Nonkilling Global Political Science:

Nonkilling Global Political Science Glenn D. Paige, 2009 This book is offered for consideration and critical reflection primarily by political science scholars throughout the world from beginning students to professors emeriti Neither age nor erudition seems to make much difference in the prevailing assumption that killing is an inescapable part of the human condition that must be accepted in political theory and practice It is hoped that readers will join in questioning this assumption and will contribute further stepping stones of thought and action toward a nonkilling global future *Global Nonkilling Leadership Forum Book of Proceedings* Glenn D. Carayannis,Vasilii Erokhin,2025-09-26 The 21st century is witnessing an unprecedented convergence of transformative technologies that promise to reshape global energy systems governance and societal well being Among these Public Interest Technology PIT Artificial Intelligence AI and Fusion Energy stand out as critical domains with the potential to drive sustainable development economic growth and equitable progress This book explores the concepts of PIT AI and Fusion in ten chapters It begins by tracing the evolution of PIT emphasizing its role in addressing global challenges through socio technical frameworks Key themes include the ethical and practical challenges of PIT such as data privacy algorithmic bias and funding barriers as well as its potential to drive equitable solutions The importance of stakeholder inclusion particularly from the Global South and frameworks to manage uncertainties in technology investments are highlighted Case studies illustrate successful PIT implementations such as AI driven sustainability projects and fusion energy initiatives while underscoring the need for interdisciplinary collaboration and adaptive governance The later chapters focus on fusion energy as a PIT advocating for open science international cooperation and flexible investment strategies to overcome technical and financial hurdles In these chapters ideas that fusion

energy if developed inclusively could revolutionize global energy systems and combat climate change are discussed and governance models such as international commissions and public private partnerships to ensure equitable access and ethical development are proposed Similarly discussions on AI stress its dual potential to either exacerbate inequality or democratize opportunities depending on policy and implementation [Toward a Nonkilling Paradigm](#) Joám Evans Pim,2009 The present volume brings together 24 authors and 14 disciplines including anthropology arts biology economics engineering geography health sciences history linguistics mathematics philosophy physics psychology and sociology to seriously consider the prospects for the realization of nonkilling societies and to challenge each discipline s role in the necessary social and scientific transformation toward a killing free world Pub [The Indian Journal of Political Science](#) ,2002 **Academic Writing, Real World Topics - Concise Edition** Michael Rectenwald,Lisa Carl,2016-07-20 Academic Writing Real World Topics fills a void in the writing across the curriculum textbook market It draws together articles and essays of actual academic prose as opposed to journalism it arranges material by topic instead of by discipline or academic division and it approaches topics from multiple disciplinary and critical perspectives With extensive introductions rhetorical instruction and suggested additional resources accompanying each chapter Academic Writing Real World Topics introduces students to the kinds of research and writing that they will be expected to undertake throughout their college careers and beyond This concise edition provides all the features of the complete edition in a more compact and affordable format Key Features Contemporary cutting edge readings on relevant topics Extensive cross referencing between the rhetoric and the reader to help students make connections Full length essays rather than excerpts Chapter introductions that put readings in context and promote interdisciplinary connections Sample student essays to demonstrate student contribution As You Read guides to each chapter that encourage readers to locate points of contact among readings Questions after each reading that enable comprehension help students identify rhetorical moves and prompt oral and written response [Global Governance and International Cooperation](#) Richard Falk, Augusto Lopez-Claros,2024-03-07 The Global Governance Forum and the Global Challenges Foundation collaborate in this collection in their concern that the UN Charter and the contemporary infrastructure for international cooperation are no longer fit for purpose and lack the instruments resources and legitimacy to address the catastrophic risks threatening our future Twenty eight contributors offer thoughtful proposals for reforming existing international institutions and creating new ones to build a more peaceful prosperous and just world covering themes such as the management of weapons of mass destruction collective security arrangements justice and equity in economics human rights migration and refugees climate mitigation and food security all bearing on the health of both people and planet The vital project of this century is building institutions that will underpin global governance in coming decades requiring imagination persistence empathy and confidence that we will find a path to enhanced mechanisms of binding international law and the resources to make that happen The volume is essential reading for scholars and researchers on international

politics and public policy and indispensable for diplomats and government agencies
