From Africa to Illinois, The Search for Freedom and a Place to Call Home Raleigh L. Sutton, 2017-09-28 Most of the material you will hear at this time is not and was not taught in school Only in the last twenty years has much of this information has come to light by hard working researchers who like myself have spent thousands of hours digging out the facts from diverse sources The usual class room teachings acknowledge slavery only in a general way moving on to the Civil War dwelling only a moment on the Reconstruction's initial success and then its failure We then skip to World War Two forgetting eighty years worth of struggle during the great migrations north for work and finding more disappointment trying to improve their lives The story of Elgin's African American Community begins in West Africa then to the New World in the seventeenth century then to the fledgling United States of 1700's to the Northwest Territory of 1793 to Illinois to Kane County and at last to Elgin

The Search for Medieval Music in Africa and Germany, 1891-1961 Anna Maria Busse Berger, 2020-10-30 This innovative book reassesses the history of musicology unearthing the field's twentieth century German and global roots In the process Anna Maria Busse Berger exposes previously unseen historical relationships such as those between the modern rediscovery of medieval music the rise of communal singing and the ways in which African music intersected with missionary work in the German colonial period Ultimately Busse Berger offers a monumental new account of the early twentieth century music culture in Germany and East Africa The book unfolds in three parts Busse Berger starts with the origins of comparative musicology circa 1900 when early proponents used ideas from comparative linguistics to test whether parallels could be drawn between nonwestern and medieval European music She then turns to youth movements of the era the Wandervogel Jugendmusikbewegung and Singbewegung whose focus on joint music making influenced many musicologists Finally she considers case studies of Protestant and Catholic mission societies in what is now Tanzania where missionaries many of them musicologists and former youth group members extended the discipline via ethnographic research and a focus on local music and communities In highlighting these long overlooked transnational connections and the role of global music in early musicology Busse Berger shapes a fresh conception of music scholarship during a pivotal part of the twentieth century

The Revolution of Robert Kennedy John R. Bohrer, 2017-06-06 A groundbreaking account of how Robert F Kennedy transformed horror into hope between 1963 and 1966 with style and substance that has shaped American politics ever since On November 22nd 1963 Bobby Kennedy received a phone call that altered his life forever The president his brother had

been shot JFK would not survive In *The Revolution of Robert Kennedy* journalist John R Bohrer focuses in intimate and revealing detail on Bobby Kennedy s life during the three years following JFK s assassination Torn between mourning the past and plotting his future Bobby was placed in a sudden competition with his political enemy Lyndon Johnson for control of the Democratic Party No longer the president s closest advisor Bobby struggled to find his place within the Johnson administration eventually deciding to leave his Cabinet post to run for the U S Senate and establish an independent identity Those overlooked years of change from hardline Attorney General to champion of the common man helped him develop the themes of his eventual presidential campaign *The Revolution of Robert Kennedy* follows him on the journey from memorializing his brother s legacy to defining his own John R Bohrer s rich insightful portrait of Robert Kennedy is biography at its best inviting readers into the mind and heart of one of America s great leaders *Out of Eden: The Peopling of the World* Stephen Oppenheimer,2012-03-01 In a brilliant synthesis of genetic archaeological linguistic and climatic data Oppenheimer challenges current thinking with his claim that there was only one successful migration out of Africa In 1988 Newsweek headlined the startling discovery that everyone alive on the earth today can trace their maternal DNA back to one woman who lived in Africa 150 000 years ago It was thought that modern humans populated the world through a series of migratory waves from their African homeland Now an even more radical view has emerged that the members of just one group are the ancestors of all non Africans now alive and that this group crossed the mouth of the Red Sea a mere 85 000 years ago It means that not only is every person on the planet descended from one African Eve but every non African is related to a more recent Eve from that original migratory group This is a revolutionary new theory about our origins that is both scholarly and entertaining a remarkable account of the kinship of all humans Further details of the findings in this book are presented at www.bradshawfoundation.com/stephenoppenheimer *The West Stole Africa's Wealth* Khoza Mduduzi,2015-07-28 The West stolen Africa's wealth and invested it in the IMF World Bank and European Bank Through the colonization of Africa the West not only managed to impoverish the African continent but it managed to build its own world class infrastructure through ill gotten wealth from Africa Africa is the richest continent on the face of the world as far as mineral resources is concern but Africans are the poorest people on the face of the world Its an open secret that the majority of skyscrapers in the US were built by African slaves who were bought from Gore Island in Senegal at the cheapest price and transported to the US From the Dark Age until to the information age the African continent is the only continent where there is no perennial political peace Africans have been on the run from their civil wars for quite a long period of time to the point that some Africans have emigrated from the African continent to live in the West where they are not even welcomed and accepted African mineral resources are sufficient enough to the point that if they were equally and fairly utilized in the interest of the Africa people Africa was going to be a poverty free continent Unfortunately opposite is the case the African mineral resources continue to enrich the Westerners at the expense of the African people Africans are political free but

remain economically in prison which they can't see, smell, touch or feel. The West destabilizes the African continent by pouring military weapons to the African continent to ensure that bloodshed does not cease. *In Search of the Okapi. A Story of Adventure in Central Africa* Ernest Glanville, 2023-08-22. In *In Search of the Okapi. A Story of Adventure in Central Africa* Ernest Glanville invites readers into the lush enigmatic jungles of the Congo, blending vivid descriptions with an adventurous narrative that reflects both the thrill of exploration and the complexities of colonial encounters. The story unfolds through the eyes of a spirited protagonist as he embarks on a quest to discover the elusive okapi, intertwining natural history with the rich tapestry of African culture. Glanville's style is marked by an engaging prose that captures the exotic landscape and fauna while simultaneously addressing the ethical dilemmas of European exploration during the late 19th century. Ernest Glanville, a South African writer and journalist whose life was deeply influenced by his passion for nature and adventure, draws upon his own travels in Africa to inform this narrative. His experiences as a pioneer of early adventure writing reflect a keen awareness of both the beauty and the harsh realities of the continent, illustrating the tensions inherent in Western perceptions of Africa at the time. Glanville's affinity for storytelling is evident in his meticulous attention to setting and character development, rendering the African wilderness almost a character in its own right. This captivating tale is highly recommended to readers who possess a love for adventure and an interest in Africa's complex legacy. Glanville's work is not only an entertaining narrative but also a critical study of the intersection between nature and humanity, making it a must-read for enthusiasts of travel literature, historical narratives, and colonial exploration. In this enriched edition, we have carefully created added value for your reading experience. Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. Interactive footnotes clarify unusual references, historical allusions, and archaic phrases for an effortless, more informed read. *The World Looks Like This From Here* Kopano Ratele, 2019-09-01. Builds a compelling case for thinking and doing psychology differently in and for Africa. What does the world look like from Africa? What does it mean to think, feel, express without apology for being African? How does one teach society and children to be African with full consciousness and pride? In institutions of learning, what would a textbook on African-centred psychology look like? How do researchers and practitioners engage in African social psychology, African-centred child development, African neuropsychology, or any area of psychology that situates African realities at the centre? Questions such as these are what Kopano Ratele grapples with in this lyrical, philosophical and poetic treatise on practising African psychology in a decolonised world view. Employing a style common in philosophy but rarely used in psychology, the book offers thoughts about the ideas, contestation, urgency and desire around a psychological praxis in Africa for Africans. While setting out a framework for researching, teaching and practicing African psychology, the book in part coaxes, in part commands and in part urges students of psychology, lecturers, researchers and therapists to reconsider and reach beyond their received notions of African psychology. *Bulletin of the Atomic Scientists*, 1982-05. Human Rights Watch Arms Project Human Rights Watch/ Africa. Angola Between War and Peace Arms Trade and Human Rights Abuses Since the Lusaka Protocol , Chinese Investment in Africa David N. Abdulai,2016-11-03 China leads the world when it comes to investment and influence on the African continent The extent of Chinese investment in Africa is well known and much has been written about China's foray into Africa However most of the available material has approached this issue by looking at China as the New Colonialist more interested in Africa's vast natural resources than working in partnership for sustained development Whilst China's interest in Africa's resources is evident it is just half of the story China's foray into Africa goes beyond its appetite for natural resources and into the realm of geo politics and international political economics For example China is all too aware of how it can cultivate Africa's support on global issues at the United Nations and at other international fora Breaking free from the binary arguments and analysis which characterize this topic Professor Abdulai presents a refreshing perspective that China's foray into Africa can produce win win outcomes for China and Africa if Africans really know what they want from China Hitherto each African country has tended to engage China with an individual bucket list acting in isolation and not as part of a wider continent indeed Africa and the African Union does not yet have a coordinated policy towards China For Africa to be able to do that it needs to know where China is coming from the factors that contributed to its awakening and success and the benefits and possible pitfalls of this foray in order to better position itself for a win win engagement with China This book will be a valuable read for policy makers think tanks and students of Africa China studies programmes alike

Don't Look Behind You! Peter

Allison,2009-09-01 Incredible true tales from a world renowned safari guide and celebrated author Romantic notions aside being a safari guide isn't always particularly enjoyable or glamorous Quite often it is beset with challenges like having to spend a night in a thorn tree with marauding hyenas below But safari guide Peter Allison lives for such moments Here the author of the widely praised *Whatever You Do Don't Run* details his time spent in safari camps not only in Botswana but also in South Africa Mozambique and Namibia places he loves despite how much it feels like they might just be trying to kill him In *Don't Look Behind You* Allison recounts adventures few would live to tell Like the time he and a group of bored guides launched a makeshift raft into a foaming flooded river teeming with hippos and crocodiles Or the afternoon he heard monkeys telling him that a leopard was walking around the camp and then realized the leopard was in his tent with him in it In addition to relating his encounters with animals Allison shares the stories of those tourists who have long been pushing him toward early retirement Normally respectful of all his fellow creatures no matter how many feet they have Allison fantasizes about leaving one in particular behind on the Skeleton Coast a place that receives less than half an inch of rain a year and is patrolled by lions and hyenas Join Peter Allison for another riveting rollicking behind the scenes dose of everyone's dream experience going on safari and come through amazed but thankfully without a scratch

Narrating the Everyday: Windows on Life in Central South Africa Asta Rau, Magdalena Wojciechowska, Jan K. Coetzee,2019-01-01 The chapters in this book reflect on the practice of using narratives to understand individual and social reality They all reveal dimensions of the same concrete reality contemporary society of Central South Africa Except for two all the chapters originated from research in the program The Narrative Study of Lives situated in the Department of Sociology at the University of the Free State in Bloemfontein South Africa Each chapter opens a window on an aspect of everyday life in Central South Africa Each window displays the capacity of the narrative as a methodological tool in qualitative research to open up better understandings of everyday experience The chapters also reflect on the epistemological journey towards unwrapping and breaking open of meaning Narratives are one of many tools available to sociologists in their quest to understand and interpret meaning But when it comes to deep understanding narratives are particularly effective in opening up more intricate levels of meaning associated with emotions feelings and subjective experiences
