John Alexander Mackay

Preface To Theology:

Preface to Theology John Howard Yoder, 2002-04-01 Long familiar to theologians and theology students John Howard Yoder 1927 1997 is increasingly recognized as one of the most significant theologians of the later twentieth century Yoder hailed as a gifted proponent of Anabaptist social ethics was also an astute and ecumenically minded constructive theologian Preface to Theology initially developed as seminary course material is key to understanding Yoder's theology and his ever central commitment to Christology It provides an introduction to the traditional categories of systematic theology suggesting Yoder's concern with our posture toward theological study and the importance of viewing this study as a vital ongoing process Preface to Theology introduced by Stanley Hauerwas and Alex Sider includes updated documentation of Yoder's sources The approachable student friendly format makes this volume now officially in print for the first time ideal for both the beginning theology student and the advanced scholar Readers in all Christian traditions will find it a penetrating introduction to theology students of Yoder's thought will find it indispensable

A Preface to Christian Theology John Alexander Mackay, 1941 A Preface to Christian Theology John A. MacKay, 1948 A Preface to Theology W. Clark Gilpin, 1996-11-15 At a time of widespread perplexity about the social role of humanistic scholarship few disciplines are as anxious about their nature and purposes as academic theology In this important work W Clark Gilpin dean of the University of Chicago Divinity School proposes that American theological scholarship become responsible to a threefold public the churches the academic community and civil society Gilpin approaches this goal indirectly by investigating the historic social roles of Protestant theologians and the educational institutions in which they have pursued their scholarship and teaching Ranging from analyses of the New England Puritan Cotton Mather to contemporary theologians as public intellectuals Gilpin proposes that we find out what theology is by asking what theologians do By showing how particular cultural problems have always shaped the work of theologians Gilpin's work profoundly illuminates the foundations of American academic theology providing insights that will help guide its future

Theological Encyclopædia and Methodology: Introduction and exegetical theology Revere Franklin Weidner, 1898 A preface to christian theology John Alexander Mackay, 1945 An Introduction to Theology in Global Perspective Stephen B. Bevans, 2009 A comprehensive work on doing theology as part of the Catholic ecclesial community in today's world

An Introduction to Dogmatic Theology Revere Franklin Weidner, 1888 Hegel: Lectures on the Philosophy of Religion: Volume I: Introduction and the Concept of Religion Peter C. Hodgson, 2008-01-24 The Hegel Lectures Series Series Editor Peter C Hodgson Hegel's lectures have had as great a historical impact as the works he himself published Important elements of his system are elaborated only in the lectures especially those given in Berlin during the last decade of his life The original editors conflated materials from different sources and dates obscuring the development and logic of Hegel's thought The Hegel Lectures series is based on a selection of extant and recently discovered transcripts and manuscripts Lectures from specific years are reconstructed so that the structure of Hegel's argument can be

followed Each volume presents an accurate new translation accompanied by an editorial introduction and annotations on the text which make possible the identification of Hegel's many allusions and sources Hegel's Lectures on the Philosophy of Religion represent the final and in some ways the decisive element of his entire philosophical system His conception and execution of the lectures differed significantly on each of the occasions he delivered them in 1821 1824 1827 and 1831 The older editions introduced insoluble problems by conflating these materials into an editorially constructed text The present volumes establish a critical edition by separating the series of lectures and presenting them as independent units on the basis of a complete re editing of the sources by Walter Jaeschke The English translation has been prepared by a team consisting of Robert F Brown Peter C Hodgson and J Michael Stewart with the assistance of H S Harris Now widely recognized as the definitive English edition it is being reissued by Oxford in the Hegel Lectures Series The three volumes include editorial introductions critical annotations on the text textual variants and tables bibliography and glossary Hegel's Introduction establishes the new discipline of philosophy of religion and positions it vis vis the philosophical theological cultural and epistemological issues of the time The Concept of Religion sets forth a speculative definition of religion and discusses the experience concept knowledge and worship of God Introduction to Theology John Christian Wenger, 1954 *Maxims of piety and of Christianity. With preface and notes by F. Relton* Thomas Wilson (bp. of Sodor and Man.), 1898 *The Heterodox Yoder* Paul Martens, 2012-01-01 The Heterodox Yoder provides a critical rereading of Yoder's corpus through his own conviction that discipleship is most basically ethics Tracing the development of Yoder's theological foundations through to their final role in redefining Jewish Christian and ecumenical relations this volume explains why the appropriation and use of the language of politics eventually constrains Yoder's ethical vision to the point that it reframes Christianity within the limits of social ethics alone Because this vision self consciously excludes or at best relativizes many of the claims of orthodox Christianity including but not limited to the ecumenical creeds Martens concludes that Yoder's Christian ethic is best described as heterodox *A General Index to Parker's People's Bible* Henry P. Page, 1901 **Power and Practices** Jeremy Bergen, Anthony G. Siegrist, 2009-08-18 A new generation engages the theology of John Howard Yoder These essays wrestle with questions of power and its implications for social practices including policing nonviolence sexism governmentality dialogue political critique theological construction and the work of inheriting a theological tradition The authors and their approaches to Yoder's work are diverse They bring a wide array of backgrounds to the task from activism and church leadership to advanced studies and the professorate What each has in common is an instinct to place Yoder's work into new conversations and to examine it through new lenses Authors include Chris K Huebner Nekeisha Alexis Baker Paul Martens John C Nugent and Paul C Heidebrecht *The People's Bible* Joseph Parker, 1901 **Reformed Theology from A to Z** Donald K. McKim, 2023-07-31 Reformed theology is one of the major Protestant theological traditions in the United States and Western Europe one that includes various forms of Presbyterianism and dozens of other denominations all deeply

influenced by the Genevan reformer John Calvin Reformed Theology from A to Z is an accessible presentation of 116 theological terms and how they are understood in Reformed theology Each entry is approximately 300 words in length giving a clear and succinct presentation of the meaning of the term along with its understanding and use in the tradition Designed for pastors and students the book includes an annotated bibliography for those seeking further study Introduction to the Psychology of Religion Franklin Simpson Hickman,1926 An Introduction to the Literature of the Old Testament Samuel Rolles Driver,1891 **Introduction to the Science of Chinese Religion** Ernst Faber,1879 **Introduction to Christian Theology** Henry Boynton Smith,1882
