misunderstood remembering the stateless nation as well as the nation state Minority communities from heretics and lepers to Jews Romanies and Muslims have not been forgotten This masterly history reveals not only the rich variety of Europe s past but also the many and rewarding prisms through which it can be viewed Each chapter contains a selection of telephoto capsules illustrating narrower themes and topics that cut across the chronological flow Davies then concludes with a wide angle snapshot of the whole continent as seen from one particular vantage point The overall effect is stunning a kind of historical picture album with panoramic tableaux interspersed by detailed insets and close ups Never before has such an ambitious history of Europe been attempted In range and ambition the originality of its structure and glittering style Norman Davies s Europe represents one of the most important and illuminating history books to be published by Oxford Time Capsules 201 fascinating articles interspersed throughout the narrative focus on incidents or topics as various as The Iceman of the Alps Erotic Graffiti at Pompeii Stradivarius and Psychoanalysing Hitler Each capsule can be tasted as a separate self contained morsel or can be read in conjunction with the narrative into which it is inserted Snapshots 12 panoramic overviews across the changing map of Europe freeze the frames of the chronological narrative at moments of symbolic importance such as Knossos 1628 BC Constantinople AD 330 and Nuremberg 1945 A fully illustrated history Incorporates over 100 superbly detailed maps and diagrams and 32 pages of black and white plates *The Age of Napoleon* Susan P. Conner, 2004-03-30 Hegel called him an idea on horseback a description that suggests Napoleon Bonaparte s complexity as well as the extent to which he changed France Europe and the world Napoleon has been called a visionary a pragmatist a cynical opportunist an ogre and a demigod Here he is described in his own words and the words of his contemporaries from his clannishness to his knack for being at the right place at the right time and from his genius to his obsession with detail Napoleon brought order out of the chaos of the French Revolution pressed for revolutionary equality of opportunity and planned a European union In the process he knew peace for only 14 months of his 15 year reign marched his armies from Lisbon to Moscow and caused the deaths of millions In this resource a detailed timeline maps illustrations biographical sketches and primary documents help students get a feel for the brief but enduring Age of Napoleon *The Routledge Companion to European History Since 1763* Chris Cook, John Stevenson, 2005 The Routledge Companion to European History since 1763 is a compact and highly accessible work of reference with a fully comprehensive glossary a biographical section a thorough bibliography and informative maps *Themes in Modern European History 1780-1830* Pamela Pilbeam, 2012-08-21 Themes in Modern European History 1780 1830 is an authoritative and lively exploration of a period dominated by events which have shaped modern Europe In a series of articles six leading academics present some controversial conclusions the east west contrast in Europe today has more to do with responses to the French Revolution of 1789 than the Russian Revolution of 1917 the conservative Europe of 1814 was the product of the Romantic imagination not a Restoration of the old regime Spanning political social economic and demographic facets of revolutions this is an indispensable textbook for all students of the

nineteenth century and for all those interested in understanding the nature of Europe today **The Origins of Major War**
Dale C. Copeland, 2013-02-15 One of the most important questions of human existence is what drives nations to war especially massive system threatening war Much military history focuses on the who when and where of war In this riveting book Dale C Copeland brings attention to bear on why governments make decisions that lead to sustain and intensify conflicts Copeland presents detailed historical narratives of several twentieth century cases including World War I World War II and the Cold War He highlights instigating factors that transcend individual personalities styles of government geography and historical context to reveal remarkable consistency across several major wars usually considered dissimilar The result is a series of challenges to established interpretive positions and provocative new readings of the causes of conflict Classical realists and neorealists claim that dominant powers initiate war Hegemonic stability realists believe that wars are most often started by rising states Copeland offers an approach stronger in explanatory power and predictive capacity than these three brands of realism he examines not only the power resources but the shifting power differentials of states He specifies more precisely the conditions under which state decline leads to conflict drawing empirical support from the critical cases of the twentieth century as well as major wars spanning from ancient Greece to the Napoleonic Wars

The Longman Companion to European Nationalism 1789-1920 Raymond Pearson, 2014-09-25 A highly topical analysis of European Nationalism from the French Revolution through to the aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were already fully established Covering an enormous range of peoples from the Icelanders to the Gypsies from Brittany to Wallachia the book presents a wealth of historical geopolitical information unavailable elsewhere Essential as a reference work it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context For historians political scientists departments of European studies and general readers Napoleon and Wellington Andrew Roberts, 2001 Explores the relationship between the French emperor Napoleon Bonaparte and the Duke of Wellington prior to and in the aftermath of the Battle of Waterloo the most decisive battle of the nineteenth century
