The Oxford Handbook of Anglican Studies Mark David Chapman, Sathianathan Clarke, Martyn Percy, 2016 The Anglican Communion is the third largest Christian denomination and claims a membership of some 80 million members in about 164 countries Given that there are only around two hundred countries in the world this makes the churches of the Anglican Communion the most geographically widespread denomination after Roman Catholicism The 44 essays in this volume embrace a wide range of academic disciplines theological historical demography and geography and different aspects of culture and ethics They are united in their discussion of what is effectively a new inter disciplinary subject which we have termed Anglican Studies At the core of this volume is the phenomenon of Anglicanism as this is expressed in different places and in a variety of ways across the world This Handbook covers a far broader set of topics from a wider range of perspectives than has been hitherto attempted in Anglican Studies At the same time it doesn't impose a particular theological or historical agenda The contributions are drawn from across the spectrum of theological views and opinions It shows that the unsettled nature of the polity is part of its own rich history and many will see this as a somewhat lustrous tradition In its comprehensive coverage this volume is a valuable contribution to Anglican Studies and helps formulate a discipline that might perhaps promote dialogue and discussion across the Anglican world

Vodou Marcel Carty, 2010 Summary of Vodou The Next Stage attempts to delineate the silhouette of a religion undergoing a process of transformation Contacts with high priests and priestesses reveal their efforts and readiness to adapt the faith to the demands of time The recent recognition of Vodou as a religion 2003 by the Haitian government has set the stage for further adaptation and change Some of the mysteries that permeate the faith now require clarification rituals should be refined and some of the secret teachings unveiled The public access to the religious concepts would also imply a reinterpretation of myths and a systematic approach to the faith in the light of values and evolutionary concepts Hence initiators must more efficiently train candidates to priesthood in order to promote the evolutionary trend of the belief system The Vodou creed simmers down in its essence the seeds of change The deific manifestations inspire believers to search for and find better ways to cope with life difficulties The derived insight and inspiration throw off sparks of creative energy that ease the material and spiritual journey Like every human endeavor Vodou reflects the worshippers level of spiritual development their use of formal knowledge to

search for truth would enhance their understanding and integration of lessons learned from spiritual phenomena The yearning for enlightenment demands acts of faith and courage It requires a motivating force to move from a perceived good to a greater good Perseverance and a confident hope could set the stage to move away from well worn path to more actualized concepts During rituals for example one would see a shift from invocation to evocation of deities this would ease the forward movement on the spiritual ladder It would not only shed light on better ways to embark on the earthly pilgrimage and the practice of rituals but also open the mind to the endless spiritual possibilities The time for a paradigm shift in the religion has arrived and adjustment now becomes a necessity The public recognition of Vodou paves the way to a higher level of awareness Vodouists now more than ever must use a new narrative to explain how the channeling of deific energies gives access to information hidden beyond the realm of consciousness among other phenomena The pursuit of change would stem from new ways to grasp religious and ethical concepts and integrate them in the practice of the faith The summoning of deities would require a larger vision magical knowledge and the proper conditioning of the believer s body mind and heart to better channel a higher spiritual vibration This implies a connectedness to the sacred dimension within the confine of formal knowledge and an honest perception of one s potentialities resources wants and needs The forward movement on the ladder of spiritual development would not easily unfold for change usually takes time A higher stage of religious practice would require faith courage conviction self expression and a more appropriate interaction with others within and without the community of believers The Vodou faith supports free will freedom justice and respect for self and others Hence the change process would entail more individual social and spiritual responsibility to demonstrate the willingness to pursue enlightenment
