Charleston: 1900-1915 Raymond K. Benton, Jr., 2015 This collection of turn of the century postcards represents Charleston 100 years ago Compared to the city residents and visitors know today the resemblance is remarkable however much has changed The property that once housed the Orphan House became a Sears Roebuck and later the growing College of Charleston The Mills House became the St John Hotel in the early 1900s but after falling into disrepair the building was sold in 1968 It was

replaced by a close replica of the original Mills House at the corner of Meeting and Queen Streets These are just a few examples of the transformation seen in the Holy City While much of Charleston has evolved with modern times more than enough of the past remains

A Spectacular Secret Jacqueline Goldsby, 2020-09-15 This incisive study takes on one of the grimmest secrets in America's national life the history of lynching and more generally the public punishment of African Americans Jacqueline Goldsby shows that lynching cannot be explained away as a phenomenon peculiar to the South or as the perverse culmination of racist politics Rather lynching a highly visible form of social violence that has historically been shrouded in secrecy was in fact a fundamental part of the national consciousness whose cultural logic played a pivotal role in the making of American modernity To pursue this argument Goldsby traces lynching's history by taking up select mob murders and studying them together with key literary works She focuses on three prominent authors Ida B Wells Barnett Stephen Crane and James Weldon Johnson and shows how their own encounters with lynching influenced their analyses of it She also examines a recently assembled archive of evidence lynching photographs to show how photography structured the nation's perception of lynching violence before World War I Finally Goldsby considers the way lynching persisted into the twentieth century discussing the lynching of Emmett Till in 1955 and the ballad elegies of Gwendolyn Brooks to which his murder gave rise An empathic and perceptive work *A Spectacular Secret* will make an important contribution to the study of American history and literature

Postcard America Jeffrey L. Meikle, 2016-01-20 From the Great Depression through the early postwar years any postcard sent in America was more than likely a linen card Colorized in vivid often exaggerated hues and printed on card stock embossed with a linen like texture linen postcards celebrated the American scene with views of majestic landscapes modern cityscapes roadside attractions and other notable features These colorful images portrayed the United States as shimmering with promise quite unlike the black and white worlds of documentary photography or Life magazine Linen postcards were enormously popular with close to a billion printed and sold *Postcard America* offers the first comprehensive study of these cards and their cultural significance Drawing on the production files of Curt Teich Co of Chicago the originator of linen postcards Jeffrey L Meikle reveals how photographic views were transformed into colorized postcard images often by means of manipulation adding and deleting details or collaging bits and pieces from several photos He presents two extensive portfolios of postcards landscapes and cityscapes that comprise a representative iconography of linen postcard views For each image Meikle explains the postcard's subject describes aspects of its production and places it in social and cultural contexts In the concluding chapter he shifts from historical interpretation to a contemporary viewpoint considering nostalgia as a motive for collectors and others who are fascinated today by these striking images
