Looking At Venice:

Shakespeare's Pictures Keir Elam, 2017-09-21 Shakespeare's Pictures is the first full length study of visual objects in Shakespearean drama. In several plays Hamlet, The Merchant of Venice and Twelfth Night among others pictures are brought on stage in the form of portraits or other images as part of the dramatic action. Shakespeare's characters show exchange and describe them. The pictures arouse in their beholders strong feelings of desire, nostalgia or contempt and sometimes even taking the place of the people they depict. The pictures presented in Shakespeare's work are part of the language of the drama and they have a significant impact on theatrical performance from Shakespeare's time to our own. Keir Elam pays close attention to the iconographic and literary contexts of Shakespeare's pictures while also exploring their role in performance history. Highly illustrated with 46 images, this volume examines the conflicted cooperation between the visual and the verbal.

Don't Look Now Jessica Gildersleeve, 2017-10-31 Nicolas Roeg's Don't Look Now 1973 has been called a ghost story for adults. This book argues for it as a particular kind of horror film that depends on the narrative of trauma. Jessica Gildersleeve positions Don't Look Now within a discourse of midcentury anxiety narratives and identifies it as a hinge between literature and film of the 1970s.

Venice and the Cultural Imagination Michael O'Neill, Mark Sandy, Sarah Wootton, 2015-10-06. In the era of the Grand Tour Venice was the cultural jewel in the crown of Europe and the epitome of decadence. This edited collection of eleven essays draws on a range of disciplines and approaches to ask how Venice's appeal has affected Western culture since 1800.

After Orientalism, 2016-08-09. How does Edward Said's Orientalism speak to us today? What relevance did and does it have politically and intellectually? How and in what modes does Orientalism engage with new intersecting fields of inquiry? At the occasion of the twenty fifth anniversary of Orientalism these questions shape the essays collected in the present volume. The after of the title does not only guide the contributions in a look on past discussions but specifically points at future research as well. Orientalism's critical entanglements are thus connected to productive looks: these productive looks make us read differently but only after we recognize our struggle with the dominant notions that we live by that divide and unite us. More specifically this volume addresses three fields of research enabling productive looks: visual culture, the body, sexuality and the performative and national identities, modernity and gender. All articles weaving delicate new analytical and theoretical textures maintain vital links with at least two of the fields mentioned. Orientalism's role as a cultural catalyst is gauged in the analysis of materials such as Iranian film, 16th and 17th century Venetian representations of the Turk, Barthes take on Japanese culture, modern Arab travel narratives, Palestinian popular culture, photography on and of the Maghreb, Japanese queer and gay culture, the

Why Cities Look the Way They Do Richard J. Williams, 2019-08-08 We tend to think cities look the way they do because of the conscious work of architects planners and builders But what if the look of cities had less to do with design and more to do with social cultural financial and political processes and the way ordinary citizens interact with them What if the city is a process as much as a design Richard J Williams takes the moment construction is finished as a beginning tracing the myriad processes that produce the look of the contemporary global city This book is the story of dramatic but unforeseen urban sights how financial capital spawns empty towering skyscrapers and hollowed out ghettos how the zoning of once illicit sexual practices in marginal areas of the city results in the reinvention of culturally vibrant gay villages how abandoned factories have been repurposed as creative hubs in a precarious postindustrial economy It is also the story of how popular urban clich s and the fictional portrayal of cities powerfully shape the way we read and see the bricks concrete and glass that surround us Thought provoking and original Why Cities Look the Way They Do will appeal to anyone who wants to understand the contemporary city shedding new light on humanity s greatest collective invention

Urban Discourses of Crisis, Resilience, and Resistance Eric Prieto, Liam Lanigan, Anni Lappela, 2025-07-11 This volume seeks to address questions of urban crisis from an interdisciplinary perspective that foregrounds the particular roles that literature and the creative arts play in both conceptualizing and addressing the multiple challenges facing cities Noting that the

successive crises of recent years from the 2008 recession to COVID 19 seem to have put an end to the triumphalist tone of much urban writing in the 1990s this book argues that the current historical moment calls for a different kind of urban discourse focused on reassessment and regrouping This edited collection features a variety of different approaches including close readings of literary works interviews essays in cultural and architectural history and sociological ethnographic and urban planning studies These chapters explore a range of challenges currently faced by cities and foreground the search for solutions
