

Preface

Mark Maybury

Significant advances have been achieved over the past decade in language processing for information extraction from unstructured multilingual text (see, e.g., tree.nist.gov/). However, the advent of increasingly large collections of audio (e.g., iTunes), imagery (e.g., Flickr), and video (e.g., YouTube) together with rapid and widespread growth and innovation in new information services (e.g., blogging, podcasting, media editing) is driving the need not only for multimedia retrieval but also for information extraction from and across media. Scientists and engineers are innovating in new challenges such as multimodal sentiment analysis, multimodal summarization, and collaborative multimedia editing. While largely independent research communities have addressed extracting information from single media (e.g., text, imagery, audio), to date there has been no forum focused exclusively on cross media information extraction.

Objectives

The AAAI Fall Symposium presents a unique opportunity to move toward an integrated view of media information extraction. The language processing, speech processing, image/video processing and spatial/temporal reasoning communities have much to offer and much to learn from one another. The purpose of this symposium is to bring together researchers and practitioners to report on current advances in multimedia information extraction algorithms and systems and their underlying theories, to foster scientific interchange among these individuals, and as a group to evaluate current efforts and make recommendations for future investigations. An edited collection to include extended versions of the best papers is planned.

Organizing Committee

We have been fortunate to have a highly qualified and diverse program committee which spans the many disciplines involved in multimedia information extraction with representation from the government, industry, academia and non profits including:

- o Kelcy Allwein, Defense Intelligence Agency, Kelcy.Allwein@dia.mil

- o Elisabeth Andree, University of Augsburg, andree@informatik.uni-augsburg.de
- o Thom Blum, Muscle Fish, a division of Audible, Magic.thom@musclefish.com
- o Shih-Fu Chang, Columbia University, sfchang@cc.columbia.edu
- o Bruce Croft, University of Massachusetts, croft@cs.umass.edu
- o Alex Hauptmann, Carnegie Mellon University, alex+@cs.cmu.edu
- o Mark Maybury (chair) The MITRE Corporation, maybury@mitre.org
- o Andy Merlino, Pixel Forensics, amerlino@pixelforensics.com
- o Ram Nevatia, University of Southern California, nevatia@iris.usc.edu
- o Prem Natarajan, BBN, prem@bbn.com
- o Kirby Plessas, Open Source Works, kirbyp@open-source-works.org
- o David Palmer, Virage, dpalmer@virage.com
- o Mubarak Shah, University of Central Florida, shah@cs.ucf.edu
- o Rohini K. Shrivari, SUNY Buffalo, rohini@cedar.buffalo.edu
- o Oliviero Stock, Istituto per la Ricerca Scientifica e Tecnologica, stock@fbk.eu
- o John Smith, IBM T. J. Watson Research Center, jsmith@us.ibm.com
- o Rick Steinheiser, DNI/Open Source Center, RickS@occb.osis.gov
- o Sharon Walter (co-chair) AFRL, Rome NY, Sharon.Walter@rl.af.mil

We thank each for their important contributions in shaping the Symposium.

Approach

The Committee took advantage of the AAAI Symposium format to go beyond a traditional series of presentations to address issues that cut across disciplines to address processing multiple media (e.g., text, speech, maps, imagery, video) and human perceptual modalities (e.g., audition, vision). There are few if any multidisciplinary venues to integrate the multiple subcommunities working in this important

Preface To Mark:

Whispering the Strategies of Language: An Psychological Journey through **Preface To Mark**

In a digitally-driven earth where screens reign great and immediate connection drowns out the subtleties of language, the profound strategies and psychological nuances concealed within words frequently get unheard. Yet, situated within the pages of **Preface To Mark** a fascinating fictional value pulsing with natural feelings, lies an extraordinary quest waiting to be undertaken. Written by an experienced wordsmith, that charming opus encourages viewers on an introspective journey, lightly unraveling the veiled truths and profound impact resonating within the very cloth of every word. Within the mental depths of this touching review, we can embark upon a genuine exploration of the book's primary themes, dissect its fascinating writing design, and succumb to the effective resonance it evokes serious within the recesses of readers' hearts.
