Sherman, 2008-09-08 Dramatic political economic and sociocultural changes are taking place in Latin America opening up promising possibilities for improving the lives of the poor in that region This book assesses current trends and argues that a market friendly development model is the most legitimate desirable and feasible strategy for attaining a Biblically informed conception of holistic development Preferential Option Amy L. Transforming Faith Communities Michael I. Bochenski, 2013-03-14 Transforming Faith Communities argues for a model of being church that combines congregationalism with a constructive approach to church state relationships Congregationalism within a vision for a renewed Christendom is commended here as a viable option for Christian mission in the twenty first century world In making this case two movements are explored those inspired by sixteenth century Anabaptism and late twentieth century Latin American liberation theology Each movement is held up as a mirror to the other A continuing vision for the transformation of church and society emerges from this book as a number of contemporary resonances begin to sound These include an outline of some likely common features in the development of radical religious communities an examination of some of the factors that create world affirming Christian faith communities and many examples of effective and constructive engagement with church and society across the centuries **The Soul of**

**Development** Amy L. Sherman, 1997-05-01 Ever since Max Weber started an argument about the role of Protestantism in jump starting northern Europe s economic development scholars have clashed over the influence of religion and culture on a society s or an individual s economic prospects Today many wonder whether the explosion of Protestantism in Latin America will effect a similar wave of growth and democratization In this book Sherman compiles the results of her field study and national survey of 1000 rural Guatemalan households She offers persuasive evidence that in Guatemala and throughout the region religious world views significantly influence economic life Sherman explains how the change in attitude and behavior that accompanies conversion from animism to a Biblically orthodox world view has improved the domestic welfare and economic status of many families Further she asserts that this new attitude sympathetic to democratic capitalism has created a moral cultural soil in which freedom personal empowerment an enhanced status for women and a desire to get ahead can be nurtured *Religion and Economics: Normative Social Theory* J.M. Dean, A. M. C. Waterman, 2012-12-06 Normative Social Theory James M Dean and A M C Waterman University of Manitoba 1 Economics and Religion Once Again This hook is a sequel to Economics and Religion Are They Distinct Brennan and Waterman 1994 That volume was motivated by a frustration born of many disappointing encounters between economists and theologians in the 1980s Can bishops synods and other voices of organized religion bring any interesting and disinterested contribution to the public policy debate If so what is the relation of their contribution to that of the purely secular knowledge economists believe they can supply Can economists bring any interesting and disinterested contribution to the public policy debate If so what is the relation of their contribution

to the fundamental values that inform social ethics and that are still guarded to a large extent by religious tradition All too often the two sides talked at cross purposes Well intentioned economists coexisted for a few hours or days with well intentioned theologians whose manner of conceiving social reality was radically incompatible with their own There seemed to be no common ground The first requisite of any genuine conversation is an agreed conceptual framework that is able to accommodate the peculiar social vision both of the economist and of theologian and to display the logical relation between the two

Called for Freedom Jose Comblin, 2009-07-01 In this frank and honest work one of the pioneers of liberation theology in Latin America reassesses the movement in light of post Cold War realities Comblin outlines a liberative theological pastoral agenda for now and the decades to come in the face of massive urbanization and the apparent triumph of the global marketplace With the increasing apartheid of rich and poor the cause of liberation remains as urgent as ever perhaps more so Jose Comblin already established as a premier contributor to liberation theology has now provided a work of major new importance Significant changes have occurred since the inception of liberation theology thirty years ago and Comblin provides a remarkably comprehensive critical and insightful study of economic political cultural and religious developments that liberation theology must address He offers as well a challenging new theological emphasis on freedom Arthur F McGovern SJ University of Detroit A must read for all interested in current debates among Latin American liberation theologians and more broadly on the eve of the third millennium for all wondering about the meaning of the good news of the coming of God's reign in history Lee Cormie St Michael's College and the Toronto School of Theology He dispels the rumor that liberation theology is disappearing or dead This book is about the future of liberation theology and if Jose Comblin is right it will play a vital role in the coming century Curt Cadorette University of Rochester

The Child in American Evangelicalism and the Problem of Affluence David A. *The Ubuntu God* Samuel A. Paul, 2009-01-01 In 1948 the Afrikaner Nationalist Government became the ruling party in South Africa and instituted the brutal system known as apartheid To maintain their power Afrikaners drew on Christian scripture and traditions to create self justifying religious narratives that supported their oppressive ideologies prohibiting inclusion and suppressing pluralism In time these Afrikaner Christian narratives began to unravel as counter narratives within the Christian tradition influenced the Black church to demand equality and democracy This socio political and cultural transformation is best understood and interpreted through the vision of ubuntu a mode of thought in African culture that places a value on humanity in community and shifts the focus from singularity to plurality in South African society In The

Ubuntu God Samuel A Paul traces how the dismantling of apartheid led to recognition of the religious other the recovery of alternate narratives and the reappearance of ubuntu perspective and practice in the political and public sphere After the peaceful transition to a democratically elected government the Truth and Reconciliation Commission created a platform for multiple voices stories and religious narratives to be shared in a public political context This multiplicity of voices resulted ultimately in the formation of a new constitution for South Africa that sought to uphold African values of community and inclusion in its institutions While South Africa s apartheid system and the Truth and Reconciliation Commission are both rooted in the biblical narrative the former used its theology to enforce an iron rule while the latter combined Christian and African concepts to create a pluralistic and open society Such a society is characterized by a culture that emphasizes communality and interdependence

Peasants, Populism and Postmodernism Dr Tom Brass,2013-02-01 Tracing the way in which the

agrarian myth has emerged and re emerged over the past century in ideology shared by populism postmodernism and the political right the argument in this book is that at the centre of this discourse about the cultural identity of otherness difference lies the concept of and innate peasant ness In a variety of contextually specific discursive forms the old populism of the 1890s and the nationalism and fascism in Europe America and Asia during the 1920s and 1930s were all informed by the agrarian myth The postmodern new populism and the new right both of which emerged after the 1960s and consolidated during the 1990s are also structured discursively by the agrarian myth and with it the ideological reaffirmation of peasant essentialism
