Classe, 2000 Books for College Libraries: Language and literature, 1988 Material Literacy in 18th-Century Britain Bloomsbury Publishing, 2020-09-03 The eighteenth century has been hailed for its revolution in consumer culture but Material Literacy in Eighteenth Century Britain repositions Britain as a nation of makers It brings new attention to eighteenth century craftswomen and men with its focus on the material knowledge possessed not only by professional artisans and amateur makers but also by skilled consumers This edited collection gathers together a group of interdisciplinary scholars working in the fields of art history history literature and museum studies to unearth the tactile and tacit knowledge that underpinned fashion tailoring and textile production It invites us into the workshops drawing rooms and backrooms of a broad range of creators and uncovers how production and tacit knowledge extended beyond the factories and machines which dominate industrial histories This book illuminates for the first time the material literacies learnt enacted and understood by British producers and consumers The skills required for sewing embroidering and the textile arts were possessed by a large proportion of the British population men women and children professional and amateur alike Building on previous studies of shoppers and consumption in the period as well as narratives of manufacture these essays document the multiplicity of small producers behind Britain's consumer revolution reshaping our understanding of the dynamics between making and objects consumption and production It demonstrates how material knowledge formed an essential part of daily life for eighteenth century Britons Craft technique practice and production the contributors show constituted forms of tactile languages that joined makers together whether they produced objects for profit or pleasure The Publishers Weekly, 1971-10 Being an Actor Simon Callow, 2007-04-01 A new edition of the classic book for actors starting their careers with new material Few actors have ever been more eloquent more honest or more entertaining about their life and their profession than Simon Callow one of the finest actors of his time and increasingly one of the most admired writers about the theater Beginning with the letter to Laurence Olivier that produced his first theatrical job to his triumph as Mozart in the original production of Amadeus Callow takes us with him on his progress through England's rich and demanding

theater his training at London's famed Drama Centre his grim and glorious apprenticeship in the provincial theater his breakthrough at the Joint Stock Company and then success at Olivier's National Theatre are among the way stations Callow provides a guide not only to the actor's profession but also to the intricacies of his art from unemployment the primeval slime from which all actors emerge and to which inevitably they return to the last night of a long run *Gay American Autobiography* David Bergman, 2009 In the first anthology to survey the full range of gay men's autobiographical writing from Walt Whitman to the present *Gay American Autobiography* draws excerpts from letters journals oral histories memoirs and autobiographies to provide examples of the best life writing over the last century and a half Volume editor David Bergman guides the reader chronologically through selected writings that give voice to every generation of gay writers since the nineteenth century including a diverse array of American men of African European Jewish Asian and Latino heritage Documenting a range of life experiences that encompass tattoo artists and academics composers and drag queens hustlers and clerks it contains accounts of turn of the century transvestites gay rights activists men battling AIDS and soldiers attempting to come out in the army Each selection provides important insight on the wide spectrum of ways gay men have defined and lived their lives highlighting how self awareness changes an author's experience The volume includes an introduction by Bergman and headnotes for each of the nearly forty entries Bringing many out of print and hard to find works to new readers this challenging and comprehensive anthology chronicles American gay history and life struggles over the course of the past 150 years Finalist Lambda Book Award for LGBT Anthology Lambda Literary Foundation **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1963 **Bluestockings Now!** Deborah Heller, 2016-03-03 Bringing together top specialists in the field this edited volume challenges the theory that the eighteenth century British intellectual women known as the Bluestockings were an isolated phenomenon spanning the period from the 1750s through the 1790s On the contrary the contributors suggest the Bluestockings can be conceptualized as belonging to a chain of interconnected networks taking their origin at a threshold moment in print media and communications development and extending into the present The collection begins with a definition of the Bluestockings as a social role rather than a fixed group a movement rather than a static phenomenon an evolving dynamic reaching into our late modern era Essays include a rare transcript of a Bluestocking conversation new previously unknown Bluestockings brought to light for the first time and descriptions of Bluestocking activity in the realms of natural history arts and crafts theatre industry travel and international connections The concluding essay argues that the Blues reimagined and practiced women's work in ways that adapted to and altered the course of modernity decisively putting a female imprint on economic social and cultural modernization Demonstrating how the role of the Bluestocking has evolved through different historical configurations yet has structurally remained the same the collection traces the influence of the Blues on the Romantic Period through the nineteenth century and proposes the reinvention of Bluestocking practice in the present *Autobiography* William Jerdan, 1853 **Books and**
