

PRAYER FOR RAIN

I pray for an overflow
that will take away the
heat and cool the
parched earth. I pray
for rains to fall and grow
food for people and
their livestock. Lord, we
ask all these in Jesus'
Name, Amen.

Praying for Rain José-Antonio Espín-Sánchez,2023 We study the climate as a determinant of religious belief People believe in the divine when religious authorities the church can credibly intervene in nature on their behalf We present a model in which nature sets the pattern of rainfall over time and the church chooses when optimally to pray in order to persuade people that it has caused the rain We present evidence from prayers for rain in Murcia Spain that the church follows such an optimal policy and that its prayers therefore predict rainfall In our model praying for rain can only persuade people to believe if the hazard of rainfall during a dry spell is increasing over time so that the probability of rainfall is highest when people most want rain We test this prediction in an original data set of whether ethnic groups around the world traditionally prayed for rain We find that prayer for rain is more likely among ethnic groups dependent on intensive agriculture for subsistence and that ethnic groups facing an increasing rainfall hazard are 53% more likely to pray for rain consistent with our model We interpret these findings as evidence for the instrumentality of religious
