Lorca The Poet And His People:

Lorca Arturo Barea, 1958 **Drama in the Modern World: Plays & Essays**, 1996 *A Generation of Spanish Poets 1920-1936* C. B. Morris, 1969-09 This critical study of the group of remarkably talented poets who flourished in Spain between the First World War and the Spanish Civil War includes copious quotations accompanied by English prose translations Mr Morris treats his poets as a group showing how they shared certain themes and attitudes He begins with a general study of the generation as a whole and then examines the use of tradition the zest and levity of the Jazz Age the exaltation of life as a shared attitude then its converse the escape from life and finally the expression in complex imagery of personal tensions and disturbances These are often difficult poets but become less so when they are sympathetically examined in this way and in relation to earlier literary traditions Mr Morris enables the reader to take bearings and establish relationships which are enhanced by reproductions of photographs of the poets **Symposium of the Whole** Jerome Rothenberg, Diane Rothenberg, 2016-04-19 Symposium of the Whole traces a discourse on poetry and culture that has profoundly influenced the art of our time with precedents going back two centuries and more Beginning with a reassertion of the complexity of poetry among peoples long labeled primitive and savage many recent poets have sought to base a new poetics over the fullest range of human cultures The attempt to define an ethnopoetics has been significantly connected with the most experimental and future directed side of Romantic and modern poetry both in the Western world and increasingly outside it As a visionary poetics and as a politics this complex redefinition of cultural and intellectual values has involved a rarely acknowledged collaboration between poets and scholars who together have challenged the narrow view of literature that has excluded so many traditions In this gathering the Rothenbergs follow the idea of an ethnopoetics from predecessors such as Vico Blake Thoreau and Tzara to more recent essays and manifestos by poets and social thinkers such as Olson Eliade Snyder Turner and Baraka The themes range widely from the divergence of oral and written cultures to the shaman as proto poet and the reemergence of suppressed and rejected forms and images the goddess the trickster and the human universe The book's three ethnographic sections demonstrate how various poetries are structured and composed how they reflect meaning and worldview and how they are performed in cultures where all art may be thought of as art in motion Among the poetries discussed are the language of magic West African drum language and poetry the Huichol Indian language of reversals chance operations in African divination poetry picture writings and action writings from Australia and Africa and American Indian sacred clown dramas and traditional trickster narratives The cumulative effect is a new reading of the poetic past and present in the editors words a changed paradigm of what poetry was or now could come to be
