**Robert Grosseteste and the 13th-Century Diocese of Lincoln** Philippa Hoskin, 2019-01-07 In this book Philippa Hoskin offers an account of the pastoral theory and practice of Robert Grosseteste bishop of Lincoln 1235-1253 within his diocese. Grosseteste has been considered as an eminent medieval philosopher and theologian and as a bishop focused on pastoral care but there has been no attempt to consider how his scholarship influenced his pastoral practice. Making use of Grosseteste's own writings philosophical and theological as well as pastoral and administrative Hoskin demonstrates how Grosseteste's famous interventions in his diocese grew from his own theory of personal obligation in pastoral care as well as how his personal involvement in his diocese could threaten well-developed clerical and lay networks. *A History of Preaching Volume 1* Rev. O.C. Edwards JR., 2016-04-25 *A History of Preaching* brings together narrative history and primary sources to provide the most comprehensive guide available to the story of the church's ministry of proclamation. Bringing together an impressive array of familiar and lesser-known figures, Edwards paints a detailed compelling picture of what it has meant to preach the gospel. Pastors, scholars, and students of homiletics will find here many opportunities to enrich their understanding and practice of preaching. Volume 1 contains Edwards's magisterial retelling of the story of Christian preaching's development from its Hellenistic and Jewish roots in the New Testament through the late twentieth century's discontent with outdated forms and emphasis on new modes of preaching such as narrative. Along the way, the author introduces us to the complexities and contributions of preachers both with whom we are already acquainted and to whom we will be introduced here for the first time: Origen, Chrysostom, Augustine, Bernard, Aquinas, Luther, Calvin, Wesley, Edwards, Rauschenbusch, Barth. All of their distinctive contributions receive careful attention. Yet lesser-known figures and developments also appear from the ninth-century reform of preaching championed by Hrabanus Maurus to the reference books developed in the thirteenth and fourteenth centuries by the mendicant orders to assist their members preaching to Howell Harris and Daniel Rowlands, preachers of the eighteenth-century Welsh revival to Helen Kenyon speaking as a layperson at the 1950 Yale Beecher lectures about the view of preaching from the pew. Volume 2, available separately as 9781501833786, contains primary source material on preaching drawn from the entire scope of the church's twenty centuries. The author has written an introduction to each selection, placing it in its historical context and pointing to its particular contribution. Each chapter in Volume 2 is geared to its companion chapter in Volume 1's narrative history. Ecumenical in scope, fair-minded in presentation, appreciative of the contributions that all the branches of the church have made to the story of what it means to develop, deliver, and listen to a sermon, *A History of Preaching* will be the definitive resource for anyone who wishes to preach or to understand preaching's role in living out the gospel. This work is expected to be the standard text on preaching for the next 30 years, says Ann K. Riggs, who staffs the NCC's Faith and Order Commission. Author Edwards, former professor of preaching at Seabury Western Theological Seminary, is co-moderator of the commission, which studies

church uniting and church dividing issues A History of Preaching is ecumenical in scope and will be relevant in all our churches we all participate in this field says Riggs from EcuLink Number 65 Winter 2004 2005 published by the National Council of Churches     Ancrene Wisse Cate Gunn,2008 An introduction to Ancrene Wisse one of the most important works in English of the 13th century It offers a new contextualisation which engages with the history of lay piety and vernacular spirituality in the Middle Ages     Vulgar Tongue Fiona Somerset,Nicholas Watson,2010-11-01     **A Companion to Medieval Miracle Collections** ,2021-09-06 Miracle accounts provide a window into the views and conceptions of the laity the uneducated women and even children whose voices are mostly missing from other types of sources They are not however simple to use This volume offers a methodological insight into the medieval world of the miraculous Consisting of 15 cutting edge articles by leading scholars in the field it provides versatile approaches to the origins methods and recording techniques of various types of miracle narratives It offers fascinating case studies from across Europe which show how miracle accounts can be used as a source for various topics such as lived religion healing protection and family and gender Contributors are Nicole Archambeau Leigh Ann Craig Ildik Csepregi Jussi Hanska Emilia Jamroziak Sari Katajala Peltomaa Jenni Kuuliala Iona McCleery Jyrki Nissi Roberto Paciocco Donald S Prudlo Marika R s nen Jonas Van Mulder and Louise Elizabeth Wilson     *The Medieval Church* Joseph Lynch,2013-12-16 The Church was the central institution of the European Middle Ages and the foundation of medieval life Professor Lynch s admirable survey concentrating on the western church and emphasising ideas and trends over personalities meets a long felt need for a single volume comprehensive history designed for students and non specialists     *Polemic* Almut Suerbaum,George Southcombe,2016-03-03 If terms are associated with particular historical periods then polemic is firmly rooted within early modern print culture the apparently inevitable result of religious controversy and the rise of print media Taking a broad European approach this collection brings together specialists on medieval as well as early modern culture in order to challenge stubborn assumptions that medieval culture was homogenous and characterized by consensus and that literary discourse is by nature eirenic Instead the volume shows more clearly the continuities and discontinuities especially how medieval discourse on the sins of the tongue continued into early modern discussion how popular and influential medieval genres such as sermons and hagiography dealt with potentially heterodox positions and the role of literary especially fictional debate in developing modes of articulating discord as well as demonstrating polemic in action in political and ecclesiastical debate Within this historical context the position of early modern debates as part of a more general culture of articulating discord becomes more clearly visible The structure of the volume moves from an internal textual focus where the nature of polemic can be debated through a middle section where these concerns are also played out in social practice to a more historical group investigating applied polemic In this way a more nuanced view is provided of the meaning role and effect of polemic both broadly across time and space and more narrowly within specific circumstances     Medieval Monastic Preaching Carolyn Muessig,1998 This book demonstrates that

monastic preaching was a diverse activity which included preaching by monks nuns and heretics The study offers a preliminary step in understanding how preaching shaped monastic identity in the Middle Ages Intellectual Culture in Medieval Paris Ian P. Wei,2012-05-03 In the thirteenth century the University of Paris emerged as a complex community with a distinctive role in society This book explores the relationship between contexts of learning and the ways of knowing developed within them focusing on twelfth century schools and monasteries as well as the university By investigating their views on money marriage and sex Ian Wei reveals the complexity of what theologians had to say about the world around them He analyses the theologians sense of responsibility to the rest of society and the means by which they tried to communicate and assert their authority In the late thirteenth and early fourteenth centuries however their claims to authority were challenged by learned and intellectually sophisticated women and men who were active outside as well as inside the university and who used the vernacular an important phenomenon in the development of the intellectual culture of medieval Europe Ars antiqua EdwardH. Roesner,2017-07-05 The ars antiqua began to be mentioned in writings about music in the early decades of the fourteenth century where it was cited along with references to a more modern art an ars nova It was understood by those who coined the notion to be rooted in the musical practices outlined in the Ars musica of Lambertus and especially the Ars cantus mensurabilis of Franco of Cologne Directly or indirectly the essays collected in this volume all address one or more of the issues regarding ars antiqua polyphony questions relating to the nature and definition of genre the evolution of the polyphonic idiom the workings of the creative process including the role of oral process and notation and the continuum between these extremes questions about how this music was used and understood and of how it fits into the intellectual life of the twelfth and thirteenth centuries Some of the essays ask new questions or approach long standing ones from fresh perspectives All however are rooted in a line of scholarship that produced a body of writing of continuing relevance **Frater Petrus, Collationes de tempore (Fourteenth Century)** Daniel Nodds,2021-09-06 The sermons here published for the first time are attributed to an otherwise unknown friar referred to simply as Frater Petrus The collection provides evidence of actual preaching in a normal setting from fourteenth century Germany between the beginnings of the Franciscan order and the Observant reform movement not by a major light of the order but a regular member who may have held status as an intermediate level teacher to judge by the care with which the manuscripts were prepared Theologically competent and gracefully presented in the conventional sermon style of the period the collection edited and translated by Daniel Nodds offers scholars and students a reliable new resource in an area of sermon studies that is still in short supply Crusading and Masculinities Natasha R. Hodgson,Katherine J. Lewis,Matthew M. Mesley,2019-03-05 This volume presents the first substantial exploration of crusading and masculinity focusing on the varied ways in which the symbiotic relationship between the two was made manifest in a range of medieval settings and sources and to what ends Ideas about masculinity formed an inherent part of the mindset of societies in which crusading happened and of

the conceptual framework informing both those who recorded the events and those who participated Examination and interrogation of these ideas enables a better contextualised analysis of how those events were experienced comprehended and portrayed The collection is structured around five themes sources and models contrasting masculinities emasculation and transgression masculinity and religiosity and kingship and chivalry By incorporating masculinity within their analysis of the crusades and of crusaders the contributors demonstrate how such approaches greatly enhance our understanding of crusading as an ideal an institution and an experience Individual essays consider western campaigns to the Middle East and Islamic responses events and sources from the Iberian peninsula and Prussia are also interrogated and re examined thus enabling cross cultural comparison of the meanings attached to medieval manhood The collection also highlights the value of employing gender as a vital means of assessing relationships between different groups of men whose values and standards of behaviour were socially and culturally constructed in distinct ways     The Preaching of the Third Crusade (1187-1192)

Alexander Marx,2024-12-23 This book delivers the first substantial study of the preaching of the Third Crusade 1187 92 It assembles c 200 sermon texts and c 100 manuscripts to understand the explosive dynamic of mobilization in the Latin West Dealing with the essential fact that a genre called crusade sermon did not exist it develops methodological devices for identifying sermons relevant for the crusading purpose The book contests thus the modern historiography which has placed too much trust in the few chronicle reports However its fruitful blending of crusading preaching exegesis manuscript studies and intellectual history has much to offer beyond crusade studies     *Florence and Its Church in the Age of Dante* George W.

Dameron,2013-05-27 By the early fourteenth century the city of Florence had emerged as an economic power in Tuscany surpassing even Siena which had previously been the banking center of the region In the space of fifty years during the lifetime of Dante Alighieri 1265 1321 Florence had transformed itself from a political and economic backwater scarcely keeping pace with its Tuscan neighbors to one of the richest and most influential places on the continent While many historians have focused on the role of the city s bankers and merchants in achieving these rapid transformations in Florence and Its Church in the Age of Dante George W Dameron emphasizes the place of ecclesiastical institutions communities and religious traditions While by no means the only factors to explain Florentine ascension no account of this period is complete without considering the contributions of the institutional church In Florence economic realities and spiritual yearnings intersected in mysterious ways A busy grain market on a site where a church once stood for instance remained a sacred place where many gathered to sing and pray before a painted image of the Virgin Mary as well as to conduct business At the same time religious communities contributed directly to the economic development of the diocese in the areas of food production fiscal affairs and urban development while they also provided institutional leadership and spiritual guidance during a time of profound uncertainty Addressing such issues as systems of patronage and jurisdictional rights Dameron portrays the working of the rural and urban church in all of its complexity *Florence and Its Church in the Age of Dante* fills a

major gap in scholarship and will be of particular interest to medievalists church historians and Italianists

**The Jewish-Christian Encounter in Medieval Preaching** Jonathan Adams, Jussi Hanska, 2014-10-03 This book explores the complexity of preaching as a phenomenon in the medieval Jewish Christian encounter This was not only an encounter as physical meeting or confrontation such as the forced attendance of Jews at Christian sermons that took place across Europe but also an imaginary or theological encounter in which Jews remained a figure from a distant constructed time and place who served only to underline and verify Christian teachings Contributors also explore the Jewish response to Christian anti Jewish preaching in their own preaching and religious instruction

**Cistercians, Heresy, and Crusade in Occitania, 1145-1229** Beverly Mayne Kienzle, 2001 The present book examines this important but little studied aspect of Cistercian history to probe how and why the Order undertook endeavours that drew the monks outside their monastic vocation The analysis of texts about the preaching campaigns and of their contexts seeks to retrieve the role of preaching and to reconstruct what was preached in the light of its historical and specifically monastic context Monastic texts and their contexts furnish the keys to understanding how medieval monastic authors perceived heresy preached and wrote against it

**BOOK JACKET** *Everyday Saints and the Art of Narrative in the South English Legendary* Anne B. Thompson, 2017-03-02 Anne Thompson here gives the fullest account and explanation to date of the diversity of the more than sixty manuscripts of the South English Legendary a late thirteenth century collection of lively verse lives of saints in a southern English dialect The importance of the SEL to hagiographic and cultural studies has been increasingly acknowledged in recent years Without denying the legendaries religious purpose this book looks at the way SEL narratives reflect and address the complex intertwined tapestry political social religious of Edward I's England while retaining a strong emphasis on the craft of story telling Thompson shows the SEL to be a fresh and exciting early example of popular vernacular literature Firmly grounded in rural and small town life of the 1270s to 1290s in the west of England it is uniquely significant for any understanding of that culture

**The King Embodies the Word: Robert d'Anjou and the Politics of Preaching** Pryds, 2021-10-11 Robert d'Anjou was King of Naples from 1309-1343 and preached throughout his reign As a lay preacher albeit a particularly privileged one Robert adopted the oratorical form generally reserved to clerics in order to announce his piety and erudition but most importantly he preached in order to express and extend his royal office This book studies the sermons that Robert preached at universities diplomatic ceremonies and royal visitations at religious houses including his sojourn at the papal court This work explores an important case study in the history of medieval lay preaching It shows the flexibility of preaching as a form of political and personal oratory and marks an important step in the author's interest to map out the range of licit lay preaching in Medieval Europe

**Preacher, Sermon and Audience in the Middle Ages**, 2018-11-12 Preacher

Sermon and Audience in the Middle Ages presents research by specialists of preaching history and literature. This volume fills some of the lacunae which exists in medieval sermon studies. The topics include an analysis of how oral and written cultures meet in sermon literature, the function of vernacular sermons, an examination of the usefulness of non-sermon sources such as art in the study of preaching history, sermon genres, the significance of heretical preaching, audience composition and its influence on sermon content, and the use of rhetoric in sermon construction. The study looks at preaching history and literature from a wide geographical and chronological area which includes examples from Anglo-Saxon England to late medieval Italy. While doing so, it outlines the state of sermon studies research and points to new areas of investigation.
