Helfgott, 2018-11-02 The women's movement and increasing social consciousness regarding gender disparity and discrimination has helped to make gains over the past several decades to reduce gender disparity for women in the workplace. Women continue to receive lower wages and fewer opportunities for promotion and professional advancement, and this is particularly true in male-dominated professions such as criminal justice. Building on original qualitative data, this book explores the experiences of female criminal justice professionals who have risen to the top of their professional ladders. The book includes first-hand narrative accounts of high-ranking successful professional women working across a range of fields such as policing, courts, corrections, victim and restorative justice services, and criminal justice research agencies in the United States and Canada.
