Long March:

The Long March Shuyun Sun, 2006 Every nation has its founding myth and for modern China it is the Long March In 1934 the fledgling Communist Party and its 200 000 strong armies were forced out of their bases by Chiang Kaishek and his National troops Walking more than 10 000 miles over mountains grassland and swamps they suffered appalling casualties and ended up in the remote barren North Just one fifth survived they went on to launch the new China in the heat of revolution A legend was born Justified by a remarkable feat the Long March was also a triumph of propaganda for Mao and for the revolution Seventy years later Sun Shuyun set out to retrace the Marchers steps The rugged landscape has changed little Her greatest difficulty was in wrestling with the scenes lodged in her mind since childhood part of the upbringing of every Chinese On each stage of her journey she found hidden stories the ruthless purges the terrible toll of hunger and disease the fate of women on the March the huge number of desertions the futile deaths The real story of the March the most vivid pictures come from the veterans whom Sun Shuyun has found She follows their trail through all those harsh miles discovers their faith and disillusion their pain and their hopes and also recounts how many suffered even after the March's end in 1936 The Long March was an epic journey of endurance even more severe than history books say and courage against impossible odds It is a brave exciting and tragic story Sun Shuyun tells it for the first time as it really happened **China**

Benjamin Lai, 2019-09-19 This study tells the epic story of how a routed group of Chinese Communists marched tens of thousands of miles with Mao on a journey that would lead to their eventual triumph and rule of the whole of China Every nation has its founding myth and for modern China it is the Long March In the autumn of 1934 the Chinese Nationalists under Chiang Kai shek routed the Chinese Communists and some 80 000 men women and children left their homes to walk with Mao Zedong into the unknown Mao's force had to endure starvation harsh climates and challenging terrain whilst under constant aerial bombardment and threatened by daily skirmishes The Long March survivors had to cross 24 rivers and 18 mountain ranges through freezing snow and disease ridden wilderness to reach their safe haven of Yan'an In military terms the Long March was the longest continuous march in the history of warfare and it came at a terrible cost after one year 6 000 miles and countless battles fewer than 4 000 of the original marchers were left Illustrated with stunning full colour artwork this enthralling book tells the full story this epic display of resilience and shows how from the desert plateau of Yan'an these survivors would grow the army that conquered China 14 years on changing history forever The Long March

William Styron, 1956 In the shadow of the Korean War a series of misfired mortar shells kill six men in a Marine camp during

a training exercise prompting the commanding officer to order a grueling punishment a thirty six mile march through the suffocating heat of the Carolina summer Intended to beat discipline into the aging reservists the march instead rankles Lieutenant Culver and Captain Mannix whose growing resentment of the brutal trek leads to an ultimate powerful act of rebellion The Long March is a withering critique of a military system that leaves no room for dignity or personal identity Told in part through flashbacks and dream sequences the story is immersed in vivid language and philosophical reflection a poignant defense of the individual in the face of attempted dehumanization Words and Their Stories Ban

Wang,2010-10-05 As China joins the capitalist world economy the problems of social disintegration that gave rise to the earlier revolutionary social movements are becoming pressing Instead of viewing the Chinese Revolution as an academic study these essays suggest that the motifs of the Revolution are still alive and relevant The slogan Farewell to Revolution that obscures the revolutionary language is premature In spite of dislocations and ruptures in the revolutionary language to rethink this discourse is to revisit a history in terms of sedimented layers of linguistic meanings and political aspirations Earlier meanings of revolutionary words may persist or coexist with non revolutionary rivals Recovery of the vital uses of key revolutionary words proffers critical alternatives in which contemporary capitalist myths can be contested *U.S. National Security and Military/commercial Concerns with the People's Republic of China* United States. Was Mao Really a Monster? Gregor Benton, Lin Chun, 2013-09-13 Mao The Unknown Story by Jung Chang and Jon Halliday was published in 2005 to a great fanfare The book portrays Mao as a monster equal to or worse than Hitler and Stalin and a fool who won power by native cunning and ruled by terror It received a rapturous welcome from reviewers in the popular press and rocketed to the top of the worldwide bestseller list Few works on China by writers in the West have achieved its impact Reviews by serious China scholars however tended to take a different view Most were sharply critical questioning its authority and the authors methods arguing that Chang and Halliday s book is not a work of balanced scholarship as it purports to be but a highly selective and even polemical study that sets out to demonise Mao This book brings together sixteen reviews of Mao The Unknown Story all by internationally well regarded specialists in modern Chinese history and published in relatively specialised scholarly journals Taken together they demonstrate that Chang and Halliday s portrayal of Mao is in many places woefully inaccurate While agreeing that Mao had many faults and was responsible for some disastrous policies they conclude that a more balanced picture is needed
