Shindo, 2015-06-17 When Charles Lindbergh landed at LeBourget Airfield on May 21 1927 his transatlantic flight symbolized the new era not only in aviation but also in American culture The 1920s proved to be a transitional decade for the United States shifting the nation from a production driven economy to a consumption based one with adventurous citizens breaking new ground even as many others continued clinging to an outmoded status quo In his new book Charles Shindo reveals how one year in particular encapsulated the complexity of this transformation in American culture Shindo s absorbing look at 1927 shatters the stereotypes of the Roaring 20s as a time of frivolity and excess revealing instead a society torn between holding on to its glorious past while trying to navigate a brave new world His book is a compelling and entertaining dissection of the year that has come to represent the apex of 1920s culture combining references from popular films music literature sports and politics in a captivating look back at change in the making As Shindo notes while Lindbergh s flight was a defining event there were others The Jazz Singer for example brought sound to the movies and the 15 millionth Model T rolled off of Ford s assembly line Meanwhile the era s supposed live for today frivolity was clouded by Prohibition the revival of the Ku Klux Klan and the execution of Sacco and Vanzetti Such events Shindo explains reflected a fundamental disquiet running beneath the surface of a nation seeking to accommodate and understand a broad array of changes from new technology to natural disasters from women s forays into the electorate to African Americans migration to the urban north Shindo however also notes that this was an era of celebrity He not only examines why Lindbergh and Ford were celebrated but also considers the rise and growing popularity of the infamous like convicted murderers Ruth Snyder and Judd Gray and he illuminates the explosive growth of professional sports and stars like baseball s Babe Ruth In addition he takes a close look at cinematic heroines like Mary Pickford and the It girl Clara Bow to demonstrate the conflicting images of women in popular culture Distinctive and insightful Shindo s richly detailed analysis of 1927 s key events and personalities reveals the multifaceted ways in which people actually came to grips with change and learned to embrace an increasingly modern America **Education and Politics in the 1990s** Denis Lawton, 1992 Examines the ideological differences between the education policies of the two main political parties in the UK

New Directions in Print Culture Studies Jesse W. Schwartz,Daniel Worden,2022-06-16 *New Directions in Print Culture Studies* features new methods and approaches to cultural and literary history that draw on periodicals print culture and material culture thus revising and rewriting what we think we know about the aesthetic cultural and social history of transnational America The unifying questions posed and answered in this book are methodological How can we make material archival objects meaningful How can we engage and contest dominant

conceptions of aesthetic historical and literary periods How can we present archival material in ways that make it accessible to other scholars and students What theoretical commitments does a focus on material objects entail New Directions in Print Culture Studies brings together leading scholars to address the methodological historical and theoretical commitments that emerge from studying how periodicals books images and ideas circulated from the 19th century to the present Reaching beyond national boundaries the essays in this book focus on the different materials and archives we can use to rewrite literary history in ways that highlight not a canon of major literary works but instead the networks dialogues and tensions that define print cultures in various moments and movements Historic Avant-Garde Work on Paper Sascha

Bru,2024-03-13 This book examines the many functions of paper in the fine art and aesthetics of the early twentieth century modernist or historic avant garde Expressionism Cubism Futurism Dadaism Surrealism Constructivism and many more With its many collages and photomontages the historic avant garde is generally considered to have transformed paper from a mere support into an artistic medium and to have assisted in art on paper gaining a firm autonomy Bringing together an international team of scholars this book shows that the story of paper in the avant garde has thereby hardly been told The first section looks at a selection of canonized individual avant gardists work on paper to demonstrate that the material and formal analysis of paper in the avant garde s artistic production still holds much in store In the second section chapters zoom in on forms and formats of collective artistic production that deployed paper to move around reproductions of fine art works to facilitate the dialogue between avant gardists to better promote their work among patrons and to make their work available to a wider audience Chapters in the third section lay bare how certain groups within the avant garde began to massively create monochrome works because these could be easily reproduced when transferred to or reproduced as linocuts In the last section of the book chapters explore how the avant garde s attentiveness to paper almost always also implied a critique of the ways in which paper and all that it stood for was treated and labored in European culture and society more broadly The book will be of interest to scholars working in art history modernism and design **Beautiful Circuits** Mark

Goble,2010-11-02 Considering texts by Henry James Gertrude Stein James Weldon Johnson F Scott Fitzgerald Ralph Ellison Richard Wright James Agee and William Carlos Williams alongside film painting music and popular culture Mark Goble explores the development of American modernism as it was shaped by its response to technology and an attempt to change how literature itself could communicate Goble s original readings reinterpret the aesthetics of modernism in the early twentieth century when new modes of communication made the experience of technology an occasion for profound experimentation and reflection He follows the assimilation of such old media technologies as the telegraph telephone and phonograph and their role in inspiring fantasies of connection which informed a commitment to the materiality of artistic mediums Describing how relationships made possible by technology became more powerfully experienced with technology Goble explores a modernist fetish for media that shows no signs of abating The mediated life puts technology into

communication with a series of shifts in how Americans conceive the mechanics and meanings of their connections to one another and therefore to the world and to their own modernity

Art and the Crisis of Marriage Vivien Green Fryd, 2003 Between the two world wars middle class America experienced a marriage crisis that filled the pages of the popular press Divorce rates were rising birthrates falling and women were entering the increasingly industrialized and urbanized workforce in larger numbers than ever before while Victorian morals and manners began to break down in the wake of the first sexual revolution Vivien Green Fryd argues that this crisis played a crucial role in the lives and works of two of America s most familiar and beloved artists Georgia O Keeffe 1887 1986 and Edward Hopper 1882 1967 Combining biographical study of their marriages with formal and iconographical analysis of their works Fryd shows how both artists expressed the pleasures and perils of their relationships in their paintings Hopper s many representations of Victorian homes in sunny tranquil landscapes for instance take on new meanings when viewed in the context of the artist s own tumultuous marriage with Jo and the widespread middle class fears that the new urban multidwelling homes would contribute to the breakdown of the family Fryd also persuasively interprets the many paintings of skulls and crosses that O Keeffe produced in New Mexico as embodying themes of death and rebirth in response to her husband Alfred Stieglitz s long term affair with Dorothy Norman Art and the Crisis of Marriage provides both a penetrating reappraisal of the

interconnections between Georgia O Keeffe s and Edward Hopper s lives and works as well as a vivid portrait of how new understandings of family gender and sexuality transformed American society between the wars in ways that continue to shape it today Fantasies of Precision Ashley Lazevnick,2023-07-11 Redefining the artistic movement that helped shape American modernism In the early decades of the twentieth century a loose contingent of artists working in and around New York City gave rise to the aesthetic movement known as precisionism primarily remembered for its exacting depictions of skyscrapers factories machine parts and other symbols of a burgeoning modernity Although often regarded as a singular group these artists were remarkably varied in their subject matter and stylistic traits *Fantasies of Precision* excavates the surprising ties that connected them exploring notions of precision across philosophy technology medicine and many other fields Bookended by discussions of the landmark First Biennial Exhibition of Painting at the Whitney Museum in 1932 this study weaves together a series of interconnected chapters illuminating the careers of Charles Sheeler Georgia O Keeffe and Charles Demuth Built on a theoretical framework of the writing of modernist poets Marianne Moore and William Carlos Williams *Fantasies of Precision* outlines an ethos of precision that runs through the diverse practices of these artists articulating how the broad range of enigmatic imagery they produced was underpinned by shared strategies of restraint humility and slowness Questioning straightforward modes of art historical classification Ashley Lazevnick redefines the concept that designated the precisionist movement Through its cross disciplinary approach and unique blend of historiography and fantasy *Fantasies of Precision* offers a comprehensive reevaluation of one of the defining movements of artistic modernism *After-Images of the City* Joan Ramon Resina,Dieter Ingenschay,2018-08-06 Criticism on the textual and iconographic construction of the city is extensive yet the problem of historical change in representations of the urban has received little attention Believing traditional accounts are limited by their reflection of a specific historical moment Joan Ramon Resina and Dieter Ingenschay focus by contrast on transition In essays written for this volume scholars of literary and visual studies the history of architecture cultural theory and urban geography explore the ways perceptual or conceptual paradigms of the city supersede or replace others while at the same time retaining the after image of what went before The writers touch on a wide variety of issues related to contemporary urban cultures as they journey through cities including New York Barcelona Madrid Paris Tijuana Berlin and London Drawing on the work of Roland Barthes Walter Benjamin Camilo Jos Cela Honor de Balzac and Alfred Stieglitz their approach is broadly cultural rather than technical *After Images of the City* takes into account the intrinsic instability of the image and reveals that representations of the modern metropolis cannot be fixed in time and history *Conversion to Modernism* Francis M. Naumann,Man Ray,2003 Man Ray 1890 1976 has long been considered one of the most versatile and innovative artists of the twentieth century As a painter writer sculptor photographer and filmmaker he is best known for his intimate association with the French Surrealist group in Paris during the 1920s and 1930s particularly for his highly inventive and unconventional photographic images These remarkable

accomplishments however have tended to overshadow the importance of his earlier work significant not only for comprehending Man Ray's future artistic development but also for fleshing out our understanding of the visual arts in America during one of the most important and crucial phases of the evolution of modernism. The book and the exhibition for which this work will serve as the catalog concentrate on Man Ray's production from 1907 to 1917. Conversion to Modernism will be the first comprehensive fully illustrated work to examine this artist's seminal years. The show and the catalog begin with Man Ray's high school years in Brooklyn, his studies at the Art Students League and the American Academy in New York and the time he spent in life drawing classes at the more progressive Ferrer Center. From 1913 to 1915 Man Ray lived in a small artists colony in Grantwood, New Jersey. It was here studying with Samuel Halpert, a former student of Matisse, that Man Ray began to become the artist we know today. The last section of the show and of the book includes recently discovered photographs and other works that are influenced by a knowledge of the emergent Dada movement. Here is Man Ray in recognizable form just before he leaves the country for France in 1921. This exhibit will first be on display at the Montclair Art Museum from January 26 through March 2003. It will then travel to museums in Athens, Georgia, Philadelphia, and Chicago.

Grabadores contra el franquismo Noemi de Haro García, 2010. Nos encontramos ante la primera obra que analiza tras una investigación rigurosa, documentada y profunda el conjunto de agrupaciones que conformaron el movimiento de vanguardia con claros objetivos políticos y sociales y que utilizaba el realismo social y el grabado para acercar su obra al pueblo con una temática dedicada al mundo del trabajo y a la lucha antifranquista. Esta lucha fue realizada no desde el exilio como había sucedido hasta entonces sino desde el interior del país siendo Madrid, Andalucía, Vizcaya, Cataluña y Valencia los escenarios de su nacimiento y también de su desaparición.
