Planet of the Blind Stephen Kuusisto, 2013-08-07 The world is a surreal pageant writes Stephen Kuusisto Ahead of me the shapes and colors suggest the sails of Tristan's ship or an elephant's ear floating in air though in reality it is a middle aged man in a London Fog rain coat which billows behind him in the April wind So begins Kuusisto's memoir *Planet of the Blind* a journey through the kaleidoscope geography of the partially sighted where everyday encounters become revelations struggles or simple triumphs Not fully blind not fully sighted the author lives in what he describes as the customs house of the blind a midway point between vision and blindness that makes possible his unique perception of the world In this singular memoir Kuusisto charts the years of a childhood spent behind bottle lens glasses trying to pass as a normal boy the depression that brought him from obesity to anorexia the struggle through high school college first love and sex Ridiculed by his classmates his parents in denial here is the story of a man caught in a perilous world with no one to trust until a devastating accident forces him to accept his own disability and place his confidence in the one relationship that can reconnect him to the world the relationship with his guide dog a golden Labrador retriever named Corky With Corky at his side Kuusisto is again awakened to his abilities his voice as a writer and his own particular place in the world around him Written with all the emotional precision of poetry Kuusisto's evocative memoir explores the painful irony of a visually sensitive individual in love with reading painting and the everyday images of the natural world faced with his gradual descent into blindness Folded into his own experience is the rich folklore the phenomenon of blindness has inspired throughout history and legend

Disability and the Environment in American Literature Matthew J. C. Cella, 2016-10-12 This book includes a collection of essays that explore the relationship between Disability Studies and literary ecocriticism particularly as this relationship plays out in American literature and culture The contributors to this collection operate from the premise that there is much to be gained for both fields by putting them in conversation and they do so in a variety of ways In this manner the collection contributes to what Joni Adamson and Scott Slovic have referred to as a third wave of ecocriticism Adamson and Slovic attribute the rise of this third wave to the richly diverse contributions to ecocriticism over the past decade by scholars intent on including postmodernism ecofeminism transnationalism globalization and postcolonialism into ecocritical discussions The essays in *Toward an Ecosomatic Paradigm* extend this approach of this third wave by analyzing disability from an environmental point of view while simultaneously examining the environmental imagination from a disability studies perspective More specifically the goal of the collection is to investigate the role that literary narratives play in fostering the ecosomatic paradigm As a theoretical framework the ecosomatic paradigm underscores the dynamic and inter relational process wherein human mind bodies interact with the places both built and wild they inhabit That is the ecosomatic paradigm proceeds from the assumption that nature and culture are meshed in an ongoing and deep relationship that has implications for both the human subject and the natural world An ecosomatic approach highlights the profound overlap between embodiment and emplacement and is therefore enriched by both disability studies and ecocritical insight By drawing on points of confluence between disability studies and ecological criticism the various ecosomatic readings in this collection challenge normative even ableist constructions of the body environment dyad by complicating and expanding our understanding of this relationship as it is represented in American literature and culture Collectively the essays in this book augment the American environmental imagination by highlighting the relationship between disability and the environment as
