Islands' Spirit Rising Louise Takeda, 2014-12-10 The islands of Haida Gwaii contain some of the last remaining tracts of intact coastal temperate rainforest in the world Aggressive logging over the past century however has threatened not only the unique biodiversity and habitat values but also the cultural values of the Haida people who have relied on these forests for millennia Islands Spirit Rising examines the long term conflict over the islands ancient forests and recent events that unfolded in the context of collaborative land use planning In response to threats posed by a century of logging a local indigenous environmental community movement built enough momentum to challenge the multinational forest industry and the political structures enabling it This book traces the evolution of this dynamic force from the early days of Haida resistance to the modern context of alliances legal battles and evolving forms of governance

Campbell,2020-12-17 As Earth s faster than light spaceship hung in the void between galaxies Arcot Wade Morey and Fuller could see below them like a vast shining horizon the mass of stars that formed their own island universe Morey worked a moment with his slide rule then said We made good time Twenty nine light years in ten seconds Yet you had it on at only half power Arcot pushed the control lever all the way to full power The ship filled with the strain of flowing energy and sparks snapped in the air of the control room as they raced at an inconceivable speed through the darkness of intergalactic space But suddenly far off to their left and far to their right they saw two shining ships paralleling their course They held grimly to the course of the Earth ship bracketing it like an official guard The Earth scientists stared at them in wonder Lord muttered Morey where can they have come from
