Provided by publisher **Secularism & Secularity** Barry Alexander Kosmin, Ariela Keysar, 2007 *The Role of Religion in Modern Societies* Detlef Pollack, Daniel V.A. Olson, 2012-08-21 Does modernization lead to the decline of religion This question lies at the centre of a key debate in the sociology of religion During the past decade American scholars using primarily American data have dominated this debate and have made a strong case that the answer to this question is no

Recently however a new crop of European scholars working with new sources of European data have uncovered evidence that points toward an affirmative answer This volume pays special attention to these trends and developments to provide the reader with a more well rounded understanding of the many ways in which religion interacts with modernization Respected scholars such as David Voas Steve Bruce and Anthony Gill examine modern societies across the world in this splendid book which will interest sociologists political scientists historians and theologians in equal measure

Reasonable Radical? Ian S. Markham, Joshua Daniel, 2018-01-16 One of the most interesting voices in the Academy and the Church today is Martyn Percy Percy the Dean of Christ Church Oxford and a leading voice in the Anglican Communion is both theologically orthodox yet deeply unconventional While remaining engaged in the scholarly community Percy writes with clarity and passion on topics that range from ecclesiology to music from sexuality to the Trinity from advertising to ministerial training he is a polymath This book is two books in one The first half contains a series of articles written both by church leaders and academics that serve as substantial critical introductions to Percy s thought In the second half the reader gets to hear from Percy himself in a collection of wide ranging material from his corpus While producing a dialectical engagement of some depth as Percy offers written responses to his interlocutors this volume should prove useful for a variety of communities beyond academic circles especially ones engaged with contemporary issues facing ecclesiology churches and the wider Anglican Communion

Religious Diversity in Post-Secular Societies Zakaria Sajir, Sacro-Egoism John S. Knox, 2016-05-10 Sacro Egoism The Rise of Religious Individualism in the West discusses the relationship between secularization participation in religious practices and belief and the emergence of radical individualized expressions of faith in the West Using McMinnville Oregon as a case study it presents the data collected and analyzed from several churches denominations and spiritual settings in that unassuming town and compares it to the results of Heelas and Woodhead s Spiritual Revolution project arriving at a provocative conclusion Rather than abandoning Christianity for alternative spirituality practices McMinnville citizens still feel strongly about their Christian faith taking their spiritual walk to a more personal level than ever before in church history Utilizing both quantitative and qualitative research along with personal stories of faith and exploration from McMinnville residents themselves Sacro Egoism The Rise of Religious Individualism in the West tells a story of radical individualists who have become the highest religious authority in their lives even over the church the Bible and traditional Christian society

Hospital Chaplaincy in the Twenty-first Century Revd Dr Chris Swift, 2014-02-07 This book charts the changing role of hospital chaplains and examines through detailed case studies the realities of practice and the political debates which either threaten or sustain the service This second edition includes a new introduction and updated material throughout to present fresh insights and research about chaplaincy including in relation to New Atheism and the developing debate about secularism and religion in public life

Hospital Chaplaincy in the Twenty-first Century Christopher Swift, 2009 Issues of faith and spirituality have been resurgent in the UK since the

opening of the twenty first century This book charts the impact of shifting attitudes towards spirituality through the experiences of health care chaplains Rooted in a new and challenging interpretation of the chaplain s work in the past the book moves on to describe a current crisis in the nature of spiritual care Using the tools of practical theology to analyze these experiences fundamental problems are identified for chaplains as they work within the culture of evidence based practice As the National Health Service struggles to balance its books in the face of national economic uncertainty chaplains will continue to come under increasing levels of scrutiny Some chaplains have faced the prospect of redundancy or cuts to their budgets while a growing number of NHS Trusts no longer offer chaplaincy to patients out of hours In this context the nature of chaplaincy itself has come into question and rival models of the profession have emerged Is chaplaincy a new and distinct profession within health care based on evidence and available to all Or is it State funded religious activity theoretically open to all but in practice utilized chiefly by the faithful few In responding to these questions the book concludes with a vision of how chaplaincy can both maintain its integrity and be a valued part of twenty first century health care

The Cambridge History of Christianity: Volume 9, World Christianities C.1914-c.2000 Hugh McLeod,2006-01-12 A comprehensive history of Christianity in the century when it truly became a global religion

Periodizing Secularization Clive D. Field,2019 Moving beyond the now somewhat tired debates about secularization as paradigm theory or master narrative *Periodizing Secularization* focuses upon the empirical evidence for secularization viewed in its descriptive sense as the waning social influence of religion in Britain Particular emphasis is attached to the two key performance indicators of religious allegiance and churchgoing each subsuming several sub indicators between 1880 and 1945 including the first substantive account of secularization during the fin de siecle A wide range of primary sources is deployed many of them relatively or entirely unknown and with due regard to their methodological and interpretative challenges On the back of them a cross cutting statistical measure of active church adherence is devised which clearly shows how secularization has been a reality and a gradual not revolutionary process The most likely causes of secularization were an incremental demise of a Sabbatarian culture coupled with the associated emergence of new leisure opportunities and transport links and of religious socialization in the church at home and in the school The analysis is also extended backwards to include a summary of developments during the eighteenth and early nineteenth centuries and laterally to incorporate a preliminary evaluation of a six dimensional model of diffusive religion demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred The book is designed as a prequel to the author s previous volumes on the chronology of British secularization Britain s Last Religious Revival 2015 and Secularization in the Long 1960s 2017 Together they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880 1980

New Atheism: Critical Perspectives and Contemporary Debates Christopher R. Cotter,Philip Andrew Quadrio,Jonathan Tuckett,2017-06-07 Whether understood in a narrow sense as the popular works of a small number

of white male authors or as a larger more diffuse movement twenty first century scholars journalists and activists from all sides in the atheism versus theism debate have noted the emergence of a particular form of atheism frequently dubbed New Atheism The present collection has been brought together to provide a scholarly yet accessible consideration of the place and impact of New Atheism in the contemporary world Combining traditional and innovative approaches chapters draw on the insights of philosophers religious studies scholars sociologists anthropologists and literary critics to provide never before seen insights into the relationship between New Atheism science gender sexuality space philosophy fiction and much more With contributions from Australia Germany and the United Kingdom the volume also presents diversity in regard to religious irreligious commitment with contributions from atheists theists and more agnostic orientations New Atheism Critical Perspectives and Contemporary Debates features an up to date overview of current research on New Atheism a Foreword from Stephen Bullivant co editor of The Oxford Handbook of Atheism and eleven new chapters with extensive bibliographies that will be important to both a general audience and to those conducting research in this area It provides a much needed fresh look at a contentious phenomenon and will hopefully encourage the cooperation and dialogue which has predominantly been lacking in relevant contemporary debates

A Sociology of Spirituality Peter C. Jupp, 2016-03-16 The emergence of spirituality in contemporary culture in holistic forms suggests that organised religions have failed This thesis is explored and disputed in this book in ways that mark important critical divisions This is the first collection of essays to assess the significance of spirituality in the sociology of religion The authors explore the relationship of spirituality to the visual individualism gender identity politics education and cultural capital The relationship between secularisation and spirituality is examined and consideration is given to the significance of Simmel in relation to a sociology of spirituality Problems of defining spirituality are debated with reference to its expression in the UK the USA France and Holland This timely original and well structured volume provides undergraduates postgraduates and researchers with a scholarly appraisal of a phenomenon that can only increase in sociological significance

The Decline of Established Christianity in the Western World Paul Silas Peterson, 2017-09-22 While Church attendance in the West is often cited as being in decline it is argued that this applies primarily to the older established forms of Christianity Other expressions of the faith are in fact stable or even growing This volume provides multidisciplinary interpretations of and responses to one of the most complicated and controversial issues regarding the global transformation of Christianity today the decline of established Christianity in the Western world It also addresses the future of Christianity in the West after the decline Drawing upon historical research sociology religious studies philosophy and theology an international panel of contributors provide new theoretical frameworks for understanding this decline and offer creative suggestions for responding to it Established Christianity is conceptualized as historically culturally socially and politically embedded religion with or without official established status This is a dynamic volume that gives fresh perspective on one of the great social changes taking place in

the West today As such it will be of great interest to scholars of religious sociology history and anthropology as well as theologians Reimagining God and Resacralisation Alexa Blonner,2019-05-14 This book shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted The book begins by contrasting theories of secularisation and resacralisation Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories reimagining God's nature substance and location reimagining human value and purpose and reimagining modes of redemption Finally the book considers how these threads are moving in various different directions and what the religious future might hold This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies new religious movements and the sociology of religion

Religion at Play André Droogers,2014-10-08 Is a powerful position a guarantee that a religion will continue Does God take sides in religious power struggles Can God survive religious exclusivity and diversity Is God migrating from out there to in here Is religion sustainable in the long run In seeking answers to these questions this book explores the possibilities afforded by playful religion Religion has playful origins but this aspect is forgotten as soon as institutional power becomes self serving instead of subservient Power changes the very essence of religion Virtually all religions are distorted versions of a playful original Institutionalization is religion's curse not its blessing Apparent success hides the failure of religion to be faithful to its original intent This book helps find the way back from bordering to inclusivity and openness Faith in the family Alana Harris,2015-11-01 Drawing upon a multi disciplinary methodology employing diverse written sources material practices and vivid life histories Faith in the family seeks to assess the impact of the Second Vatican Council on the ordinary believer alongside contemporaneous shifts in British society relating to social mobility the sixties sexual morality and secularisation Chapters examine the changes in the Roman Catholic liturgy and Christology devotion to Mary the rosary and the place of women in the family and church as well as the enduring but shifting popularity of Saints Bernadette and Thérèse Appealing to students of modern British gender and cultural history as well as a general readership interested in religious life in Britain in the second half of the twentieth century Faith in the family illustrates that despite unmistakable differences in their cultural accoutrements and interpretations of Catholicism English Catholics continued to identify with and practise the Faith of Our Fathers before and after Vatican II Evangelical Identity and Contemporary Culture Mathew Guest,2007-12-01 Building on an ethnographic study of St Michael le Belfrey Church in York a recognized leader in charismatic renewal mission and evangelical innovation since the 1960s this book explores how a persistent tradition of cultural engagement may generate growth while at the same time bringing about significant changes in the structure and

function of the evangelical congregation and in the social construction of Christian identity itself This is the first sociological study of St Michael le Belfrey and the first to take seriously the question of how blazing the trail in terms of mission worship and fellowship influences the way in which congregations exist as Christian communities within the contemporary British context

Embedded Faith Carlton Johnstone, 2013-12-04 Embedded Faith explores the way Christian faith journeys of young adults are embedded within church communities It discusses why young adults go to church why they change churches why some are involved in the practice of church two timing and what they are looking for in a church Embedded Faith also provides valuable insight into the relationship between geographic mobility and belonging to a faith community in a transient age Embedded Faith discusses areas where young adults are engaging and disengaging with church life such as preaching and worship It addresses how stage of life transitions and life experience impact on one s experience and involvement in church This book will enable anyone working with young adults in a church context to give shape to a ministry that is more sensitive and connected to the realities faced by young adults and will call you to the importance of listening to the lived experience of young adults as it relates to faith and church
