**Mysterious Motions and Other Intriguing Phenomena in Physics** G. Ranganath, 2002 This book dwells upon intriguing examples and situations that are not generally analysed or discussed in standard textbook and formal courses in physics In this book a majority of the examples are from classical physics which forms an essential part of our education Each of the six chapters covers a major area of physics and is subdivided into sections each of which has a running theme *Wings Of Fire - Abridged (Student Edition)* Arun Tiwari With, *The Indian National Bibliography*, 2002

**Time, Space, and Number in Physics and Psychology (Psychology Revivals)** William R. Uttal, 2014-10-14 The crux of the debate between proponents of behavioral psychology and cognitive psychology focuses on the issue of accessibility Cognitivists believe that mental mechanisms and processes are accessible and that their inner workings can be inferred from experimental observations of behavior Behaviorists on the contrary believe that mental processes and mechanisms are inaccessible and that nothing important about them can be inferred from even the most cleverly designed empirical studies One argument that is repeatedly raised by cognitivists is that even though mental processes are not directly accessible this should not be a barrier to unravelling the nature of the inner mental processes and mechanisms Inference works for other sciences such as physics so why not psychology If physics can work so successfully with their kind of inaccessibility to make enormous theoretical progress then why not psychology As with most previous psychological debates there is no killer argument that can provide an unambiguous resolution In its absence author William Uttal explores the differing properties of physical and psychological time space and mathematics before coming to the conclusion that there are major discrepancies between the properties of the respective subject matters that make the analogy of comparable inaccessibilities a false one This title was first published in 2008 *Indian National Bibliography* B. S. Kesavan, 2002-02
