's radio operas and film scores, the electronic music of Otto Luening, and the experimentalism of Philip Jarnach. Equal parts critical biography and interpretive analysis, Knyt's work compels a reconsideration of Busoni's legacy and puts forth the notion of a Busoni School as one that shaped the trajectory of twentieth-century music. Erinn Knyt's *Ferruccio Busoni and His Legacy* is a most welcome addition to the literature on Busoni as a fine example of research based on primary sources. *Bach* *The Rest Is Noise* Alex Ross, 2007-10-16 Winner of the 2007 National Book Critics Circle Award for Criticism, A New York Times Book Review Top Ten Book of the Year, Time magazine Top Ten Nonfiction Book of 2007, Newsweek Favorite Books of 2007, A Washington Post Book World Best Book of 2007. In this sweeping and dramatic narrative

Alex Ross music critic for The New Yorker weaves together the histories of the twentieth century and its music from Vienna before the First World War to Paris in the twenties from Hitler's Germany and Stalin's Russia to downtown New York in the sixties and seventies up to the present Taking readers into the labyrinth of modern style Ross draws revelatory connections between the century's most influential composers and the wider culture The Rest Is Noise is an astonishing history of the twentieth century as told through its music
