Hegel and the Logical Structure of Love Toulia Nicolacopoulos,George Vassilacopoulos,2010 This study presents an

original interpretation of the meaning and complex inter relationship of the concepts of love sexuality family and the law It argues that they should be understood as forms of interplay between the subjective and the objective necessity and contingency and unity and difference A comprehensive elaboration of these forms is to be found in Hegel s Science of Logic the conclusions of which he used to organise his ethical and political thought The argument is introduced with a discussion of the relevance of Hegel s speculative philosophy to modernity The authors then explore the relationship between thought being and recognition in Hegel s philosophical system and offer an interpretation of the Science of Logic This interpretation forms the basis of a re assessment of Hegel s treatment of love sexual relationships the family and law A Hegelian account of familial love is employed to review recent debates within a range of discourses including feminism family law and gay and lesbian studies As well as addressing current concerns about sexual difference and the ontology of homosexuality the study provides a guide to reading Hegel in an original and productive way It will be of interest to philosophers feminists theorists of sexualities ethical and legal theorists

Aesthetic Experience George Hagman,2011-07 George Hagman looks anew at psychoanalytic ideas about art and beauty through the lens of current developmental psychology that recognizes the importance of attachment and affiliative motivational systems In dialogue with theorists such as Freud Ehrenzweig Kris Rank Winnicott Kohut and many others Hagman brings the psychoanalytic understanding of aesthetic experience into the 21st century He amends and extends old concepts and offers a wealth of stimulating new ideas regarding the creative process the ideal beauty ugliness and perhaps his most original contribution the sublime Especially welcome is his grounding of aesthetic experience in intersubjectivity and health rather than individualism and pathology His emphasis on form rather than the content of an individual s aesthetic experience is a stimulating new direction for psychoanalytic theory of art With this work Hagman stands in the company of his predecessors

Beginning with the stories of thirty women who came of age at the climax of the 70s women's movement many of whom
defined lesbianism as a form of resistance to dominant gender and sexual norms Stein explores the complex issues of identity
that these women confronted as they discovered who they were and defined themselves in relation to their communities and
to society at large *Sex and Sensibility* ends with interviews of ten younger women members of the post feminist generation
who have made it a fashion to dismiss lesbian feminism as overly idealistic and reductive Enmeshed in Stein's compelling and
personal narrative are coming out experiences questions of separatism work desire children and family Stein considers the
multiple identities of women of color and the experiences of intermittent and ex lesbians Was the lesbian feminist experiment
a success What has become of these ideas and the women who held them In answering these questions Stein illustrates the
lasting and profound effect that the lesbian feminist movement had and continues to have on contemporary women's
