First Writers—The Sumerians Gary Arthur Thomson, 2011-11-04

Sumerians were the rst people to write Using a sharp three cornered stylus they wrote on claysmall wedge shapes called cuneiform With writing Sumerians turned the corner from prehistory to history After at least two million years of humans telling stories the Sumerians introduced literacy Most civilizations passed down their heritage through orally recited traditionsstories were passed from one generation to another by word of mouth The Sumerians were the rst to write down their oral traditions To make the historical record easier the Sumerians invented calendars with exact dates of events and contracts often corroborated by astronomy Since Sumerian farmers invented irrigation and created a surplus other Sumerians could choose to specialize in law education architecture engineering marketing and politicsall of which were accompanied by written records Using the writings of the Sumerians and modern archaeology this book will trace the story of the Sumerians the worlds rst writers

Studying Human Origins Raymond Corbey, Wil Roebroeks, 2001 This history of human origin studies covers a wide range of disciplines This important new study analyses a number of key episodes from palaeolithic archaeology palaeoanthropology primatology and evolutionary theory in terms of various ideas on how one should go about such reconstructions and what if any the uses of such historiographical exercises can be for current research in these disciplines Their carefully argued point is that studying

the history of palaeoanthropological thinking about the past can enhance the quality of current research on human origins The main issues in the present volume are the uses of disciplinary history in terms of present day research concerns the relative weight of cultural and other external contexts and continuity and change in theoretical perspectives The book's overall approach is an epistemological one It does not in other words primarily address anthropological data as such but our ways of handling such data in terms of our most fundamental but usually quite implicit theoretical presuppositions
