The Prehistory of Australia Derek John Mulvaney, 1975 Revised edition of 1969 volume using new evidence for the antiquity of man in Australia changes in technology and sequences of remains A Prehistory of Australia, New Guinea, and Sahul John Peter White, James F. O'Connell, 1982 Mainly economic and ecological interpretation of archeological data with brief review of contact ethnography and scattered references to art reprint Who really killed Tasmanias Aborigines by P Cobern from The Bulletin 23 3 82 and letters by L Ryan D R Gregg S Cane J Clark S Bowdler J Stockton D Orth and C Perkins which have been annotated separately Ancient Peoples and Places The Prehistory of Australia, 1969 Australia JOHAN. KAMMINGA, 2021-03-31 Australia s human prehistory through more than 40 000 years is the challenging theme of this masterly survey John Mulvaney and Johan Kamminga bring together the discoveries and often controversial interpretations of six decades of archaeological research to reveal that across this island continent in the face of contrasting environments and changing climates human responses produced many cultures languages and life styles The Old World is usually credited with the origins of art and spirituality Recent discoveries however prove that symbolic rock art and complex burial rites also existed in Australia at challengingly early times. The authors evaluate the dating evidence upon which Australia s human story before 1788 is reconstructed They review diverse topics such as the controversy about the time people first arrived on the continent's northern coast the extinction of marsupial megafauna and the diversity of Aboriginal rock art Prehistory of Australia explains why Aboriginal Australia is recognised today for its significance in global prehistory and why so many of its archaeological places have merited World Heritage listing
