Let Me Count the Ways Peter De Vries, 2014-10-21 The sins of the father are hilariously visited on the son in this witty and profound novel about the meaning of it all. Stanley Waltz is a Polish American piano mover and pugnacious atheist married to a born-again believer. His heroes are H. L. Mencken and Clarence Darrow, and if he confuses illusion with allusion and thinks a certain style of egg is bedeviled, that does not mean his reasoning is any less sound. Unfortunately, his wife is immune to his intellect and insists not just on saving his soul but on taking their son Tom to the local gospel mission every chance she gets. It is enough to drive a man into the arms of a mistress, funny as a crutch and twice as perceptive, and that is exactly where Stan goes. This leaves Tom twice as mixed up as the average son. In the second section of this side-splitting and thought-provoking comedy, he is a professor of English at the local college, his questions about faith, doubt, and morality as unresolved as they are inescapable. As an undergraduate, he stumbled from girl to girl, breaking up with one because she was a nonbeliever, another because she was too pious. His marriage to a beautiful professor of comparative religion is no solution. In short order, he has an affair, breaks his leg, leads a funeral procession hopelessly astray, and suffers a nervous breakdown. Only a miracle can save him if he can figure out what one might look like. Stanley and Tom Waltz are a father-son duo unlike any other, and *Let Me Count the Ways* is Peter De Vries at his insightful, brilliant, lightning-witted best.

Engaging the Past Elizabeth George, 2024-02-14 Engaging the Past: Action and Interaction in the History Classroom provides practical steps toward using engaging strategies in the classroom to teach students to think historically. These strategies include an approach developed by the author called The You Decide Lecture and innovative ways to use board games and role-playing games in the history classroom. The goal is not simply to add window dressing to

fundamentally dull lessons but rather to re examine how teachers think about students as learners of history This book follows the growing trend within historical pedagogy to care less about content coverage and more about deep engagement student learning and the importance of historical thinking The students in our classrooms today are the history teachers of tomorrow and awakening them to the exciting complexities of the past is critical to keep the study of history thriving

Disciplinary and Dissent in Cultural Studies Cary Nelson, Dilip Gaonkar, 2013-10-28 First published in 1996 As recently as the early 1990s people wondered what was the future of cultural studies in the United States and what effects its increasing internationalization might have What type of projects would cultural studies inspire people to undertake Would established disciplines welcome its presence and adapt their practices accordingly *Disciplinary and Dissent in Cultural Studies* answers such questions It is now clear that while striking and innovative work is underway in many different fields most disciplinary organizations and structures have been very resistant to cultural studies Meanwhile cultural studies has been subjected to repeated attacks by conservative journalists and commentators in the public sphere Cultural studies scholars have responded not only by mounting focused critiques of the politics of knowledge but also by embracing ambitious projects of social political and cultural commentary by transgressing all the official boundaries of knowledge in a broad quest for cultural understanding This book tracks these debates and maps future strategies for cultural studies in academia and public life The contributors to *Disciplinary and Dissent in Cultural Studies* include established scholars and new voices In a series of polemic and exploratory essays written especially for this book they track the struggle with cultural studies in disciplines like anthropology literature and history and between cultural studies and very different domains like Native American culture and the culture of science Contributors include Arjun Appadurai Michael Denning Lawrence Grossberg Cary Nelson Constance Penley Andrew Ross and Lynn Spigel *Christian Advocate* ,1929
