Babayan, Michael Pifer, 2018-05-07 This book rethinks the Armenian people as significant actors in the context of Mediterranean and global history. Spanning a millennium of cross cultural interaction and exchange across the Mediterranean world, essays move between connected histories, frontier studies, comparative literature, and discussions of trauma, memory, diaspora, and visual culture. Contributors dismantle narrow national ways of understanding Armenian literature, propose new frameworks for mapping the post Ottoman Mediterranean world, and navigate the challenges of writing national history in a globalized age. A century after the Armenian genocide, this book reimagines the borders of the Armenian, pointing to a fresh vision for the field of Armenian studies that is omnivorously comparative, deeply interconnected, and rich with possibility.

In the Land of Ninkasi Tate Paulette, 2024 In the Land of Ninkasi tells the story of the world's first great beer culture. In this authoritative but light hearted account, archaeologist Tate Paulette brings the world of ancient Mesopotamian beer into vivid focus. He weaves together insights drawn from archaeological remains, ancient works of art, and cuneiform texts, and pulls the reader step by step into the process of analysis and interpretation, explaining exactly what we know and how we know it. Readers will learn about the beers themselves and how they were made, consumed, and stored, and how to recreate modern versions of Mesopotamian brews.

Nairi Lands Guido Guarducci, 2019-12-19 This study analyses the social and symbolic value of the material culture, in particular the pottery production and the architecture, and the social structure of the local communities of a broad area encompassing Eastern Anatolia, the South Caucasus, and North western Iran during the last phase of the Late Bronze Age and the Early Iron Age. This broad area is known from the Assyrian texts as Nairi lands. The second part of the study furnishes a reassessment of pottery production characteristics and theories, as well as of the socio economic structure and issues tied to the sedentary and mobile local communities of the Nairi lands. The study brings into focus the characteristics, the extension, and the distribution of Grooved pottery, along with other pottery typologies, by providing an accompanying online catalogue with detailed descriptions and high resolution images of the pots and sherds obtained from public and private institutions in Turkey and Armenia. Moreover, the socio political organisation and subsistence economy issues are addressed in order to advance a possible reconstruction of the social structure of the Nairi lands communities. Particular attention is devoted to the pastoral nomad component and the role played within the Nairi phenomenon. The study includes a very large corpus of text images and high resolution color images of the pottery of the area under examination, gathered by the author in order to offer a reliable tool and compendium.

Isotopic Investigations of Pastoralism in Prehistory Alicia Ventresca Miller, Cheryl Makarewicz, 2017-09-18 Pastoralists were a vital economic and social force in ancient societies around the globe, transforming landscapes poorly suited for agriculture into spaces of vast productive potential while simultaneously connecting mobile and sedentary communities alike across considerable distances. Drawing from the rich archaeological records of Asia, Africa, and Europe, *Isotopic Investigations of Pastoralism in Prehistory* brings together the latest studies employing heavy and light stable isotopic analyses of humans and animals to investigate

pastoralist diets movement and animal management strategies The contributions presented in this volume highlight new methodological developments while simultaneously drawing attention to the diverse environmental factors that contribute to isotopic variation in human plant and animal tissues Particular attention is paid to how pastoralist decisions regarding animal pasturing and mobility can be teased out of complex isotopic datasets and also to the challenges in extracting information on the scales of human mobility in pastoralist landscapes This volume will appeal to scholars in archaeology anthropology and ecology as well as those with interests in animal management *Dreams of Emancipation* Norihiro Naganawa, 2025-09-30

Given Russia's invasion of Ukraine why do emancipation messages that emanated from Russia count Navigating multilingual sources this book addresses the role of Russia's multiethnic society and borderlands in generating kaleidoscopic repercussions of its 1917 Revolution It also sees the USSR's interactions with its neighboring countries as a crucible of the Soviet modality of communism The book shows how the collapse of the Russian Empire further released a vast range of liberationist projects and dreams far from confined to the goals of Bolshevism in its borderlands and beyond and how the Soviet Union became a highly ambiguous source of emancipatory inspiration in the long twentieth century overshadowing today's global politics **Origini - XXXVI** Lorna Anguilano, Francesca Balossi Restelli, Baruch Brandl, Salvatore
