expressed are not original They derive from the accumulated knowledge received by humanity from the Love of God and which is freely available to all in many forms I have drawn from the sacred literature of the three major revealed religions Judaism Christianity and Islam but significantly I have drawn freely from the work In the Light of Truth the Grail Message by Abd ru shin I also acknowledge the influence of all other works that lead to the One true God and the many thoughts and words of fellow human beings who have travelled the same path whether these were never expressed or were eloquently expressed in writing or verbally Since the work is so intimately associated with the guidance we have received from our God I have not always paraphrased or referred to the specific source This is most marked with the Grail Message the reading of which has influenced and changed my life completely It may suffice to say that in its comprehensiveness the Grail Message moves through the whole of this work I have also not always quoted specific references from the Bible but as the title suggests the New Testament especially is a primary source In spite of this or perhaps because of it it must be emphasized that the contents of this book is limited by and within my understanding The Truth stands above everything and knowledge about our Creator is infinitely profound No single human being can claim full understanding or even enough understanding to lead others unless he is especially called to that mission I therefore offer this only as an encouragement to others to seek more diligently to look more closely at our heritage as Christians and as human beings and to remain open to the work of the Spirit of Truth

The Parables of Jesus J. Dwight Pentecost, 1998-08-01 Dr Pentecost describes the setting of each parable explains the problem or question it addresses and offers Christ's solution to that issue
