similarities and differences between the practice of psychotherapy and spiritual direction and suggests that whilst there may be distinctions between the two activities the process is essentially the same The purpose of the book is to improve the understanding between therapists and spiritual directors to encourage dialogue and discussion between them as well as to offer challenges and learning to both In the process of exploring the interface between the practice of therapy and the practice of spiritual direction questions arise about how to address issues of spirituality in a psychological context and psychological issues in a spiritual context A brief overview of the historical background to spiritual direction is given and attention drawn to the links between this tradition and the development of psychotherapy Spiritual issues that may arise in therapy together with psychological issues that occur during spiritual direction are discussed leading on to a comparison between dark night of the soul experiences and clinical depression

**Spiritual Direction** Liz Hoare,2016-01-10 Spiritual direction is increasingly popular among Christians of all mainstream traditions with demand for directors outstripping supply in many places And although the Bible is central to the practice of spiritual direction very little has been published on how best to use it in this form of ministry Experienced spiritual director Liz Hoare explores the central role the Bible has played in Christian experience in order to discourage poor shallow or rigid use of the Bible which can lead to damage and inhibit spiritual growth According to Hoare the goal of spiritual direction is not a personal improvement plan but a people who are being shaped into the likeness of Christ for the flourishing of the church as a whole Using different methods of praying with the Bible and drawing on historical traditions of Christian spirituality as well as current literature and practice this book offers a rich stimulating and thoroughly biblical resource for all those who give and receive spiritual direction *Strengthening Spirit-Releasing Potential* Bernadette Miles,2021-02-09 Have you ever wondered what releasing spiritual potential in the workplace might do for your organization In today s climate of colossal and incredibly fast global change the world needs new ways to develop discerning leaders to consciously lead our community of life into the future Though there are many books on leadership they rarely engage the importance and relevance of spiritual development and spiritual accompaniment in organizational discernment and leadership development

Spiritual formation through spiritual direction has the potential to transform the way we lead organizations in secular and religious settings Drawing on the wisdom and experience of leaders and spiritual directors this book first broadens our understanding of how spiritual direction can be a resource for leadership and organizational development second supports spiritual directors in developing their corporate practice and their understanding of the relevance of spiritual direction for a wider community

**Taking the Exercises to the World** Ellen Tomaszewski, 2008-03 A handbook providing all information agendas talks charts schedules etc needed to present a quality group experience of the 19th Annotation of the Spiritual Exercises of St Ignatius

**How Then Shall We Guide?** Jimmy Boon-Chai Tan, 2023-05-25 There has been a marked increase of interest in the art of spiritual direction in recent decades Yet in many circles especially in ecumenical and interfaith contexts it is unclear what grounds the practice of this ancient art As a tradition s practice of spiritual direction expresses its particular theology which in turn is shaped by its unique history this work explains that ecumenical spiritual direction must make and retain the tri perspective of history theology and method that faithfully reflects each tradition s distinctives as requisite for true ecumenical enrichment The importance of this trinocular vision is brought into sharp focus through a comparative study of Ignatius of Loyola and John Calvin where points of continuity and discontinuity between the Ignatian and Reformed traditions underscore the importance of this work s thesis
