## **Preferences Institutions And Rational Choice:**

Preferences, Institutions, and Rational Choice Keith M. Dowding, Desmond S. King, 1995 Rational choice theory has gained considerable influence in politics and sociology over the past thirty years The use of rational choice methods has proliferated in all areas of social inquiry From the early days as formal proofs and unrealistic assumptions rational choice is increasingly being used to model authentic situations and institutions This collection of essays from leading British writers in the rational choice paradigm concentrates upon the two key aspects of rational choice the role of preferences and institutions The essays encompass both theoretical inquiries and empirical analyses This volume is a vital addition to growing literature on the problems and the application of rational choice in social inquiry

Preferences and Situations Ira Katznelson, Barry R. Weingast, 2005-09-08 A scholarly gulf has tended to divide historians political scientists and social movement theorists on how people develop and act on their preferences Rational choice scholars assumed that people regardless of the time and place in which they live try to achieve certain goals like maximizing their personal wealth or power In contrast comparative historical scholars have emphasized historical context in explaining people s behavior Recently a common emphasis on how institutions such as unions or governments influence people s preferences in particular situations has emerged promising to narrow the divide between the two intellectual camps In Preferences and Situations editors Ira Katnelson and Barry Weingast seek to expand that common ground by bringing together an esteemed group of contributors to address the ways in which institutions in their wider historical setting induce people to behave in certain ways and steer the course of history The contributors examine a diverse group of topics to assess the role that institutions play in shaping people s preferences and decision making For example Margaret Levi studies two labor unions to determine how organizational preferences are established She discusses how the individual preferences of leaders crystallize and become cemented into an institutional culture through formal rules and informal communication To explore how preferences alter with time David Brady John Ferejohn and Jeremy Pope examine why civil rights legislation that failed to garner sufficient support in previous decades came to pass Congress in 1964 Ira Katznelson reaches back to the 13th century to discuss how the institutional development of Parliament after the signing of the Magna Carta led King Edward I to reframe the view of the British crown toward Jews and expel them in 1290 The essays in this book focus on preference formation and change revealing a great deal of overlap between two schools of thought that were previously considered mutually exclusive Though the scholarly debate over the merits of historical versus rational choice institutionalism will surely rage on Preferences and Situations reveals how each field can be enriched by the other

The New Institutional Politics Svante Ersson, Jan-Erik Lane, 2002-01-31 The New Institutional Politics is a comparative study of the impact of political institutions upon outcomes and covers some of the major themes in the new institutionalism It looks at how various democratic institutions like Konkordanzdemokratie or corporatism promote better outcomes than Westminster institutions The evaluation of the performance of political institutions covers the

executive the legislature and the judicial system The book also looks at economic outcomes such as affluence and GDP growth as well as social ones like income distribution and quality of life It examines the problems of institutional effects in democracies and dictatorships and provides analysis of some of the major models in political science This is an exploration of how political institutions matter for political economic and social outcomes It estimates their impact in relation to other major factors such as culture and social structure It is written for political scientists and graduates studying comparative politics

Guy Peters, 2005-10-20

At the turn of the millennium there has been a major growth of interest in institutional theory and institutional analysis in political science This book identifies these approaches to institutions and provides a frame of reference for the different theories In the past decade there has been a major growth of interest in institutional theory and institutional analysis in political science There are however a variety of different approaches to the new institutionalism and these approaches rarely address the same issues This book identifies the various approaches to institutions and then provides a common frame of reference for the different theories Peters argues that there are at least seven versions of institutionalism beginning with the March and Olsen normative institutionalism and including rational choice historical and empirical approaches to institutions and their impact on public policy For each of the versions of institutionalism there is a set of identical questions including the definition of institutions the way in which they are formed how they change how individuals and institutions interact and the nature of a good institution Peters discusses whether there are really so many different approaches to institutionalism or if there is sufficient agreement among them to argue that there is really one institutional theory *The Politics of Eurozone Reforms* Zdenek Kudrna, Sonja Puntscher Riekmann, Fabio Wasserfallen, 2021-08-20

Recent Eurozone reforms mark the most profound deepening of European integration since Maastricht The Politics of Eurozone Reforms analyses how member states formed preferences in the politics of these reforms and how preferences translated into policy outcomes on the European level The chapters summarize insights on the role of different actors and institutions from four datasets based on 200 expert interviews the analysis of 5000 policy documents and constitutional court cases in all EU member states The findings confirm some common wisdom dispel some myths and provide insight into mechanisms facilitating further reforms While quantitative analyses show that Northern and Southern member states were deeply divided case study chapters provide a more refined view Empirical data also indicates that reform decisions were dominated by governments and EU institutions but dispel the notion that Germany alone imposed its preferred policy This book goes further and unpacks the legacies of the EMU crisis that make future reforms dependent on the reduction of financial sector risks which is a necessary condition for rebuilding trust and restarting the gradual convergence of Eurozone reform preferences **Structuring Politics** Sven

Steinmo, Kathleen Thelen, Frank Longstrech, 1992-09-25 These essays demonstrate how the historical institutional approach to the study of politics reveals the nature of institutional change and its effect on policy making Explaining Political

Judgement Perri 6,2011-09-22 What is political judgement Why do politicians exhibit such contrasting thought styles in making decisions even when they agree ideologically What happens when governments with contrasting thought styles have to deal with each other In this book Perri 6 presents a fresh rigorous explanatory theory of judgement its varieties and its consequences drawing upon Durkheim and Douglas He argues that policy makers will understand and misunderstand their problems and choices in ways that reproduce their own social organisation This theory is developed by using the Cuban Missile Crisis of 1962 as an extended case study examining the decision making of the Kennedy Castro and Khrushchev regimes Explaining Political Judgement is the first comprehensive study to show what a neo Durkheimian institutional approach can offer to political science and to the social sciences generally **The European Union Decides** Robert Thomson,Frans N. Stokman,Christopher H. Achen,Thomas König,2006-09-14 European legislation affects countless aspects of daily life in modern Europe but just how does the European Union make such significant legislative decisions How important are the formal decision making procedures in defining decision outcomes and how important is the bargaining that takes place among the actors involved Using a combination of detailed evidence and theoretical rigour this volume addresses these questions and others that are central to understanding how the EU works in practice It focuses on the practice of day to day decision making in Brussels and the interactions that take place among the Member States in the Council and among the Commission the Council and the European Parliament A unique data set of actual Commission proposals are examined against which the authors develop apply and test a range of explanatory models of decision making exemplifying how to study decision making in other political systems using advanced theoretical tools and appropriate research design

*European Union Politics* Michelle|Borrigan Cini (Nieves Perez-Solorzano),2025 This edited textbook covers a broad range of topics being taught in courses on the European Union The 25 chapters are written by experts from around the world and provide extensive coverage of history theories institutions and actors policies and issues and debates **The Common Agricultural Policy** Grace Skogstad,Amy Verdun,2013-09-13 The Common Agricultural Policy CAP is a unique agricultural policy worldwide For many years its status as the only common European Community EC policy governed by EC institutions put it at the heart of European integration Today the CAP is not the only common European Union EU policy Even while it remains the sole instance of a regionally integrated agricultural policy the CAP no longer embodies the same degree of cross national harmonization of agricultural policy among EC EU member states that it once did The CAP has undergone policy reforms in the past two decades and these reforms have spawned a host of questions What has caused the CAP to reform How path breaking are CAP reforms Are they consistent with founding CAP goals or do they encompass new ideas about agriculture s place in the economy and society And what are the consequences of agricultural policy reforms for European farmers consumers and taxpayers for European public goods such as environmental sustainability and preservation of rural communities and landscapes and for third parties outside the EU including the WTO This book was published as a special

issue of the Journal of European Integration
