Prehistory A Very Short Introduction:

Prehistory Chris Gosden, 2018 Recent archaeological discoveries from China and central Asia have changed our understanding of how human civilization developed in the period of some 4 million years before the start of written history In this new edition of his Very Short Introduction Chris Gosden explores the current theories on the ebb and flow of human cultural variety

Introductory Readings in Anthropology Hilary Callan, Brian Street, Simon Underdown, 2013-03-15 Anthropology seeks to understand the roots of our common humanity the diversity of cultures and world views and the organisation of social relations and practices As a method of inquiry it embraces an enormous range of topics and as a discipline it covers a multitude of fields and themes as shown in this selection of original writings As an accessible entry point for upper level students and first year undergraduates new to the study of anthropology this reader also offers guidance for teachers in exploring the subject's riches with their students That anthropology is an immensely expansive inquiry of study is demonstrated by the diversity of its topics from nature conservation campaigns to witchcraft beliefs from human evolution to fashion and style and from the repatriation of indigenous human remains to research on literacy There is no single story of anthropology Taken together these fundamental readings are evidence of a contemporary vibrant subject that has much to tell us about all the worlds in which we live

Home: A Very Short Introduction Michael Allen Fox, 2016-12-01 Thoughts and feelings about home traditionally provided people of all cultures with a firm sense of where they belonged and why But with the world rapidly changing many of our basic notions are becoming problematic Both internationally and within countries populations are constantly on the move seeking better opportunities and living conditions or an escape from violence and war In spite of or perhaps even because of these trends ideas about home continue to shape the way people everywhere frame an understanding of their lives In this Very Short Introduction Michael Allen Fox considers the complex meaning of home and the essential importance of place to human psychology Drawing on a wide array of international examples he discusses what dwelling is and the variety of dwellings Fox also looks at the politics of the concept of home homelessness refugeeism and migration and the future of home and argues that home remains a central organizing concept in human life ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The History of Childhood: A Very Short Introduction James Marten, 2018-08-02 While children are a relatively unchanging fact of life childhood is a constantly shifting concept Throughout the millennia the age at which a child becomes a youth and a youth becomes an adult has varied by gender class religion ethnicity place and economic need As author James Marten explores in this Very Short Introduction so too have the realities of childhood each life shaped by factors such as education expectation and conflict or lack thereof Indeed ancient Roman children lived very

differently than those born of today's Generation Z. Experiences of childhood have been shaped in classrooms and on factory floors in family homes and orphanages and on battlefields and in front of television sets. In addressing this diversity, *The History of Childhood: A Very Short Introduction* takes a global expansive view of the features of childhood that have shaped childhood throughout history and continue to shape it now. From the rules of Confucian childrearing in twelfth century China to the struggles of children living as slaves in the Americas or as cotton mill workers in Industrial Age Britain, Marten takes his inspiration from the idea that the lives of children reveal important and sometimes uncomfortable truths about civilization.

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Archaeology Matters Jeremy A. Sabloff, 2016-06-16 Archaeology is perceived to study the people of long ago and far away. How could archaeology matter in the modern world? Well-known archaeologist Jeremy Sabloff points to ways in which archaeology might be important to the understanding and amelioration of contemporary problems. Though archaeologists have commonly been associated with efforts to uncover cultural identity, to restore the past of underrepresented peoples, and to preserve historical sites, their knowledge and skills can be used in many other ways. Archaeologists help Peruvian farmers increase crop yields, aid city planners in reducing landfills, and guide local communities in tourism development and water management. This brief volume aimed at students and other prospective archaeologists challenges the field to go beyond merely understanding the past and actively engage in making a difference in the today's world.

World Music: A Very Short Introduction Philip V. Bohlman, 2002-05-30 World music emerged as an invention of the West from encounters with other cultures. This book draws readers into a remarkable range of these historical encounters in which music had the power to evoke the exotic and to give voice to the voiceless. In the course of the volume's eight chapters, the reader witnesses music's involvement in the modern world but also the individual moments and particular histories that are crucial to an understanding of music's diversity. World Music is wide-ranging in its geographical scope yet individual chapters provide in-depth treatments of selected music cultures and regional music histories. The book frequently zooms in on repertoires and musicians such as Bob Marley, Bartók, and Nusrat Fateh Ali Khan and attempts to account for world music's growing presence and popularity at the beginning of the twenty-first century.

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Innovation: A Very Short Introduction Mark Dodgson, David Gann, 2018-08-16 What is innovation? How is innovation used in business? How can we use it to succeed? Innovation—the ways ideas are made valuable—plays an essential role in economic and social development and is an

increasingly topical issue Over the last 150 years our world has hit an accelerated rate of transformation From aeroplanes to television and penicillin and from radios to frozen food and digital money the fruits of innovation surround us This Very Short Introduction looks at what innovation is and why it affects us so profoundly It examines how it occurs who stimulates it how it is pursued and what its outcomes are both positive and negative Considering innovation today and discussing future disruptive technologies such as AI which have important implications for work and employment Mark Dodgson and David Gann consider the extent to which our understanding of innovation has developed over the past century and how it might be used to interpret the global economy ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Prehistory: Vsi Chris Gosden, 2007-01-02 **Borders: A Very Short Introduction** Alexander C. Diener, Joshua Hagen, 2012-09-27 Borders offers insights into the form and function of historical and contemporary political and social boundaries The authors show how and why borders will undoubtedly remain controversial topics and at the forefront of global headlines for years to come

Unmaking Waste Sarah Newman, 2023-05-26 In *Unmaking Waste* Sarah Newman asks what happens when there are disagreements about what constitutes waste and what one should do with it both at singular moments in time for example when ideas about waste collide in emerging colonial contexts and across time such as between those who left things behind in the past and the archaeologists who recover them Newman examines ancient Mesoamerican understandings of waste Euro American perceptions of waste in New Spain and early modern European ideals of civility and Christian understandings of good and bad expressed metaphorically through cleanliness and filth These differing perceptions Newman argues demands that we rethink centuries of assumptions imposed on other places times and peoples so long as waste remains a category misunderstood to be common sensical and stable archaeological methods will prove unequal to their task Newman instead proposes anamorphic archaeology an approach that emphasizes the possibility that archaeological objects have multiple physical and conceptual lives

The World from Beginnings to 4000 BCE Ian Tattersall, 2008-02-01 To be human is to be curious And one of the things we are most curious about is how we came to be who we are how we evolved over millions of years to become creatures capable of inquiring into our own evolution In this lively and readable introduction renowned anthropologist Ian Tattersall thoroughly examines both fossil and archaeological records to trace human evolution from the earliest beginnings of our zoological family Hominidae through the appearance of Homo sapiens to the Agricultural Revolution He begins with an accessible overview of evolutionary theory and then explores the major turning points in human evolution the emergence of the genus Homo the advantages of bipedalism the birth of the big brain and symbolic thinking Paleolithic and Neolithic tool making and finally the enormously consequential shift from hunter gatherer to agricultural societies 10 000 years ago Focusing particularly on the

pattern of events and innovations in human biological and cultural evolution Tattersall offers illuminating commentary on a wide range of topics including the earliest known artistic expressions ancient burial rites the beginnings of language the likely causes of Neanderthal extinction the relationship between agriculture and Christianity and the still unsolved mysteries of human consciousness Complemented by a wealth of illustrations and written with the grace and accessibility for which Tattersall is widely admired *The World from Beginnings to 4000 BCE* invites us to take a closer look at the strange and distant beings who over the course of millions of years would become us

Mormonism: A Very Short Introduction Richard Lyman Bushman, 2008-04-22 Beginning with a handful of members in 1830 the church that Joseph Smith founded has grown into a world wide organization with over 12 million adherents playing prominent roles in politics sports entertainment and business Yet they are an oddity They are considered wholesome conservative and friendly on one hand and clannish weird and self righteous on the other *Mormonism A Very Short Introduction* explains who Mormons are what they believe and how they live their lives Written by Richard Lyman Bushman an eminent historian and practicing Mormon this compact informative volume ranges from the history of the Church of Jesus Christ of Latter day Saints to the contentious issues of contemporary Mormonism Bushman argues that Joseph Smith still serves as the Mormons Moses Their everyday religious lives are still rooted in his conceptions of true Christianity They seek revelation to solve life s problems just as he did They believe the authority to seal families together for eternity was restored through him They understand their lives as part of a spiritual journey that started in a council in heaven before the world began just as he taught Bushman s account also describes the tensions and sorrows of Mormon life How are Mormons to hold on to their children in a world of declining moral standards and rampant disbelief How do rational educated Mormons stand up to criticisms of their faith How do single Mormons fare in a church that emphasizes family life The book also examines polygamy the various Mormon scriptures and the renegade fundamentalists who tarnish the LDS image when in fact they re not members In a time when Mormons such as Mitt Romney and Harry Reid are playing prominent roles in American society this engaging introduction enables readers to judge for themselves how Mormon teachings shape the character of believers About the Series Oxford s Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology Politics to Classics Literary Theory to History and Archaeology to the Bible Not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society Eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library Whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable

Before Humanity Stefan Herbrechter, 2021-12-13 Before

Humanity takes up the question of the post in the posthuman from the position of ancestrality Speculating about who or what comes after the human inevitably throws us back to our very beginnings The before in Before Humanity in this context takes on two meanings 1 what happened before we apparently became human which translates into a critical reading of paleo anthropology as well as evolutionary narratives of hominization 2 living through the end of a certain humanist anthropocentric notion of humanity what tasks lie before us which provokes a critical reading of the Anthropocene and current narratives of geologization In other words Before Humanity investigates conceptualizations of humanity and asks whether we have ever been human and if not what could or maybe what should we have been *Atheism and Agnosticism* Peter A. Huff, 2021-09-01 An overview essay and approximately 50 alphabetically arranged reference entries explore the background and significance of atheism and agnosticism in modern society This is the age of atheism and agnosticism The number of people living without religious belief and practice is quickly and dramatically rising Some experts call nonreligion after Christianity and Islam the third largest religion in the world today Understanding the origins history variations and impact of atheism and agnosticism is crucial to getting a grasp of the meaning of the present and gaining a glimpse of the future Exploring some of the most extraordinary people events and ideas of all time this book provides a fair comprehensive and engaging survey of all aspects of contemporary atheism and agnosticism An overview essay discusses the background and social and political contexts of unbelief while a timeline highlights key events Some 50 alphabetically arranged reference entries follow with each providing fundamental objective information about particular topics along with cross references and suggestions for further reading The volume closes with an annotated bibliography of the most important resources on atheism and agnosticism *The Right to Be Punished* Gabriel Hallevy, 2012-10-12 Does an offender have the right to be punished The right to be punished may sound like an oxymoron but it is not necessarily so With the emergence of modern criminal law the offender gained the right to be punished by rational criminal law rather than being lynched by an angry mob The present day offender may have the right to be punished by doctrinal sentencing rather than being subjected to verdicts based on vague unclear and uncertain principles In modern criminal law the imposition of criminal liability follows accurate and strict rules whereas there are no similar rules for the imposition of punishment The process of sentencing is vague and obscure as are the considerations used for the imposition of punishments The objective of the present book is to propose a comprehensive general and legally sophisticated theory of modern doctrinal sentencing The challenges of such a legal theory are plenty and complex In addition to increasing clarity and certainty modern doctrinal sentencing must deal with modern types of delinquency e g organized crime recidivism corporate offenders high tech offenses etc and modern principles of criminal law Modern doctrinal sentencing must serve to ensure optimal sentencing *The New Testament as Literature: A Very Short Introduction* Kyle Keefer, 2008-10-24 The words phrases and stories of the New Testament permeate the English language Indeed this relatively small group of twenty seven works written during the height of the Roman Empire not only

helped create and sustain a vast world religion but also have been integral to the larger cultural dynamics of the West above and beyond particular religious expressions Looking at the New Testament through the lens of literary study Kyle Keefer offers an engrossing exploration of this revered religious text as a work of literature but also keeps in focus its theological ramifications Unique among books that examine the Bible as literature this brilliantly compact introduction offers an intriguing double edged look at this universal text a religiously informed literary analysis The book first explores the major sections of the New Testament the gospels Paul s letters and Revelation as individual literary documents Keefer shows how in such familiar stories as the parable of the Good Samaritan a literary analysis can uncover an unexpected complexity to what seems a simple straightforward tale At the conclusion of the book Keefer steps back and asks questions about the New Testament as a whole He reveals that whether read as a single document or as a collection of works the New Testament presents readers with a wide variety of forms and viewpoints and a literary exploration helps bring this richness to light A fascinating investigation of the New Testament as a classic literary work this Very Short Introduction uses a literary framework plot character narrative arc genre to illuminate the language structure and the crafting of this venerable text About the Series Combining authority with wit accessibility and style Very Short Introductions offer an introduction to some of life s most interesting topics Written by experts for the newcomer they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics from philosophy to Freud quantum theory to Islam

Icons of Beauty Lindsay J. Bosch, Debra N. Mancoff, 2009-12-22 What gives beauty such fascinating power Why is beauty so easy to recognize but so hard to define Across cultures and continents and over the centuries the standards of beauty have changed but the desire to portray beauty to praise beauty and to possess beauty has never diminished *Icons of Beauty* offers an enthralling overview of the most revered icons of female beauty in world art from pre history to the present From images of Eve to Cindy Sherman s self portraits from Cleopatra to Madonna from ancient goddesses to modern celebrities this interdisciplinary set offers fresh insight as to how we can use perceptions of beauty to learn about world cultures both past and present Each chapter looks at an individual work of art to pose a question about the power of beauty What makes beauty modern What is the influence of celebrities How do women portray their own beauty in a different manner than men In depth profiles of the icons reveal how specific ideas about beauty were developed and expressed offering a full analysis of their history cultural significance and lasting influence In addition to renowned works of art *Icons of Beauty* also looks at icons in literature film politics and contemporary entertainment Interdisciplinary and multicultural in its approach chapters inside this set also feature sidebars on provocative topics and issues such as foot binding and body adornment myths and practices opinions and interpretations and even related films songs and even comic book characters Generously illustrated this rich set encompasses history politics society women s studies and art history making it an indispensable resource for high school and college students as well as general readers

Archaeology: The Basics Clive Gamble, 2007-08-07 This second edition from

our successful Basics series presents another chance to delve into this increasingly popular subject Fully updated Archaeology The Basics has been revised to reflect growth in areas such as material culture human evolution and the political use of the past Lively and engaging some of the key questions answered include What are the basic concepts of archaeology How and what do we know about people and objects from the past What makes a good explanation in archaeology How do we know where to look From everyday examples to the more obscure this is essential reading for all students independent archaeologists and indeed all those who want to know more about archaeological thought history and practice A piece of broken pottery will never seem the same again

Documentary Film: A Very Short Introduction Patricia Aufderheide, 2007-11-28 Documentary film can encompass anything from Robert Flaherty's pioneering ethnography *Nanook of the North* to Michael Moore's anti Iraq War polemic *Fahrenheit 9/11* from Dziga Vertov's artful Soviet propaganda piece *Man with a Movie Camera* to Luc Jacquet's heart tugging wildlife epic *March of the Penguins* In this concise crisply written guide Patricia Aufderheide takes readers along the diverse paths of documentary history and charts the lively often fierce debates among filmmakers and scholars about the best ways to represent reality and to tell the truths worth telling Beginning with an overview of the central issues of documentary filmmaking its definitions and purposes its forms and founders Aufderheide focuses on several of its key subgenres including public affairs films government propaganda particularly the works produced during World War II historical documentaries and nature films Her thematic approach allows readers to enter the subject matter through the kinds of films that first attracted them to documentaries and it permits her to make connections between eras as well as revealing the ongoing nature of documentary's core controversies involving objectivity advocacy and bias Interwoven throughout are discussions of the ethical and practical considerations that arise with every aspect of documentary production A particularly useful feature of the book is an appended list of 100 great documentaries that anyone with a serious interest in the genre should see Drawing on the author's four decades of experience as a film scholar and critic this book is the perfect introduction not just for teachers and students but also for all thoughtful filmgoers and for those who aspire to make documentaries themselves About the Series Combining authority with wit accessibility and style Very Short Introductions offer an introduction to some of life's most interesting topics Written by experts for the newcomer they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics from philosophy to Freud quantum theory to Islam

Prehistory A Very Short Introduction Introduction

In the digital age, access to information has become easier than ever before. The ability to download Prehistory A Very Short Introduction has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Prehistory A Very Short Introduction has opened up a world of possibilities. Downloading Prehistory A Very Short Introduction provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Prehistory A Very Short Introduction has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Prehistory A Very Short Introduction. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Prehistory A Very Short Introduction. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Prehistory A Very Short Introduction, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Prehistory A Very Short Introduction has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students,

researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Prehistory A Very Short Introduction Books

1. Where can I buy Prehistory A Very Short Introduction books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
