Looking Backward 2000 1887 Bantam Classic:

Looking Backward, 2000-1887 Edward Bellamy, Andrew Delbanco, 1983 Stimulating thought provoking utopian fantasy about a young man who is put into a hypnotic trance in the late 19th century and awakens in the year 2000 to find crime war and want non existent

The Individual and Utopia Clint Jones, Cameron Ellis, 2016-03-09 Central to the idea of a perfect society is the idea that communities must be strong and bound together with shared ideologies However while this may be true rarely are the individuals that comprise a community given primacy of place as central to a strong communal theory This volume moves away from the dominant current macro level theorising on the subject of identity and its relationship to and with globalising trends focusing instead on the individual's relationship with utopia so as to offer new interpretive approaches for engaging with and examining utopian individuality Interdisciplinary in scope and bringing together work from around the world *The Individual and Utopia* enquires after the nature of the utopian as citizen demonstrating the inherent value of making the individual central to utopian theorizing and highlighting the methodologies necessary for examining the utopian individual The various approaches employed reveal what it is to be an individual yoked by the idea of citizenship and challenge the ways that we have traditionally been taught to think of the individual as citizen As such it will appeal to scholars with interests in social theory philosophy literature cultural studies architecture and feminist thought whose work intersects with political thought utopian theorizing or the study of humanity or human nature

Backward, 2000 to 1887 Edward Bellamy, 2017-05-31 The object of this volume is to assist persons who while desiring to gain a more definite idea of the social contrasts between the nineteenth and twentieth centuries are daunted by the formal aspect of the histories which treat the subject Warned by a teacher's experience that learning is accounted a weariness to the flesh the author has sought to alleviate the instructive quality of the book by casting it in the form of a romantic narrative which he would be glad to fancy not wholly devoid of interest on its own account The reader to whom modern social institutions and their underlying principles are matters of course may at times find Dr Leete's explanations of them rather trite but it must be remembered that to Dr Leete's guest they were not matters of course and that this book is written for the express purpose of inducing the reader to forget for the nonce that they are so to him One word more The almost universal theme of the writers and orators who have celebrated this bimillennial epoch has been the future rather than the past not the advance that has been made but the progress that shall be made ever onward and upward till the race shall achieve its ineffable destiny

Counterculture Green Andrew G. Kirk, 2007-11-19 For those who eagerly awaited its periodic appearance it was more than a publication it was a way of life The Whole Earth Catalog billed itself as Access to Tools and it grew from a Bay Area blip to a national phenomenon catering to hippies do it yourselfers and anyone interested in self sufficiency independent of mainstream America In recovering the history of the Catalog's unique brand of environmentalism Andrew Kirk recounts how San Francisco's Stewart Brand and his counterculture cohorts in the Point Foundation promoted a philosophy of pragmatic environmentalism that celebrated technological achievement human ingenuity and sustainable living By piecing together the social cultural material environmental and technological history of that philosophy's incarnation in the Catalog Kirk reveals the driving forces behind it tells the story of the appropriate technology movement it espoused and assesses its fate This book takes a fresh look at the many individuals and organizations who worked in the 1950s 1960s and 1970s to construct this philosophy of pragmatic environmentalism At a time when many of these ideas were seen as heretical to a predominantly wilderness based movement Whole Earth became a critical forum for environmental alternatives and a model for how complicated ecological ideas could be presented in a hopeful and even humorous way It also enabled later environmental advocates like Al Gore to explain our current inconvenient truth and the actions of Brand's Point Foundation demonstrated that the epistemology of Whole Earth could be put into action in meaningful ways that might foster an environmental optimism distinctly different from the jeremiads that became the stock in trade of American environmentalism Kirk shows us that Whole Earth was more than a mere counterculture fad In an era of political protest it suggested that staying home and modifying your toilet or installing a solar collector could make a more significant contribution than taking to the streets to shout down establishment misdeeds Given its visible legacy in the current views of Al Gore and others the subtle environmental heresies of Whole Earth continue to resonate today which makes Kirk's lucid and lively tale an extremely timely one as well

Prose Fiction, Including Juveniles and Translations Brooklyn Public Library,1894 *Corporate Sovereignty* Joshua Barkan,2013-08-01 Refinery explosions Accounting scandals Bank meltdowns All of these catastrophes and many more might rightfully be blamed on corporations In response advocates have suggested reforms ranging from increased government regulation to corporate codes of conduct to stop corporate abuses Joshua Barkan writes that these reactions which view law as a limit on corporations misunderstand the role of law in fostering corporate power In *Corporate Sovereignty* Barkan argues that corporate power should be rethought as a mode of political sovereignty Rather than treating the economic power of corporations as a threat to the political sovereignty of states Barkan shows that the two are ontologically linked Situating analysis of U S British and international corporate law alongside careful readings in political and social theory he demonstrates that the Anglo American corporation and modern political sovereignty are founded in and bound together through a principle of legally sanctioned immunity from law The problems that corporate led globalization present for governments result not from regulatory failures as much as from corporate immunity that is being exported across the globe For Barkan there is a paradox in that corporations which are legal creations are given such power that they undermine the sovereignty of states He notes that while the relationship between states and corporations may appear adversarial it is in fact a kind of doubling in which state sovereignty and corporate power are both conjoined and in conflict Our refusal to grapple with the peculiar nature of this doubling means that some of our best efforts to control corporations unwittingly reinvest the sovereign powers they oppose **Catalog of Reprints in Series** ,1962 Catalogue of the Public School Library of the City of Adrian, Michigan Adrian (Mich.) Looking Backward from 2000 to 1887 - The Original Classic Edition ,2012-03-01 Looking Backward from 2000 to 1887 by Edward Bellamy The Original Classic Edition Finally available a high quality book of the original classic edition It was previously published by other bona fide publishers and is now after many years back in print This is a new and freshly published edition of this culturally important work which is now at last again available to you Enjoy this classic work today These selected paragraphs distill the contents and give you a quick look inside By way of attempting to give the reader some general impression of the way people lived together in those days and especially of the relations of the rich and poor to one another perhaps I cannot do better than to compare society as it then was to a prodigious coach which the masses of humanity were harnessed to and dragged toilsomely along a very hilly and sandy road In the first place it was firmly and

sincerely believed that there was no other way in which Society could get along except the many pulled at the rope and the few rode and not only this but that no very radical improvement even was possible either in the harness the coach the roadway or the distribution of the toil The other fact is yet more curious consisting in a singular hallucination which those on the top of the coach generally shared that they were not exactly like their brothers and sisters who pulled at the rope but of finer clay in some way belonging to a higher order of beings who might justly expect to be drawn The nervous tension of the public mind could not have been more strikingly illustrated than it was by the alarm resulting from the talk of a small band of men who called themselves anarchists and proposed to terrify the American people into adopting their ideas by threats of violence as if a mighty nation which had but just put down a rebellion of half its own numbers in order to maintain its political system were likely to adopt a new social system out of fear Your appearance is that of a young man of barely thirty and your bodily condition seems not greatly different from that of one just roused from a somewhat too long and profound sleep and yet this is the tenth day of September in the year 2000 and you have slept exactly one hundred and thirteen years three months and eleven days Looking Backward, 2000-1887 - Primary Source Edition Edward Bellamy, 2014-03 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book *Das Science Fiction Jahr 2021* Melanie Wylutzki, Hardy Kettlitz, 2021-09-25 Science Fiction und Klima Visionen Chancen und Dystopien Das Klima und sein Wandel besch ftigen uns in der Politik im Alltag aber auch in der Fiktion Gerade die Science Fiction hat die M glichkeit sich dem Thema auf innovative Art anzun hern und Zukunftsvisionen zu entwickeln Daher ist es nur naheliegend Das Science Fiction Jahr 2021 dem Thema Klima in der Science Fiction zu widmen und Autor innen wie Bettina Wurche Gary Westfahl oder Wenzel Mehnert zu Wort kommen zu lassen Weiterhin wird in Essays von Bernd Flessner Karlheinz Steinm ller Peter Kempin und Wolfgang Neuhaus der Vision r Philosoph und Autor Stanis aw Lem gew rdigt der in diesem Jahr seinen 100 Geburtstag gefeiert h tte ber die Buchreihe 2021 erscheint die 36 Ausgabe des von Wolfgang Jeschke 1986 ins Leben gerufenen Jahrbuchs ber die Science Fiction Dabei gew hrt das Jahrbuch einen umfangreichen blick ber die Entwicklungen des Genres in unterschiedlichen Medien wie Film Serien Gaming Comics und vor allem dem Buch Etwa 30 Autor innen steuern jedes Jahr Rezensionen Essays und anderweitige Beitr ge zu diesem Jahresr ckblick bei Abgerundet wird er mit einer Liste der Genre Preise Nachrufen sowie einer Bibliografie der B cher die jeweils im Vorjahr erstmals auf Deutsch erschienen sind Seit 2019 erscheint DAS SCIENCE FICTION JAHR im Hirnkost Verlag und wird von Melanie Wylutzki und Hardy Kettlitz herausgegeben *Looking Backward: from 2000 To 1887* Edward Bellamy, 2017-09-14 Looking Backward From 2000 to

1887 book has a beautiful glossy cover and a blank page for the dedication Living as we do in the closing year of the twentieth century enjoying the blessings of a social order at once so simple and logical that it seems but the triumph of common sense it is no doubt difficult for those whose studies have not been largely historical to realize that the present organization of society is in its completeness less than a century old No historical fact is however better established than that till nearly the end of the nineteenth century it was the general belief that the ancient industrial system with all its shocking social consequences was destined to last with possibly a little patching to the end of time How strange and wellnigh incredible does it seem that so prodigious a moral and material transformation as has taken place since then could have been accomplished in so brief an interval The readiness with which men accustom themselves as matters of course to improvements in their condition which when anticipated seemed to leave nothing more to be desired could not be more strikingly illustrated What reflection could be better calculated to moderate the enthusiasm of reformers who count for their reward on the lively gratitude of future ages Author
