Prehistoric Iberia Antonio Arnaiz-Villena, 2012-12-06 The symposium Prehistoric Iberia genetics anthropology and linguistics was held in the Circulo de Bellas Artes Madrid on 16th 17th November 1998 The idea was bringing together specialists who could address not clearly resolved historic and prehistoric issues regarding ancient Iberian and Mediterranean populations following a multidisciplinary approach This was necessary in the light of the new bulk of genetic archeological and linguistic data obtained with the new DNA technology and the recent discoveries in the other fields Genes may now be easily studied in populations particularly HLA genes and markers of the mitochondrial DNA and the Y chromosome Basques Iberians North Africans Berbers Imazighen and Mediterraneans have presently been widely studied The genetic emerging picture is that Mediterraneans are closely related from West Basque Iberians Berbers to East Jews Lebanese Cretans however Greeks are outliers in all the analyses done by using HLA genes Anthropologists and archeologists showed how there was no people substitution during the revolutionary Mesolithic Neolithic transition in addition cultural relationships were found between Iberia and predynastic Egypt EI Badari culture Basque language translation into Spanish has been the key for relating most Mediterranean extinct languages The Usko Mediterranean languages were once spoken in a wide African and European area which also included parts of Asia This was the old language that was slowly substituted by Eurasian languages starting approximately after the Bronze Age or 2 000 years BC

vasco y a algunas lenguas caucásicas. Los estudios genéticos incluyen a turcos, iraníes, kurdos y georgianos como pertenecientes al sustrato antiguo mediterráneo. Esto contrasta con la composición genética de los griegos que tienen un componente negro subsahariano procedente probablemente de una inmigración hijas de Danaos y de los negros del Egipto faraónico. Finalmente se relatan los avatares de los pueblos caucásicos y de los kurdos luchando denodada y vanamente para mantener su identidad y se indican las raíces culturales y lingüísticas de estos pueblos que han sido deportados, masacrados y borrados del mapa en algunos casos. En la actualidad solo algunos de ellos son capaces de mantener sus genes y en menor grado la lengua de sus ancestros encontrándose desplazados circasianos o viviendo en condiciones inhumanas kurdos o errantes en busca de asilo en otros países <http://basquesiberians.blogspot.com> es <http://chopopntic.mec.es/biolmolpersonal/peraav.htm>
